Health Care Benchmarking and Performance Evaluation Yasar A. Ozcan, 2007-12-08. Hugely relevant in today's world of healthcare performance management, this comprehensive work applies the analytical framework of Data Envelopment Analysis methodology to provide health care administrators with specific tools for performance evaluation. Most important, the book provides health care practitioners and administrators with information of what is lacking in specific aspects of performance and then outlines the ways how these performance inadequacies can be improved.

Evaluation of Health Care Quality in Advanced Practice Nursing Joanne V. Hickey, Christine A. Brosnan, 2012-02-28. Named a 2013 Doody's Core Title. This is a wonderful resource that fills a true gap in the literature. This is a topic that needs more exposure and more emphasis in the field of advanced practice nursing. The value of evaluation in healthcare quality will be seen in the outcomes of healthcare improvements. Score 100. 5 Stars Doody's Medical Reviews. High level evaluation skills reflecting national standards and benchmarks are becoming increasingly important in our changing health care climate. This is the only nursing textbook to lay the foundation for APNs to achieve the highest possible competency in conducting systematic and in-depth evaluations of all aspects of health care. Comprehensive in scope, it distills current best practice information from numerous sources to create a thorough and reliable resource for APN and DNP graduates. The text addresses both the theoretical basis of evaluation and its application as an integral part of contemporary practice. It provides an overview of evaluation science and critically examines the characteristics, sources, and quality of the nature of evidence. Several frameworks are described to provide the reader with different evaluation models, including those of economic evaluation. The text covers in detail the evaluation of organizations, systems, and standards for practice, including information systems and patient care technology, the redesign of health care in accordance with patient/family-centered models, and the challenges of the current trend toward electronic medical records. Also addressed is the evaluation of populations and health care teams, including characteristics, risk factors, and determinants, as well as the emphasis on interdisciplinary collaborative health teams. Additionally, the text covers translating outcomes from evaluation into health care policy and opportunities for advocacy and leadership among APNs.

Key Features: Provides comprehensive coverage of evaluation of patient population, systems, health team, and health
