Depth Psychology, Interpretation, and the Bible Brayton Polka,2001-02-12 Polka also raises the larger issue of the relationship between modernity hermeneutics and biblical ontology He argues that the origins and structure of modern values can be understood only through a theory of hermeneutics whose ontology overcomes the dualism between the secular and the religious between philosophy and religion Polka shows this to be possible when biblical ontology is understood to be at once rational and faithful secular and religious He uses the work of Spinoza Kant Hegel and Kierkegaard to articulate the ontological framework that makes clear how typically modern Freud is in being unable to account for the relationship of his thought to biblical religion Polka argues that Freudian metapsychology precisely because it cannot account for its own principles of explanation contradicts the insights of depth psychology Paradoxically religion returns in Freud as the repressed as it does in so much of modern thought Polka shows that what is therefore required is a hermeneutical theory whose ontological articulation of biblical religion is critically self conscious
