

# SECRETS

of Successful and Effective

# STUDYING

*Try to study at the same times each day.*

Studying at the same times each day will establish a routine that will become a regular part of your life, like sleeping and eating. The world starts working early and college is your business. So get up and open for business – same time every day.

## 2 ATTEND EVERY CLASS

Never miss a class for any reason. Don't be sick. Don't sleep in. Don't take a traffic jam. Don't do anything that causes you to miss a class. Your parents are paying a bucket of money for you to go to these. Do not let them down.

## 3 SIT FRONT AND CENTER IN EVERY CLASS

Always sit down in the front row, directly in front of the lecturer. It will focus your attention and set you free from fiddling, daydreaming, doodling and browsing on facebook.

*Use laptops and smartphones wisely*

Laptops and phones can bring down your grade. Seriously. Send emails, surf the web and post facebook updates after your classes or during the breaks.

## 5 TAKE A PROPER CARE OF YOUR BODY AND HEALTHY MEALS

Avoid eating a heavy meal before studying. It will make you sleepy. Try to eat small and frequent meals every day. Do sports at your free time till the end of your life.

## 6 ASK QUESTIONS

Talk to the professor. Face to face. Always ask why. It's an important question for a small word! Professors like initiative and proactive students.

## 7 GET ENOUGH SLEEP

Sleep is important. When you properly rest, your brain strengthens the knowledge you have learned during the day by assimilating information. So the better you sleep, the better you learn.

*Review your notes*

Immediately after class review your notes. You've got lots of abbreviations and shorthand. While they are still fresh in your mind, take a scan through the notes. If you missed a point and skipped some space, don't forget to take the information later from the prof or a classmate.

## 9 START WITH THE MOST DIFFICULT SUBJECT FIRST

Always start your homework with the most difficult, hardest or subject it requires the most effort and mental energy from you. Never procrastinate your planned study session. Procrastination leads to rushing, rushing to errors.

## 10 DO NOT STUDY IN A DORM

Your friends, time wasters and strangers will be passing a place and home, not work. For studying go to a quiet place, a library, a study hall, a study center, a campus where your friends are going to come in and chat it up.

*Strengths-Based School Counseling* John P. Galassi, 2017-07-05. Despite calls for a more preventive and developmental mode of functioning school counseling, it has tended to be driven by a reactive and sometimes crisis orientation. Like social

workers and school counseling and clinical psychologists school counselors typically function to alleviate deficits often in a small percentage of the students they serve Although this orientation has served school counselors well in many instances it is not empowering it does not serve all students and it does not replace those deficits with the type of positive characteristics and abilities that schools are attempting to develop This is the first book to provide a comprehensive look at the theory research and intervention strategies that comprise a strengths based developmental approach to school counseling In keeping with ASCA recommendations the Strengths Based School Counseling SBSC framework discusses academic personal social and career development outcomes for all students at the elementary middle and secondary school levels Other key features include integrative framework SBSC builds upon contemporary research from a variety of areas school counseling developmental psychology school psychology education positive psychology resiliency and social work evidence based interventions detailed examples of successful evidence based interventions and environments are presented at the elementary middle and high school levels for each major developmental area academic personal social and career identified in ASCA s National Model readability and pedagogy beautifully written the text includes lists of key points tables of student strengths illustrative examples and student exercises

Child Development and Education Teresa M. McDevitt, Jeanne Ellis Ormrod, Glenn Cupit, Margaret Chandler, Valarie Aloa, 2012-08-21 Child Development and Education is a comprehensive child development text written especially for educators It helps students to translate developmental theories into practical implications for teaching and caring for youngsters with diverse backgrounds characteristics and needs The text draws from innumerable theoretical concepts research studies conducted around the world and the authors own experiences as parents teachers psychologists and researchers to identify strategies for promoting young people s physical cognitive and social emotional growth In this Australian edition contemporary Australian and New Zealand research has been highlighted and local educational structures philosophies and controversies have been reflected
