## **Egypt After Nasser Sadat Peace And The Mirage Of Prosperity:**

**Egypt After Nasser** Thomas W. Lippman,1989      *Democratic Backsliding in Post-Mubarak Egypt* Arshad,2024-09-24 Arshad examines the phenomenon of democratic backsliding in post 2011 Egypt Capturing a critical juncture in Egyptian politics this book explains the failure of Egypt s nascent democratic experiment and its relapse into authoritarianism Egypt is the crucial playbook to understand the reversal of a country towards an authoritarian regime and what measures state and non state actors should employ to prevent backsliding The book is an essential model for understanding democratic backsliding through structural and agential factors The former encompasses society politics economics and the military while the latter deals with the choices and attitudes of the leadership during the political transition Providing crucial insights into what went wrong during the democratic transition process this text acts as a guide to curbing the rise of authoritarian regimes in the face of the next potential revolution The book is a valuable resource for scholars who are interested in democratisation authoritarian regimes military leadership political protests and political leadership      **Colonialism, Neo-Colonialism, and Anti-Terrorism Law in the Arab World** Fatemah Alzubairi,2019-01-10 The threat of personal harm and destruction from terrorist attacks is nowhere near as great as in Arab nations However are counter terrorism laws in the Arab world formulated and enforced to protect or oppress Colonialism Neo Colonialism and Anti Terrorism Law in the Arab World examines the relationship between Western influence and counter terrorism law focusing on the Arab world which is on the one hand a hostile producer of terrorist organizations and on the other a leader in countering terrorism With case studies of Egypt and Tunisia Alzubairi traces the colonial roots of the use of coercion and extra legal measures to protect the ruling order which are now justified in both the West and the Arab world in the name of counter terrorism Colonialism Neo Colonialism and Anti Terrorism Law in the Arab World provides important lessons for counter terrorism not just in these countries but also elsewhere in the world      **Oil** Xiaobing Li,Michael Molina,2014-10-14 Despite ongoing efforts to find alternatives oil is still one of the most critical and valuable commodities on earth This two volume set provides extensive background information on key topics relating to oil profiles countries that are major producers and consumers of oil and examines relevant political issues Aside from air and water oil is perhaps the most valuable natural resource Oil supplies the tremendous energy needs of the modern world What exactly is oil where does it come from how does it get consumed and who is using it This encyclopedia provides clear answers to these questions and more offering students entries on the fundamentals of the oil industry and profiles of the countries that play a major role in oil production and consumption Volume 1 presents topical entries on critical concepts key terms major oil spills and disasters and important organizations and individuals relating to the oil industry Entries define terms such as barrel and reserve cover incidents such as the BP oil spill and explain the significance of organizations such as OPEC The second volume spotlights specific countries that are major producers consumers exporters and importers of oil from the United States to Russia to Saudi Arabia to Venezuela Each

profile shows readers the importance of oil in that country through a brief background history data on its oil usage or production information about major trading partners and an explanation of political issues **Social Justice in Islam** Deina Abdelkader, 2000-01-01 Western theoretical approaches of modernization development social progress and interaction have failed to understand the dynamics of the Islamic revival Deina Abdelkader in this seminal work argues that questions of social justice are indelibly tied to the phenomenon of contemporary Islamic resurgence as the quest for social justice is in fact motivated by the Shari'ah hence an integral part of Islamic life and weltanschauung Using the two tools of maqasid and maslahah and through the examination of the dialectical link between fiqh and reality the author shows their indispensability as important methodological tools for the study of the social sciences and indeed of social phenomena **Liminal Postmodernisms**, 1994 **Endgames** Hicham Bou Nassif, 2020-10-01 The 2011 Arab Spring is the story of what happens when autocrats prepare their militaries to thwart coups but unexpectedly face massive popular uprisings instead When demonstrators took to the streets in 2011 some militaries remained loyal to the autocratic regimes some defected whilst others splintered The widespread consequences of this military agency ranged from facilitating transition to democracy to reconfiguring authoritarianism or triggering civil war This study aims to explain the military politics of 2011 Building on interviews with Arab officers extensive fieldwork and archival research as well as hundreds of memoirs published by Arab officers Hicham Bou Nassif shows how divergent combinations of coup proofing tactics accounted for different patterns of military behaviour in 2011 both in Egypt and Syria and across Tunisia and Libya **US Assistance, Development, and Hierarchy in the Middle East** Anne Mariel Zimmermann, 2016-12-21 What does US aid buy in the Middle East Drawing on extensive primary source research this book examines the role and consequences of US aid to three countries in the Middle East The author argues that the political survival strategies of incumbent leaders in Egypt Israel and Jordan shaped not only the type of aid that these countries received from the US but also its developmental and geopolitical impact Leaders who relied heavily on distributing selective benefits to their ruling coalitions were more likely to receive forms of US aid that complemented their distributive political economies and undermined the state's developmental capacity which simultaneously rendered them more dependent on US resources and more likely to cede fragments of their sovereignty to their major donor Non distributive leaders however could reap the full benefits of highly discretionary and technologically sophisticated aid incorporating it into developmental policies that rendered them progressively less dependent on Washington and better able to say no when it was in their best interest **From the 1919 Revolution to the 2011 Arab Spring** Uzi Rabi, Mira Tzoref, 2024-05-08 Focused on three Egyptian revolutions in 1919 1952 and 2011 this edited book argues that each of these revolutions is a milestone which represents a meaningful turning point in modern Egyptian history Revolutions are typically characterized by a fundamental change in political and social infrastructures as well as in the establishment of new values and norms However it should be noted that this may not be entirely applicable when examining

the context of the three Egyptian revolutions the 1919 revolution failed to liberate Egypt from British colonial hegemony the 1952 revolution failed to rework the country's social and economic systems and unify the Arab world and the Arab Spring revolution of 2011 culminated in a chaotic economic and social catastrophe thus failing to solve the young generation's crisis Nevertheless by revisiting and re-defining these revolutions through diverse theoretical frameworks the book proposes that each of them played a significant role in shaping Egypt's political social and cultural identity This book is specifically of interest for students historians and social scientists with a keen interest in Egyptian history and the Middle East offering fresh perspectives and insights into these transformative moments in Egypt's history *The Middle East*, 1989 **The**
