Masoud,2014-04-28 Why does Islam seem to dominate Egyptian politics especially when the country s endemic poverty and deep economic inequality would seem to render it promising terrain for a politics of radical redistribution rather than one of religious conservatism This book argues that the answer lies not in the political unsophistication of voters the subordination of economic interests to spiritual ones or the ineptitude of secular and leftist politicians but in organizational and social factors that shape the opportunities of parties in authoritarian and democratizing systems to reach potential voters Tracing the performance of Islamists and their rivals in Egyptian elections over the course of almost forty years this book not only explains why Islamists win elections but illuminates the possibilities for the emergence in Egypt of the kind of political pluralism that is at the heart of what we expect from democracy Hosni Mubarak and the Future of Democracy in Egypt

Without Democracy Shadi Hamid,2010 **Islamists and Secularists in Egypt** Dina Shehata,2010 In a detailed analysis of

the continued survival of authoritarian governments in the Arab world this book uses Egypt as a case study to address the timely and complex issue of democratization in the Middle East This book examines how relations between different actors in the Egyptian opposition have contributed to the endurance of authoritarianism in Egypt over the past three decades The author argues that the longevity of the authoritarian government is not only a function of the strength and cohesion of the regime but is also related to the weaknesses and divisions between opposition groupings particularly between Islamists and non Islamists Looking at how such ideological differences and mobilizational asymmetries have impeded successful cooperation between different opposition groups and how this allows the authoritarian regime to successfully ensure its continued hegemony the author illustrates the extent to which opposition strategies profoundly affect successful transitions to democracy in the Arab world Highlighting the main obstacles to democratic political reform in the region the author provides important insights for the promotion of democracy in the region which will be a valuable addition to the literature on Middle Eastern politics and government

Classless Politics Hesham Sallam, 2022-10-25 Since the 1970s the Egyptian state has embarked on a far reaching and destabilizing project of economic liberalization reneging on its commitments to social welfare Despite widespread socioeconomic grievances stemming from these policies class politics and battles over wealth redistribution have largely been sidelined from elite led national politics Instead conflicts over identity have raged as Islamist movements became increasingly prominent political players Classless Politics offers a counterintuitive account of the relationship between neoliberal economics and Islamist politics in Egypt that sheds new light on the worldwide trend of more identity less class Hesham Sallam examines why Islamist movements have gained support at the expense of the left even amid conflicts over the costs of economic reforms Rather than highlighting the stagnancy of the left or the agility of Islamists he pinpoints the historical legacies of authoritarian survival strategies As the regime resorted to economic liberalization in the 1970s it tacitly opened political space for Islamist movements to marginalize its leftist opponents In the long run this policy led to the fragmentation of opponents of economic reform the increased salience of cultural conflicts within the left and the restructuring of political life around questions of national and religious identity Historically rich and theoretically insightful this book demonstrates how the participation of Islamist groups shapes the politics of neoliberal reform and addresses why economic liberalization since the 1970s has contributed to the surge in culture wars around the world today

Egypt beyond Tahrir Square Bessma Momani, Eid Mohamed, 2016-09-26 First person accounts by scholars and journalists of the Arab Spring and the revolution that ended Mubarak s presidency On January 25 2011 the world s eyes were on Egypt s Tahrir Square as millions of people poured into the city center to call for the resignation of president Hosni Mubarak Since then few scholars or journalists have been given the opportunity to reflect on the nationwide moment of transformation and the hope that was embodied by the Egyptian Revolution In this important and necessary volume leading Egyptian academics and writers share their eyewitness experiences They examine how events unfolded in relation to key

social groups and institutions such as the military police labor intellectuals Coptic Christians and the media share the mood of the nation assess what happened when three recent regimes of Egyptian rule came to an end and account for the dramatic rise and fall of the Muslim Brotherhood The contributors deep engagement with politics and society in their country is evident and sets this volume apart from most of what has been published in English about the Arab Spring The diversity of views brought together here is a testament to the contradictions and complexities of historical and political changes that affect Egypt and beyond

No God but God Geneive Abdo, 2002-10-24 Shrouded in mystery the Islamic presence in the Middle East evokes longstanding Western fears of terrorism and holy war Our media have consistently focused on these extremes of Islam overlooking a quiet yet pervasive religious movement that is now transforming the nation of Egypt Drawing on hundreds of interviews *No God But God* opens up previously inaccessible segments of Egyptian society from the universities and professional sectors to the streets to illustrate the deep penetration of Popular Islamic influence Abdo provides a firsthand account of this peaceful movement allowing its moderate leaders street preachers scholars doctors lawyers men and women of all social classes to speak for themselves Challenging Western stereotypes she finds that this growing number of Islamists do not seek the violent overthrow of the government or a return to a medieval age Instead they believe their religious values are compatible with the demands of the modern world They are working within and beyond the secular framework of the nation to gradually create a new society based on Islamic principles Abdo narrates fascinating accounts of their methods and successes Today for example university students meet in underground unions despite a state ban In addition sheikhs have recently used their new legislative power to censor books and movies deemed to violate religious values Both fascinating and unsettling Abdo's findings identify a grassroots model for transforming a secular nation state to an Islamic social order that will likely inspire other Muslim nations This model cannot be ignored for it will soon help organized Islamists to undermine secular control of Egypt and potentially jeopardize Western interests in the Arab world

Islam and the Culture of Modern Egypt Mohammad Salama, 2018-11-08 Telling a new story of modern Egypt Mohammad Salama uses textual and cinematic sources to construct a clear and accessible narrative of the dynamics of Islam and culture in the first half of the twentieth century The conflict between tradition and secular values in modern Egypt is shown in a stimulating and challenging new light as Salama bridges analysis of nationalism and its connection to Islamism and outlines the effects of secular education versus traditional Islamic teaching on varied elements of Egyptian society These include cultural production politics economic identity and gender relations All of this helps to discern the harbingers that led to Egypt's social transition from the monarchy to the republic and opens the possibility of Islam as an inspiring and inspirational force This illuminating provocative and informative study will be of use to anyone interested in the period whether general readers students or researchers
