Online Dispute Resolution for Consumers in the European Union Pablo Cortés, 2010-09-13 A PDF version of this book is available for free in open access via www.tandfebooks.com as well as the OAPEN Library platform www.oapen.org It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license and is part of the OAPEN UK research project E commerce offers immense challenges to traditional dispute resolution methods as it entails parties often located in different parts of the world making contracts with each other at the click of a mouse The use of traditional litigation for disputes arising in this forum is often inconvenient impractical time consuming and expensive due to the low value of the transactions and the physical distance between the parties Thus modern legal systems face a crucial choice either to adopt traditional dispute resolution methods that have served the legal systems well for hundreds of years or to find new methods which are better suited to a world not anchored in territorial borders Online Dispute Resolution ODR originally an off shoot of Alternative Dispute Resolution ADR takes advantage of the speed and convenience of the Internet becoming the best and often the only option for enhancing consumer redress and strengthening their trust in e commerce This book provides an in depth account of the potential of ODR for European consumers offering a comprehensive and up to date analysis of the development of ODR It considers the current expansion of ODR and evaluates the challenges posed in its growth The book proposes the creation of legal standards to close the gap between the potential of ODR services and their actual use arguing that ODR if it is to realise its full potential in the resolution of e commerce disputes and in the enforcement of consumer rights must be grounded firmly on a European regulatory model

Dealing with Bribery and Corruption in

International Commercial Arbitration Emmanuel Obiora Igbokwe, 2023-01-10 International Arbitration Law Library Volume 65 International commercial arbitration is by no means free from bribery and corruption. Although a plethora of legal scholarship clearly affirms this contention, a thorough study on the particularly important question of the authority and duty of international commercial arbitrators to investigate a suspicion or indication of bribery or corruption sua sponte that is on their own initiative has been surprisingly lacking. This important book fills this gap inter alia by locating sua sponte authority in the position of arbitral tribunals in establishing the facts of a case and ascertaining and applying the applicable normative standards. In addition to providing a comprehensive examination of how the issue of bribery and corruption is dealt with in contemporary international commercial arbitration, the book also highlights the role of arbitrators in global efforts to combat transnational commercial bribery and corruption. Among others, the following critical issues are thoroughly investigated: arbitrability of issues of public interests; intermediary contracts; role of arbitrators in the fact-finding process; party autonomy versus overriding mandatory rules; iura novit curia in international commercial arbitration in the context of bribery and corruption; notion of transnational or truly international public policy; arbitrators' duty to act as guardians of international commerce; investigative tools available to arbitrators dealing with manifestly recalcitrant parties; possible consequences of violating the obligation to sua sponte investigate; and the view from developing countries. The analysis leans primarily on Swiss law as Switzerland is one of the most important jurisdictions in international commercial arbitration. Switzerland has also been involved in some of the most famous and controversial arbitration cases wherein bribery and corruption became an issue. However, the study also includes a comparative analysis of the relevant laws, jurisprudence, and doctrine of other major arbitration venues, particularly England, France, and Germany. Not only in the light it sheds on how and whether international commercial arbitrators have hitherto justified the trust States have placed in them regarding the protection of the public

interests but also in the practical solutions it offers arbitrators faced with issues of bribery and corruption this deeply researched book equips arbitration practitioners and arbitration institutions with a hitherto lacking in depth analysis on the question of sua sponte investigation It also provides invaluable insights on how this issue might affect the future legitimacy and expansion of this dispute settlement mechanism Outside the field of arbitration the book also provides jurists legal scholars in house counsel for companies doing transnational business and public officials with highly enlightening perspectives on the interaction between international commercial arbitration and public interests
