**Teaching Academic ESL Writing** Eli Hinkel, 2003-10-17 Teaching Academic ESL Writing Practical Techniques in Vocabulary and Grammar fills an important gap in teacher professional preparation by focusing on the grammatical and lexical features that are essential for all ESL writing teachers and student writers to know The fundamental assumption is that before students of English for academic purposes can begin to successfully produce academic writing they must have the foundations of language in place the language tools grammar and vocabulary they need to build a text This text offers a compendium of techniques for teaching writing grammar and lexis to second language learners that will help teachers effectively target specific problem areas of students writing Based on the findings of current research including a large scale study of close to 1 500 non native speakers essays this book works with several sets of simple rules that collectively can make a noticeable and important difference in the quality of ESL students writing The teaching strategies and techniques are based on a highly practical principle for efficiently and successfully maximizing learners language gains Part I provides the background for the text and a sample of course curriculum guidelines to meet the learning needs of second language teachers of writing and second language writers Parts II and III include the key elements of classroom teaching what to teach and why possible ways to teach the material in the classroom common errors found in student prose and ways to teach

students to avoid them teaching activities and suggestions and questions for discussion in a teacher training course Appendices to chapters provide supplementary word and phrase lists collocations sentence chunks and diagrams that teachers can use as needed The book is designed as a text for courses that prepare teachers to work with post secondary EAP students and as a professional resource for teachers of students in EAP courses      **Landmark Essays on ESL Writing** Tony Silva,Paul Kei Matsuda,2013-10-31 In recent years the number of nonnative speakers of English in colleges and universities in North America has increased dramatically As a result more and more writing teachers have found themselves working with these English as a Second Language ESL students in writing classes that are designed primarily with monolingual native English speaking students in mind Since the majority of institutions require these students to enroll in writing courses at all levels it is becoming increasingly important for all writing teachers to be aware of the presence and special linguistic and cultural needs of ESL writers This increase in the ESL population has over the last 40 years been paralleled by a similar growth in research on ESL writing and writing instruction research that writing teachers need to be familiar with in order to work effectively with ESL writers in writing classrooms of all levels and types Until recently however this body of knowledge has not been very accessible to writing teachers and researchers who do not specialize in second language research and instruction This volume is an attempt to remedy this problem by providing a sense of how ESL writing scholarship has evolved over the last four decades It brings together 15 articles that address various issues in second language writing in general and ESL writing in particular In selecting articles for inclusion the editors tried to take a principled approach The articles included in this volume have been chosen from a large database of publications in second language writing The editors looked for works that mirrored the state of the art when they were published and made a conscious effort to represent a wide variety of perspectives contributions and issues in the field To provide a sense of the evolution of the field this collection is arranged in chronological order      **ESL Intermediate/Advanced Writing** Mary Ellen Munoz Page,Steven Gras,2013-01-01 Master ESL English as a Second Language Writing with the study guide designed for non native speakers of English Skill building lessons relevant to today s topics help ESL students write complete sentences paragraphs and even multi paragraph essays It s perfect for classroom use or self guided writing preparation DETAILS Intermediate drills for improving skills with parallel structure mood correct shifting errors dangling participles Advanced essay drills focusing on narrative descriptive process reaction comparison and contrast Superb preparation for students taking the TOEFL Test of English as Foreign Language      **Advanced Composition for ESL Students** Bryan Ryan,2004 Advanced Composition for ESL Students ACES is a textbook and handbook designed to familiarize international students for whom English is not their native language with the expectations of academic and other types of formal writing especially at the college level and beyond It will focus on the writing process the structure of paragraphs and essays common rhetorical forms and the grammatical structures and mechanics of good written communication This book is targeted at internationals
