Zeynep Gambetti and Marcial Godoy Anatívia bring together a select group of scholars to investigate the societal ramifications of the present day concern with security in diverse contexts and geographies The essays claim that discourses and practices of security actually breed insecurity rather than merely being responses to the latter By relating the binary of security insecurity to the binary of neoliberalism neoconservatism the contributors to this volume reveal the tensions inherent in the proliferation of individualism and the concurrent deployment of techniques of societal regulation around the globe Chapters explore the phenomena of indistinction reversal of terms ambiguity and confusion in security discourses Scholars of diverse backgrounds interpret the paradoxical simultaneity of the suspension and enforcement of the law through a variety of theoretical and ethnographic approaches and they explore the formation and transformation of forms of belonging and exclusion Ultimately the volume as a whole aims to understand one crucial question whether securitized neoliberalism effectively spells the end of political liberalism as we know it today Zeynep Gambetti is Associate Professor of Political Theory at Bogazici University Istanbul Marcial Godoy Anatívia is Associate Director of the Hemispheric Institute of

Necromáquina Rossana Reguillo, 2021-11-15 Este libro es una colección de ensayos etnográficos y críticos realizados a lo largo de varios años Los textos son el resultado de un programa de investigación situado es decir una investigación que ha buscado en el tiempo y en diversos territorios develar visibilizar volver inteligible los lenguajes de las violencias sus gramáticas y sus caligrafías en un horizonte en el que colapsan la razón y las palabras Se trata de un esfuerzo por construir categorías analíticas ensayar modos de acercamiento metodológicos para narrar lo indecible de las violencias y el horror se trata de traer aquellas escenas que por su condición aparentemente marginal o excepcional trazan un mapa que estalla la noción de normalidad En definitiva se relatan los malestares los horrores y los síntomas de un tiempo de colapso en el paradigma civilizatorio de la modernidad Busca relatar el tránsito del biopoder el poder de hacer vivir a la necromáquina un dispositivo de muerte que avanza engullendo territorios cuerpos y futuros

Habla, jugador Julio Hevia, 2014-03-17 Un libro escrito entre el escritorio y la calle que se apodera de la jerga peruana para ahondar en su naturaleza camaleónica Como en los cuartos de espejos de antiguas ferias populares el autor ha registrado el paso bullente y subversivo del habla en este libro singular Todas las malas palabras venidas de los bajos fondos sazonadas con el florido de muchachas y muchachos aminorados de los prístinos lingüísticos ingresan por primera vez al ámbito académico El lector comprobará que jerga y poesía se refuerzan e iluminan Julio Hevia las observa explica y juega con la polisemia más densa de su estructura oculta la jerga atravesada por el argot Este libro es el primer tratado serio de la ironía del habla Es paradójico que en un mundo como el nuestro donde manda la burocracia y la esterilidad del trámite donde se impuso y sobrevive una interrogante de la talla de cómo es la jerga suerte de gran collage comunicante y de puzzle comunicado tome los términos de donde crea y pueda incorpore una y otra vez los tonos requeridos o evacue los giros a desestimar

Espacio urbano, comunicación y violencia en América Latina Mabel Moraña, 2002 El tema de la violencia es connatural a la historia de América Latina y por lo mismo resulta inagotable en cualquiera de sus múltiples manifestaciones materiales y simbólicas desde los orígenes coloniales hasta la actualidad A nivel continental la praxis y el discurso de la violencia pueden perseguirse desde la penetración de la depredación colonizadora con que América Latina es inscrita en el desarrollo cultural de Occidente hasta llegar a las más recientes y sutiles formas asumidas por la violencia de Estado pasando por las instancias de imposición de modelos culturales y económicos que en las distintas épocas impactaron radicalmente las culturas criollas y vernáculas América Latina ha sufrido históricamente las consecuencias de una violencia fundacional que la condenara a una posición periférica con respecto a sistemas globales cuyos centros han difundido en sus correspondientes áreas de influencia la racionalidad de su propia reproducción cultural política y económica De esta manera la trama social que resultara de la matriz colonialista registró desde el comienzo las huellas imborrables de la violencia que se manifestara tanto a nivel racial como económico tanto en lo referido a las políticas de género como en lo relacionado con la distribución geocultural del poder en todos sus niveles Las dolorosas repúblicas hispanoamericanas de que hablara Martí se han debatido desde entonces contra las formas naturalizadas de la violencia de la exclusión y el autoritarismo la miseria interna y la depredación imperialista la penetración cultural las intervenciones políticas siempre amparadas en la retórica legitimadora que las clases dominantes esgrimieran en cada caso para perpetuar su poder El presente volumen que compila trabajos que fueran presentados y discutidos en la Segunda Conferencia Internacional de Estudios Culturales Latinoamericanos que se llevara a cabo en la Universidad de Pittsburgh en marzo del año 2000 tiene como foco principal una articulación específica en torno al tema de la violencia contemporánea la que analiza los cruces y formas específicas en que la violencia se manifiesta teniendo como escenario principal los centros urbanos de América Latina y las modalidades a partir de las cuales el fenómeno de la violencia es recogido y representado por los medios de comunicación de masas tanto como por la cultura popular el arte la literatura y otras formas de discurso letras y la alta cultura The theme of violence is natural to the history of Latin America and therefore it is endless in any of its multiple material and symbolic manifestations from its colonial origins to the present At a continental level the praxis and discourse of violence can be traced back to the spread of the colonising voracity that conditioned Latin America within the cultural development of the West followed by the most recent and subtle forms assumed by state violence including the instances of imposition of cultural and economic models that at the different times radically impacted the Creole and vernacular cultures Thus Latin America has historically suffered the consequences of a founding violence which condemned it to a peripheral position in relation to global systems which centres have spread in their corresponding areas of influence the rationality of their own cultural political and economic replication In this way the social fabric resulting from the colonialist matrix has recorded from the beginning the indelible traces of violence that are displayed both at racial and economic levels both in terms of gender policies and in terms of the geocultural distribution of

power at all levels The painful Spanish American republics of which Martí spoke have since fought against the normalisation of the violence of exclusion and authoritarianism the internal misery and imperialistic greed the cultural colonisation and political actions always condoned by a legitimising rhetoric that the ruling classes wielded in every instance to perpetuate their power This volume which compiles papers that were presented and discussed at the Second International Conference on Latin American Cultural Studies to be held at the University of Pittsburgh in March 2000 has as its main focus a specific articulation around the topic of contemporary violence it analyses the intersections and specific ways in which violence presents itself in the urban centres of Latin America as its main scenario and the modalities from which the phenomenon of violence is recorded and represented by the mass media as well as popular culture art literature and other forms of literary discourse and high culture **Debates críticos en América Latina** Nelly Richard, 2008 **Comunicación**, 2002

Postmodernidad en el mundo contemporáneo Humberto Orozco Barba, 1995 *Estudios*, 2001 *Trabajo duro, trabajo sucio* Claudia Krmpotic, 2005 Heterotropías Carlos A. Jáuregui, Juan Pablo Dabove, 2003 Hay un riesgo en la relación entre crítica y producción textual ya que puede ser inevitablemente metafórica Esta relación está cargada de peligros tanto políticos como teóricos Este volumen asume ese riesgo sabiendo del carácter ineludible de la metáfora cultural como herramienta crítica y como materia misma de las narrativas de identidad Los artículos de este volumen estudian diversos tropos culturales que hemos llamado heterotropías centrales en la construcción y redefinición de identidades y alteridades de América Latina Las heterotropías nos hablan de nosotros y de los Otros y principalmente del espacio vertiginoso e inestable en el que se dan las prácticas de significación cultural Las 6 secciones de este volumen abordan respectivamente los siguientes problemas relativos a la constitución de tropos imperiales en relación con la invención de un Nuevo Mundo y las fantasmas poscoloniales que buscan conjurar los traumas de la colonialidad los conflictos en torno a la representación hegemónica y no hegemónica de las insurgencias que traman y tensan el tejido social latinoamericano las narrativas donde la disolución de los tropos de la modernidad neocolonial occidentalista androcéntrica y racionalista latinoamericana sirve para pensar las limitaciones de la conciencia letrada que históricamente fuera interpretada privilegiada del discursar sociocultural los relatos en los que se examina la constitución disciplinaria de cuerpos diles Foucault y la manera en los que estos resisten y potencian las posibilidades políticas del cuerpo las narrativas que exploran afirmaciones identitarias en torno a la lengua y la raza como modos de cancelar la marca racial lingüística cultural económica asignada al sujeto americano y la condición y crisis posmoderna de las macro identidades en el marco de los procesos de globalización y desterritorialización y la consiguiente reconfiguración de narrativas no esencialistas que recuperan la viabilidad política de algunas metáforas There is an inherent risk in the relationship between criticism and textual production since it can be inevitably metaphorical This relationship is fraught with both political and theoretical dangers This volume assumes this risk knowing the inescapable nature of the cultural metaphor as a critical tool and as the very essence of identity narratives The articles in this volume study various

cultural tropes that we have called heterotropies central to the construction and redefinition of identities and otherness in Latin America Heterotropies speak to us about ourselves and about the other and mainly about the vertiginous and unstable space in which practices of cultural significance take place The 6 sections of this volume respectively address the following relative problems the constitution of imperial tropes in relation to the invention of a New World and postcolonial fantasies that seek to ward off the traumas of coloniality the conflicts around the hegemonic and non hegemonic representation of the insurgencies that plot and strain the Latin American social fabric the narratives where the dissolution of the tropes of neocolonial westernist androcentric and rationalist Latin American modernity serves to think about the limitations of the literate conscience that historically was a privileged interpreter of sociocultural development the stories in which the disciplinary constitution of docile bodies Foucault is examined and the way in which they resist and enhance the political poetic possibilities of the body the narratives that explore identity statements around language and race as ways to cancel the mark racial linguistic cultural economic assigned to the American subject and the postmodern condition and crisis of macro identities within the framework of globalization and deterritorialization processes and the consequent reconfiguration of non essentialist narratives that recover the political viability of some metaphors *Gestión ambiental de ciudades*
