**Economic Effects of the War Upon Women and Children in Great Britain** Irene Osgood Andrews, 1918 [American Propaganda from the Spanish-American War to Iraq](#) Steven R. Brydon, 2021-11-01 In this book Steven R Brydon analyzes American war propaganda spanning from the Spanish American War through the wars in Afghanistan and Iraq Brydon argues that many of these wars were fought based on false or misleading narratives beginning with blaming Spain for the sinking of the Maine and continuing most recently with charges that Saddam Hussein had weapons of mass destruction and was involved in the terrorist attacks of September 11 Research has shown that well told stories can affect the public's beliefs attitudes and actions and Brydon has identified some of these recurring stories that have been told to support and sustain each war during this time period Using Fisher's narrative paradigm Brydon critically evaluates these war stories to determine if they possessed narrative coherence and fidelity that provided good reasons to go to war rather than simply the appearance of these qualities The responsibility Brydon stresses is on the media and on academics to view future war narratives through a critical lens in order to best inform the American people Scholars of media studies history military studies American studies and international relations will find this book particularly useful *War In World History: Society, Technology, and War from Ancient Times to the Present, Volume 1* Stephen Morillo, Jeremy Black, Paul Lococo, 2008-07-21 Designed for use at the college level as a textbook for military history courses or supplemental reading for world history courses this text offers an introduction and original synthesis of global military history Each chapter traces key developments in military institutions and practices set in three crucial contexts politics and institutions social structures and economics and cultures Primary
