and artifacts of daily life from the period covering the Predynastic era through the Greco-Roman period 5000 BCE to 300 CE. Historians have found that valuable knowledge about long ago civilizations can be derived from examining the simple routines of daily life. This fascinating study presents a collection of everyday objects and artifacts from ancient Egypt shedding light on the social life and culture of ancient Egyptians. The work starts with a popular notion of ancient Egyptian beauty and gradually moves on to address various aspects of life including home work communication and transition and afterlife. Organized by topics the work contains the following sections: beauty, adornment and clothing, household items, furniture and games, food and drink, tools and weapons, literacy and writing, death and funerary equipment, and religion, ritual and magic. Each object holds equal importance and dates from the Predynastic era to the Greco-Roman period of ancient Egypt 5000 BCE to 300 CE. A special section provides guidance on evaluating objects and artifacts by asking questions: Who created it? Who used it? What did it do? What was its purpose? When and where was it made? Why was it made to help assess the historical context of the object.

*Sustainable Textile and Fashion Value Chains* André Matthes, Katja Beyer, Holger Cebulla, Marlen Gabriele Arnold, Anton Schumann, 2020-10-24. This book illustrates key sustainability issues in global textile and fashion value chains by examining individual types of fibers either at a single step in or along the entire value chain. It approaches sustainability related issues in the textile and fashion value chain from an interdisciplinary and holistic viewpoint with each contribution linking questions on the textile and fashion value chain to various drivers, indicators and concepts of sustainability. Each chapter represents a single step in the textile and fashion value chain exploring and considering a wide range of interwoven and interdependent technological, environmental, social, political and economic aspects. Various fibers, textile engineering and chemical treatment steps as well as innovative business concepts and regulatory frameworks across the entire textile and fashion value chain are identified, analyzed, discussed and critically evaluated. The book provides a systematic overview of the potential and challenges of sustainable textile and fashion value chains making it of interest to practitioners and scientists in sustainability science, environmental economics and business management and innovation. Further it offers a valuable source of information for industrial and mechanical engineering researchers and for students in the areas of textile engineering, fashion or the apparel and clothing industry.
