Ancient Egyptian Calligraphy Henry George Fischer,1988 *Middle Kingdom Tomb Architecture at Lisht* Dieter Arnold,2008 This volume documents twenty six monumental tombs of the ancient Egyptian Twelfth Dynasty that were excavated by the Metropolitan Museum Egyptian Expedition from 1906 to 1934 and 1984 to 1991 Focusing on the study and reconstruction of the architecture of the tombs the book also publishes remains of reliefs and inscriptions that decorated the walls The author demonstrates the astonishing variety of Middle Kingdom funeral architecture Whereas some of the Lisht structures relate closely to Old Kingdom mastabas there is also a new group of freestanding chapels that are derived from contemporary deity temples and foreshadow the temple tombs of later periods in Egyptian history Also included is an appendix by James P Allen on the biographical inscription in one of the tombs **Egyptian Non-Royal Epithets in the**

Middle Kingdom Denise M. Doxey,2023-08-14 This book is about epithets on Egyptian monumental inscriptions and about the conclusions one may draw from them Epithets in the first place characterize the owner of the text and encourage others to maintain his memorial cult Though formulaic and not describing actual historical events this thorough study points out that these epithets are in fact valuable indicators of religious social and political attitudes In the case of this volume the author analyses the epithets of non royal officials from the Middle Kingdom c 2040 1640 BCE Drawing on evidence from several hundred inscriptions it assesses the relationship of elite scribal class officials to their gods the king each other and their dependants and discusses the Egyptian world view beliefs about the afterlife and the changing role of elite provincial administrators relative to the central administration It also studies the effect of an inscription s context and its owner s official titles on the subject matter of the epithets *Women in Ancient Egypt* Mariam F. ancient Egypt Covering the entirety of Egyptian history from earliest times to Late Antiquity this volume commences with a thorough study of the earliest written evidence of Egyptian women both royal and non royal before moving on to chapters that deal with various aspects of Egyptian queens followed by studies on the legal status and economic roles of non royal women and finally on women s health and body adornment Within this sweeping chronological range each study is intensely focused on the evidence recovered from a particular site or a specific time period Rather than following a strictly chronological arrangement the thematic organization of chapters enables readers to discern diachronic patterns of continuity and change within each group of women

Ancient Egyptian Administration Juan Carlos Moreno García, 2013-06-03. *Ancient Egyptian Administration* provides the first comprehensive overview of the structure, organization and evolution of the pharaonic administration from its origins to the end of the Late Period. The book not only focuses on bureaucracy, departments and official practices but also on more informal issues like patronage, the limits in the actual exercise of authority and the competing interests between institutions and factions within the ruling elite. Furthermore, general chapters devoted to the best documented periods in Egyptian history are supplemented by more detailed ones dealing with specific archives, regions and administrative problems. The volume thus produced by an international team of leading scholars will be an indispensable up-to-date tool of research covering a much neglected aspect of pharaonic civilization.
