The Art and Politics of Asger Jorn Karen

Kurczynski, 2017-07-05 A leading figure of the postwar avant garde Danish artist Asger Jorn has long been recognized for his founding contributions to the Cobra and Situationist International movements yet art historical scholarship on Jorn has been sparse particularly in English This study corrects that imbalance offering a synthetic account of the essential phases of this prolific artist s career It addresses his works in various media alongside his extensive writings and his collaborations with various artists groups from the 1940s through the mid 1960s Situating Jorn s work in an international post Second World War context Karen Kurczynski reframes our understanding of the 1950s away from the Abstract Expressionist focus on individual expression toward a more open ended conception of art as a public engagement with contemporary culture and politics Kurczynski engages with issues of interest to twenty first century artists and scholars highlighting Jorn s proposition that the sensory address of art and its complex relationship to popular media can have a direct social impact Perhaps most significantly this study foregrounds Jorn s assertion that creativity is crucial to subjectivity itself in our increasingly mediated Society of the Spectacle *Cobra* Willemijn Stokvis, 2017 The Cobra group founded in 1948 was the most important avant garde movement in European art after the Second World War Its members primarily artists from Copenhagen Brussels and Amsterdam were driven by Marxist ideals and felt they were opening a new way for the art of the future Back cover
