How Everyday Forms of Racial Categorization Survived Imperialist Censuses in Puerto Rico Rebecca Jean Emigh,Patricia

Ahmed, Dylan Riley, 2021-09-29 This book examines the history of racial classifications in Puerto Rico censuses starting with the Spanish censuses and continuing through the US ones Because Puerto Rican censuses were collected regularly over hundreds of years they are fascinating test cases to see what census categories might have been available and effective in shaping everyday ones Published twentieth century censuses have been well studied but this book also examines unpublished documents in previous centuries to understand the historical precursors of contemporary ones State centered theories hypothesize that censuses especially colonial ones have powerful transformative effects In contrast this book shows that such transformations are affected by the power and interests of social actors not the strength of the state Thus despite hundreds of years of exposure to the official dichotomous and trichotomous census categories these categories never replaced the continuous everyday ones because the census categories rarely coincided with Puerto Rican s interests Forced Migration in the Spanish Pacific World Eva Maria Mehl, 2016-07-11 Nearly 4 000 Mexican troops and convicts landed in Manila Bay in the Philippines from 1765 to 1811 The majority were veterans and recruits the rest were victims of vagrancy campaigns Eva Maria Mehl follows these forced exiles from recruiting centers jails and streets in central Mexico to Spanish outposts in the Philippines and traces relationships of power between the imperial authorities in Madrid and the colonial governments and populations of New Spain and the Philippines in the late Bourbon era Ultimately forced migration from Mexico City to Manila illustrates that the histories of the Spanish Philippines and colonial Mexico have embraced and shaped each other that there existed a connectivity between imperial processes in the Pacific and the Atlantic Oceans and that a perspective of the Spanish empire centered on the Atlantic cannot adequately reflect the historical importance of the richly textured transpacific world **Agrarian Puerto Rico** César J. Ayala, Laird W. Bergad, 2020-01-30 Challenges dominant interpretations of colonialism s impact on the economy and social structuring of a US owned Caribbean colony **Europe and the World, 1650-1830** Professor Jeremy Black, Jeremy Black, 2013-10-08 Europe and the World 1650 1830 is an important thematic study of the first age of globalisation It surveys the interaction of Europe Europe s growing colonies and other major global powers such as the Ottoman Empire China India and Japan Focusing on Europe s impact on the world Jeremy Black analyses European attitudes exploration trade and acquisition of knowledge **George III** Jeremy Black, 2008-10-01 The sixty year reign of George III 1760 1820 witnessed and participated in some of the most critical events of modern world history the ending of the Seven Years War with France the American War of Independence the French Revolutionary Wars the campaign against Napoleon Bonaparte and battle of Waterloo in 1815 and Union with Ireland in 1801 Despite the pathos of the last years of the mad blind and neglected monarch it is a life full of importance and interest Jeremy Black s biography deals comprehensively with the politics the wars and the domestic issues and harnesses the richest range of unpublished sources in Britain Germany and the United States But using George III s own prolific correspondence it also interrogates the man himself his strong religious faith and his powerful sense of moral duty to his family and to his nation

Black considers the king's scientific cultural and intellectual interests as no other biographer has done and explores how he was viewed by his contemporaries. Identifying George as the last British ruler of the Thirteen Colonies, Black reveals his strong personal engagement in the struggle for America and argues that George himself, his intentions and policies were key to the conflict.

Coffee, Society, and Power in Latin America William Roseberry, Lowell Gudmundson, Mario Samper Kutschbach, 1995-01-01 In January 1927 Gus Comstock, a barbershop porter in the small Minnesota town of Fergus Falls, drank eighty cups of coffee in seven hours and fifteen minutes. The New York Times reported that near the end, amid a cheering crowd, the man's gulps were labored, but a physician examining him found him in pretty good shape. The event was part of a marathon coffee drinking spree set off two years earlier by news from the Commerce Department that coffee imports to the United States amounted to five hundred cups per year per person. In *Coffee, Society, and Power in Latin America*, a distinguished international group of historians, anthropologists, and sociologists examine the production, processing, and marketing of this important commodity. Using coffee as a common denominator and focusing on landholding patterns, labor mobilization, class structure, political power, and political ideologies, the authors examine how Latin American countries of the late nineteenth and early twentieth centuries responded to the growing global demand for coffee. This unique volume offers an integrated comparative study of class formation in the coffee zones of Latin America as they were incorporated into the world economy. It offers a new theoretical and methodological approach to comparative historical analysis and will serve as a critique and counter to those who stress the homogenizing tendencies of export agriculture. The book will be of interest not only to experts on coffee economies but also to students and scholars of Latin America, labor history, the economics of development, and political economy.

The Golden Leaf Charlotte Cosner, 2021-04-30 A Choice Reviews Editors' Pick. Through the rise and fall of empires, ideologies, and economies, tobacco grown on the tiny island of Cuba has remained an enduring symbol of pleasure and extravagance. Cultivated as one of the first reliable commodities for those inhabitants who remained after conquistadors moved on in search of a mythical wellspring of gold, tobacco quickly became crucial to the support of the swelling Spanish Empire in the seventeenth and eighteenth centuries. Eventually, however, tobacco became one of the final stabilizing forces in the empire, and it ultimately proved more resilient than the best-laid plans of kings and queens. Tobacco and those whose livelihoods depended on it shrugged off the empire's collapse and pressed on into the twentieth century as an economic force. Any state or political power must reckon with Cosner's exploration of the history of this golden leaf through the personal narratives of farmers, bureaucrats, and laborers all struggling to build an independent and lucrative economic engine. Through conquest, rebellion, colonial and imperial schemes, and the eventual

Communist revolution Cuban tobacco and cigars became a luxury item that commanded loyalty that defied mere borders or embargoes Ultimately The Golden Leaf is a story of two carefully cultivated products Cuban tobacco and its lofty reputation

Illicit Riches Wim Klooster,2024-11-25 This book aims to revise the history of Dutch world trade in the seventeenth and eighteenth centuries While studies of Dutch economic expansion tend to focus on the East India Company and its Asian empire activities in the Atlantic have been neglected Consequently their importance has been seriously underestimated By examining the transit trade in the Caribbean this thorough and original study presents an alternative view of the Dutch seaborne empire facing east as well as west The Dutch transit trade in the Caribbean revolved around Cura ao and St Eustatius small islands that did not have much in common with other colonies in the region Sugar and tobacco production in St Eustatius was never a prosperous enterprise and Cura ao proved to be unsuited for the cultivation of cash crops But enterprising merchants turned these Dutch possessions into entrep ts local counterparts of Amsterdam from where a wide variety of European commodities was sent to foreign colonies in exchange for tropical produce Although outlawed by French English and Spanish mercantilist policies inter imperial commerce became a booming business providing the Dutch in the New World with a niche which was much more profitable than historians have realized The Caribbean contraband trade thus helped the Dutch to survive the loss in the mid seventeenth century of most of their territorial empire in the Western hemisphere The Virgin, the King, and the Royal Slaves of El Cobre María Elena Díaz,2002-07-01 This book tells the

extraordinary story of a village of peasants and miners who were slaves belonging to the king of Spain and whose local patroness was a vision of the virgin It explores the ways the royal slaves assisted by te force of popular religion achieved a degree of freedom unprecedented in other colonial societies of the New World Bibliographie Internationale

Bondage Lissette Acosta Corniel,2024-06-01 This groundbreaking volume addresses the enslavement and experiences of Black Africans in Spain and the Spanish Caribbean particularly La Espa ola or Hispaniola and Puerto Rico two of the earliest colonies Spanning nearly four hundred years and rooted in extensive archival research Transatlantic Bondage sheds light on a number of relatively underexamined topics in these locales including the development and application of slavery laws

disobedience and its consequences migration gender family lifestyle and community building among the free Black population and white allies In bringing together new and recent work by leading scholars including two essays translated into English here for the first time the book is also a call for further study of slavery in the Spanish Caribbean and its impact on the region
