Eeyores Backpack:

Eeyore's Backpack RH Disney Staff, 2002-05-28 Adorable little Eeyore is recreated in a soft lovable plush with a great backpack And just look inside the backpack to find a board book that tells the delightful story of Eeyore's search for a new home

Digital Performance Steve Dixon, 2015-01-30 The historical roots, key practitioners and artistic, theoretical and technological trends in the incorporation of new media into the performing arts The past decade has seen an extraordinarily intense period of experimentation with computer technology within the performing arts Digital media has been increasingly incorporated into live theater and dance and new forms of interactive performance have emerged in participatory installations on CD ROM and on the Web In Digital Performance Steve Dixon traces the evolution of these practices, presents detailed accounts of key practitioners and performances and analyzes the theoretical, artistic and technological contexts of this form of new media art Dixon finds precursors to today's digital performances in past forms of theatrical technology that range from the *deus ex machina* of classical Greek drama to Wagner's *Gesamtkunstwerk* concept of the total artwork and draws parallels between contemporary work and the theories and practices of Constructivism, Dada, Surrealism, Expressionism, Futurism and multimedia pioneers of the twentieth century For a theoretical perspective on digital performance Dixon draws on the work of Philip Auslander, Walter Benjamin, Roland Barthes, Jean Baudrillard and others To document and analyze contemporary digital performance practice Dixon considers changes in the representation of the body, space and time He considers virtual bodies, avatars and digital doubles as well as performances by artists including Stelarc, Robert Lepage, Merce Cunningham, Laurie Anderson, Blast Theory and Eduardo Kac He investigates new media's novel approaches to creating theatrical spectacle including virtual reality and robot performance, work, telematic performances in which remote locations are linked in real time Webcams and online drama communities and considers the extratemporal illusion created by some technological theater works Finally he defines categories of interactivity from navigational to participatory and collaborative Dixon challenges dominant theoretical approaches to digital performance including what he calls postmodernism's denial of the new and offers a series of boldly original arguments in their place

 Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning
 writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission
 has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a
 place and an idea **The Beholden State** Brian C. Anderson, 2013-06-06 California is at a tipping point Severe budget
 deficits unsustainable pension costs heavy taxes cumbersome regulation struggling cities and distressed public schools are
 but a few of the challenges that policymakers must address for the state to remain a beacon of business innovation and
 economic opportunity City Journal has for years been cataloging the political and economic issues of our nation's largest
 metropolitan areas and in this collection compiled and introduced by City Journal editor Brian C Anderson the cracks in
 California's flawed policy plans are displayed in detail and analyzed by a diverse set of experts in the state's design The list of
 contributors includes Steven Malanga William Voegeli Joel Kotkin Wendell Cox Arthur B Laffer Steven Greenhut Victor Davis
 Hanson Heather Mac Donald John Buntin Ben Boychuk Tom Gray Andrew Klavan Troy Senik Larry Sand Michael Anton and
 Guy Sorman While there is plenty of literature on California's history topography and attractions The Beholden State
 California's Lost Promise and How to Recapture It is the first book examining in rigorous detail how a place seen just a
 generation ago as the dynamic engine of the American future could through bad policy ideas find itself with among the
 highest unemployment rates and poorest educational outcomes in the country The book is as thoroughly analytical as it is
