Effects of Petroleum on Arctic and Subarctic Marine Environments and Organisms Donald C. Malins,1977
Marine Biological Effects of OCS Petroleum Development Douglas Arthur Wolfe,1978 *Fate and Effects of Oil in Marine Ecosystems* J. Kuiper,W.J. van den Brink,2012-12-06 A Rorsch Member of the TNO Board of Management Like all living creatures man has from the very outset influenced the environment Initially the traces of human activity were hardly noticeable and so were their effects on the equilibrium of the ecosystem as such However as soon as man learned how to use tools he was able to influence his surroundings more drastically and to proliferate more rapidly As a matter of fact that is the time when things went wrong because a process was started off which was to continue with ever increasing speed and on an ever increasing scale The present condition of nature as a result of the activities of mankind is generally known Whether it is an accident with a nuclear plant or the vanishing of tropical rain forests acid deposition or the pollution of soil water and air environmental disasters almost seem to be the order of the day It is striking that with all these more or less arbitrary examples the provision of energy plays a role In this respect one can add an even more important energy carrier to the list namely crude oil *Environmental Impact of Oil Spills in Polar Waters* ,1989 **Effects of petroleum on arctic and subarctic marine environments and organisms** Donald C. Malins,1977 Final Supplemental Environmental Statement United States.
