the development of self knowledge and self acceptance This emotional awareness is the beginning of understanding the negative patterns of behavior that comes out of one s woundedness With the healing presence of Christ through prayer one can experience God s love for them in one s woundedness and know that God dwells within and desires to transform and heal wounds with his love This affirms one in one s worthiness enabling one to be able to open to receive love and then return love In spiritual direction one seeks a relationship with God It is a sacred time of growth conversion and transformation It is a time when one looks at a relationship with self others and God One is empowered by the grace of God to enter this process and continue the development of these relationships The ministry of spiritual direction is called to be the sacred place where humanity in their fullness meets their God and accepts his mercy When one surrenders to this grace one is surrendering to love mercy and affirmation One s self image and relationship with others and God are touched and experienced in a new light

The Psychological Anthropology of Wayne Edward Oates Samuel E. Stephens,2020-07-24 Theological education has historically placed a strong emphasis on Scripture as the source of principle and practice for ministry However when it comes to the arena of counseling this has largely not been the case Focusing on the significant influence of Wayne Edward Oates 1917 1999 the author seeks to explore how and why the American Protestant church arrived at the place where psychological counseling has become the norm and biblical counseling is treated as novel A detailed study of Oates anthropology which served as the heart of his counseling theory and practice demonstrates that it was shaped and informed by secular concepts values and principles instead of what God has to say about who we are as people what plagues our souls and where we find our true hope and healing This subtle shift from the theological to the therapeutic has contributed to a much broader view from many in the church that counseling is more of a clinical and professional service rather than a personal or pastoral ministry of the Scriptures Through these unsettling warnings and implications the author hopes that the church will see the importance of once again engaging with the God glorifying Christ honoring and Spirit empowering ministry of counseling
