The Resilient Apocalypse Julia A. Kushigian, 2024-05 Portraits of good battling evil in the geography of hell come in many forms in the Hispanic World Apocalyptic nightmares frightful images of chaos and death are inclusive and interrelated yet simultaneously project an exceptional quality never seen or experienced before the mother of all battles I am the only one who can fix it This investigation explores how narrative logic may challenge unified notions of finalities when images remain unfulfilled in a proscribed End By redeploying transglobal character and narrative potential the Apocalypse suggests bewildering complexities as it trains its lens on New Beginnings Here analysis explores resilient formulas for combating the End through resistance in Latin America Spain and Latin communities in the US Whether revealed through gilded illustrations messianic chronicles poetry Baroque letters racially motivated novels sexuality and spirituality in film or intimidating immigrant photos apocalyptic examples explode notions of final moments The Resilient Apocalypse ironically performs as both an internal defense a vehicle for mourning and a counter discourse to power a mechanism for resistance This study argues for a strategy that listens to and keeps the enemy in sight and in mind a method for grappling with and engaging difference by decolonizing the politics of the End It reformulates an incomplete mythical and uncanny narrative into a poetics of resistance with communal solutions and obligations When the Apocalypse is unremittingly sought after to impose social justice salvation and reason it paradoxically introduces future hope against itself In the works of Beato de Li bana Sor Juana In s de la Cruz Cirilo Villaverde Cristina Garc a Mart n Kohan Jennifer Maytorena Taylor Santiago Roncagliolo Alfonso Cuar n etc rival traditions internalize competing apocalyptic worldviews and arrive at sustainable plans of action for negotiating the afterward By bracketing the finality of the End and proposing a tension between conflict archaeology and the transcendence of opposition through renovation salvation or hope this study reveals how plural competing viewpoints of the End go a long way to legitimizing each other Ultimately The Resilient Apocalypse traces a compelling narrative theory of unfulfilled promise that forever changes the way we engage the other and value the self during intervals of fear

McClennen, 2014-03-21 Caught between the well worn grooves the Boom and the Gen X have left on the Latin American literary canon the writing intellectuals that comprise what the Generation of 72 have not enjoyed the same editorial acclaim or philological framing as the literary cohorts that bookend them In sociopolitical terms they neither fed into the Cold War inflected literary prizes that sustained the Boom nor the surge in cultural capital in Latin American cities from which the writers associated with the Crack and McOndo have tended to write This book seeks to approach the Generation of 72 from the perspective of cosmopolitanism and global citizenship a

theoretical framework that lends a fresh and critical architecture to the unique experiences and formal responses of a group of intellectuals that wrote alongside globalization's first wave

Beyond Bolaño Héctor Hoyos, 2015-01-27 Through a comparative analysis of the novels of Roberto Bolaño and the fictional work of César Aira, Mario Bellatín, Diamela Eltit, Chico Buarque, Alberto Fuguet, and Fernando Vallejo among other leading authors, Héctor Hoyos defines and explores new trends in how we read and write in a globalized era. Calling attention to fresh innovations in form, voice, perspective, and representation, he also affirms the lead role of Latin American authors in reshaping world literature. Focusing on post-1989 Latin American novels and their representation of globalization, Hoyos considers the narrative techniques and aesthetic choices Latin American authors make to assimilate the conflicting forces at work in our increasingly interconnected world. Challenging the assumption that globalization leads to cultural homogenization, he identifies the rich textual strategies that estrange and re-mediate power relations both within literary canons and across global cultural hegemonies. Hoyos shines a light on the unique avant-garde phenomena that animate these works, such as modeling literary circuits after the dynamics of the art world, imagining counterfactual Nazi histories, exposing the limits of escapist narratives, and formulating textual forms that resist worldwide literary consumerism. These experiments help reconfigure received ideas about global culture and advance new creative articulations of world consciousness.
