Bierbrier, 2022-11-30 Historical Dictionary of Ancient Egypt Third Edition covers the whole range of the history of ancient Egypt from the Prehistoric Period until the end of Roman rule in Egypt based on the latest information provided by academic scholars and archaeologists This is done through a revised introduction on the history of ancient Egypt the dictionary section has over 1 000 dictionary entries on historical figures geographical locations important institutions and other facets of ancient Egyptian civilization This is followed by two appendices one of which is a chronological table of Egyptian rulers and governors and the other a list of all known museums which contain ancient Egyptian objects The volume ends with a detailed bibliography of Egyptian historical periods archaeological sites general topics such as pyramids languages and arts and crafts and the publications of Egyptian material in museums throughout the world **Egypt at Its Origins** Stan Hendrickx, 2004 This volume published in memory of Barbara Adams presents 57 contributions by authors from 16 different countries and contains the results of the latest research on Predynastic and Early Dynastic Egypt In addition to papers originally presented at the 2002 conference in Krakow there are the invited contributions by the friends and colleagues of Barbara Adams including several on new discoveries from and thoughts about the site of Hierakonpolis **The Journal of Egyptian Archaeology**, 1918 A Social Archaeology of Roman and Late Antique Egypt Ellen Swift, Jo Stoner, April Pudsey, 2022 Artefact evidence has the unique power to illuminate many aspects of life that are rarely explored in written sources This book presents the first in depth study that uses everyday artefacts as its principal source of evidence to transform our understanding of the society and culture of Roman and Late Antique Egypt **Egyptianization and Elite Emulation in Ramesside Palestine** C.R. Higginbotham, 2022-02-28 A strong Egyptian presence and governance of 13th and 12th centuries B C Palestine has since long become clear from both textual and archaeological evidence How this Egyptianization came about in Ramesside Palestine forms the focus of the present study Carolyn Higginbotham convincingly attends to internal factors affecting the region's cultural and political development Two models are carefully considered The prevailing theory that Egyptian policy shifted from economic and political domination to military occupation is contrasted with a new convincing model elite emulation derived from modern core periphery studies The author's conclusion is that Egyptian policy remained largely unchanged and that the increased Egyptianization of the material culture represents voluntary adoption of the overpowering Egyptian culture by the Palestinian ruling class The appendices are especially important for scholars interested in ancient international connections in Palestine they catalogue all Egyptian and Egyptian style material from LB IIB Iron 1A Palestine **Historical Dictionary of Ancient Egypt** M. L. Bierbrier, 1999-05-13 **The Cultural Lives of Domestic Objects in**

**Late Antiquity** Jo Stoner, 2019-03-19 In this study Jo Stoner investigates the role of domestic material culture in Late Antiquity Using archaeological visual and textual evidence from across the Roman Empire the personal meanings of late antique possessions are revealed through reference to theoretical approaches including object biography Heirlooms souvenirs and gift objects are discussed in terms of sentimental value before the book culminates in a case study reassessing baskets as an artefact type This volume succeeds in demonstrating personal scales of value for artefacts moving away from the focus on economic and social status that dominate studies in this field It thus represents a new interpretation of domestic material culture from Late Antiquity revealing how objects transformed houses into homes during this period

*Visualizing Egypt* Paulina Banas, 2025-04-15 Illustrated publications and the role of market forces in shaping representations of Egypt at a time when European colonial interests in the region were at their peak with 80 color and black and white illustrations In the nineteenth century following Napoleon Bonaparte's 1798 campaign in Egypt new possibilities of travel and improvements in printing technology saw an emergence of publishing ventures in France and Britain dedicated to the production of albums and travel accounts featuring images of Muslim Egypt and Islamic architecture and catering to a growing European fascination with the East Visualizing Egypt analyzes the context and process of production of these highly illustrated publications from their conceptualization to the

finished product and its afterlife from marketing to the sales of these books and from circulation to their reception by nineteenth century audiences By tracing the long arduous and often risky publishing journeys of the makers of these books including publishers writers and artists such as the Frenchman mile Prisse d Avennes Paulina Banas reveals a complex terrain of changing market demands collaborations and conflicting views and the unsettled authorship of these works prompting us to think more profoundly about artistic and intellectual exchange in the world of nineteenth century Orientalist book production Visualizing Egypt considers nineteenth century book illustrations on Egypt and the Orient not merely as expressions of enduring ideology and colonial propaganda but as representations shaped by the often overlooked commercial exigencies of the growing publishing industry and the reckless competition within it **Report on the National Collection of Fine Arts Including the Freer Gallery of Art** National Collection of Fine Arts (U.S.),1957
