Harker, 1982-01-01      **Black Edwardians** Jeffrey Green, 2012-11-12 This study reveals the presence of black people in all walks of life all over the British Isles at the height of the imperialist era challenging conventional views on imperialism racism and British social history Historians of British society have largely ignored this most visible of minorities and commentators on racism have been silent on the period      *The Edwardian Picture Postcard as a Communications Revolution* Julia Gillen, 2023-07-13 This monograph offers a novel investigation of the Edwardian picture postcard as an innovative form of multimodal communication revealing much about the creativity concerns and lives of those who used postcards as an almost instantaneous form of communication In the

early twentieth century the picture postcard was a revolutionary way of combining short messages with an image making use of technologies in a way impossible in the decades since until the advent of the digital revolution This book offers original insights into the historical and social context in which the Edwardian picture postcard emerged and became a craze It also expands the field of Literacy Studies by illustrating the combined use of posthuman multimodal historic and linguistic methodologies to conduct an in depth analysis of the communicative sociolinguistic and relational functions of the postcard Particular attention is paid to how study of the picture postcard can reveal details of the lives and literacy practices of often overlooked sectors of the population such as working class women The Edwardian era in the United Kingdom was one of extreme inequalities and rapid social change and picture postcards embodied the dynamism of the times Grounded in an analysis of a unique open access digitized collection of 3 000 picture postcards this monograph will be of interest to researchers and postgraduate students in the fields of Literacy Studies sociolinguistics history of communications and UK social history

Victorian and Edwardian Responses to the Italian Renaissance John E. Law, Lene Østermark-Johansen, 2017-03-02 The historiography of the Italian Renaissance has been much studied but generally in the context of a few key figures Much less appreciated is the extent of the enthusiasm for the subject in the 19th and early 20th centuries when the subject was discovered by travellers and men and women of letters historians artists architects and photographers and by collectors on both sides of the Atlantic The essays in *Victorian and Edwardian Responses to the Italian Renaissance* explore the breadth of the responses stimulated by the encounter between the British the Americans and the Italians of the Renaissance The volume approaches the subject from an interdisciplinary perspective While recognising the abiding importance of the familiar great names it seeks to draw attention to a wider cast of people many of whom led colourful energetic lives knew Italy well and wrote eloquently about the country and its Renaissance Several essays show that Renaissance studies became a field in which female historians could explore areas of relevance to the New Woman Other chapters examine the aims and politics of collecting and the place of the collector in literature and in the rediscovery of Renaissance artists The contribution of teachers and other less formal champions of the Italian Renaissance is explored as is the role of photographers who re framed and re viewed Florence the Renaissance city for Victorian and later eyes

**Victorian and Edwardian Country Life from Old Photographs** John S. Creasey, 1977

Depictions and Images of War in Edwardian Newspapers, 1899-1914 G. Wilkinson, 2002-12-13 Through a

detailed examination of newspaper coverage from 1899-1914 this book seeks to understand the vicarious experience of warfare held by Edwardians at the outset of the First World War The attitudes towards and perceptions of war held by those who participated in it or encouraged others to do so are crucial to our understanding of the origins of the First World War Taking into account media history cultural studies and military history Wilkinson argues that the press depicted war as distant and safe beneficial and desirable and even as some kind of sport or game We are cautioned to avoid the same misconceptions of war in our own contemporary discussions of armed conflict

**Dance and Dancers in the Victorian and Edwardian Music Hall Ballet** Alexandra Carter, 2017-11-28 First published in 2005 The Victorian and Edwardian music hall ballet has been a neglected facet of dance historiography falling prey principally to the misguided assumption that any ballet not performed at the Opera House or legitimate theatre necessarily meant it was of low cultural and artistic merit Here Alexandra Carter identifies the traditional marginalization of the working class female participants in ballet historiography and moves on to reinstate the lost period of the music hall ballet and to apply a critical account of that period Carter examines the working conditions of the dancers the identities and professional lives of the ballet girls and the ways in which the ballet of the music hall embodied the sexual psyche of the period particularly in its representations of the ballet girl and the ballerina By drawing on newspapers journals theatre programmes contemporary fiction poetry and autobiography Carter firmly locates the period in its social economic and artistic context The book culminates in the argument that there are direct links between the music hall ballet and what has been termed the birth of British ballet in the 1930s a link so long ignored by dance historians This work will appeal not only to those interested in nineteenth century studies but also to those working in the fields of dance studies gender studies cultural studies and the performing arts

**Britain's Working Coast in Victorian and Edwardian Times** John Hannavy, 2011-11-20 The coastline of Victorian and Edwardian Britain provided beauty entertainment and the venue for most people's holidays But it was also a thriving centre of industry shipbuilding and fishing plus the numerous trades associated with dockyards coastal transport and the leisure industry This book travels around Britain's coast clockwise from London looking at the industries that could be found at many of the cities and towns en route Illustrated with an amazing collection of coloured postcards and other early photographs the working coast of Britain is brought to life in all its bustling detail

politics and international relations as well as culture and gender This diverse approach to the subject ensures that the book offers a timely revision of the Dreadnought and the Edwardian Age *Reimagining Dinosaurs in Late Victorian and Edwardian Literature* Richard Fallon, 2021-11-04 Reimagining Dinosaurs argues that transatlantic popular literature was critical for transforming the dinosaur into a cultural icon between 1880 and 1920
