Cuba which covers approximately the last 200 million years of life on Earth is rich in very varied fossils witnessing a wide diversity of organisms both animals and plants that inhabited the Antillean and Caribbean region and that constitute the inheritance of the biological diversity that the current Cuban archipelago exhibits As a result of the preparation of the Cuban Metallogenic Map at scale 1 250 000 forty one models and eight sub models of metallic mineral deposits were identified These models of descriptive genetic type together with the analysis of their spatial distribution and their relationship with geology allowed the identification and mapping of ten mineral systems linked to the geodynamic environments present in the Cuban territory Cuba has large deposits of limestone loam dolomite kaolin gypsum and anhydrite rock salt marbles sands and clays of different types zeolites peat therapeutic peloids and many more There are manifestations of decorative and precious rocks such as jasper jadeite different varieties of quartz and even xylopals A compilation of geochemical data of oceanic basalt samples from previous works together with data of analyzed samples during this study in order to discuss geochemical criteria based on immobile element proxies for fractionation indices alkalinity mantle flow and subduction addition provide a comprehensive ophiolite classification according to their tectonic setting This book addresses different facets of the geological knowledge of Cuba history of its cartography marine geology fossil record stratigraphy tectonics classification of its ophiolites quaternary deposits metallogeny and minerageny *Tourism and Cuba* Lauren Duffy,Carol Kline,2020-05-07 Cuba has experienced many social economic and political changes since Raul Castro retained presidency of the island nation in 2008 This comprehensive volume examines how Cuba has restructured some of its core economic policies in order to tackle stagnation these include allowing for more legalized private enterprises reducing the number of State employed workers and fostering additional outside investments The authors explore the surge of entrepreneurial activity in tourism among Cuban residents due to these reforms whether that be offering new tourism products or expanding traditional ones Though the current diplomatic climate suggests continued uncertainty the ripple effect of a potentially thawing relationship between Cuba and the USA resulted in an unexpected surge of international tourists wishing to experience Cuba before it opened to the American travel market This book highlights the factors that are influencing and in some cases complicating tourism planning and development in Cuba The authors explore a wide range of topics including tourism and land use policy competitiveness responsible practices gender and ethical advertising the role of tour guides emergence of casa particulares experiential learning and solidarity and authenticity through local art This book will interest students researchers politicians and investors with a focus on Cuba It was originally published as a special issue of the journal *Tourism Planning Development* **From Rainforest to Cane Field in Cuba** Reinaldo Funes Monzote,2009-11-30 In this award winning environmental history of Cuba since the age of Columbus Reinaldo Funes Monzote emphasizes the two processes that have had the most dramatic impact on the island s landscape deforestation and sugar cultivation During the first 300 years of Spanish settlement sugar plantations arose primarily in areas where forests had been cleared by the royal navy which

maintained an interest in management and conservation for the shipbuilding industry The sugar planters won a decisive victory in 1815 however when they were allowed to clear extensive forests without restriction for cane fields and sugar production This book is the first to consider Cuba's vital sugar industry through the lens of environmental history Funes Monzote demonstrates how the industry that came to define Cuba and upon which Cuba urgently depended also devastated the ecology of the island The original Spanish language edition of the book published in Mexico in 2004 was awarded the UNESCO Book Prize for Caribbean Thought Environmental Category For this first English edition the author has revised the text throughout and provided new material including a glossary and a conclusion that summarizes important developments up to the present

**Cuba's Wild East** Peter Hulme, 2011-11-07 Cuba's Wild East A Literary Geography of Oriente recounts a literary history of modern Cuba that has four distinctive and interrelated characteristics Oriented to the east of the island it looks askant at a Cuban national literature that has sometimes been indistinguishable from a history of Havana Given the insurgent and revolutionary history of that eastern region it recounts stories of rebellion heroism and sacrifice Intimately related to places and sites which now belong to a national pantheon its corpus while including fiction and poetry is frequently written as memoir and testimony As a region of encounter that corpus is itself resolutely mixed featuring a significant proportion of writings by US journalists and novelists as well as by Cuban writers

**Ecology of the Marine Fishes of Cuba** Rodolfo Claro, Kenyon C. Lindeman, Lynne R. Parenti, 2014-06-17 Situated at the convergence of the Atlantic Ocean the Caribbean Sea and the Gulf of Mexico Cuba's coastal waters are home to one of the most diverse fish faunas in the Western Hemisphere However until now information in English about Cuban marine fishes and their habitats has been limited This comprehensive guide to the region's fishes fills that void Originally published in Spanish in 1994 Ecology of the Marine Fishes of Cuba has been completely updated and revised for this English edition The book collects and expands on the findings of more than 20 years of work by an international team of ichthyologists and marine biologists studying the coastal fishes and habitats of Cuba In chapters arranged topically the thirteen contributors detail the physical characteristics of the Cuban coast document the physiology behavior reproduction feeding patterns and growth patterns of the region's fishes and survey Cuba's fisheries management

programs The result is an unparalleled integration of English and Spanish language references on coastal fishes of the western Atlantic complete with a comprehensive bibliography that constitutes a valuable reference in its own right The extensive information presented here establishes an important foundation for comparisons of regional biological variations and demonstrates the need for proactive habitat and fishery management policies in the area **Geografía de Cuba.**
