Paperbound Books in Print, 1992 **Books in Print Supplement**, 2002 **Paperbound Books in Print 1995** Reed Reference Publishing, 1995-12 Subject Guide to Books in Print, 1993 **Books in Series**, 1985 Vols for 1980 issued in three parts Series Authors and Titles **Free Will and the Human Sciences in Britain, 1870-1910** Roger Smith, 2015-07-28 From the late nineteenth century onwards religion gave way to science as the dominant force in society This led to a questioning of the principle of free will if the workings of the human mind could be reduced to purely physiological explanations then what place was there for human agency and self improvement Smith takes an in depth look at the problem of free will through the prism of different disciplines Physiology psychology philosophy evolutionary theory ethics history and sociology all played a part in the debates that took place His subtly nuanced navigation through these arguments has much to contribute to our understanding of Victorian and Edwardian science and culture as well as having relevance to current debates on the role of genes in determining behaviour **The Transformation of the Psyche in British Primary Care, 1870-1970** Rhodri Hayward, 2014-02-25 Conflicting models of selfhood have become central to debates over modern medicine Yet we still lack a clear historical account of how this psychological sensibility came to be established The Transformation of the Psyche in British Primary Care 1880 1970 will remedy this situation by demonstrating that there is nothing inevitable about the current connection between health identity and personal history It traces the changing conception of the psyche in Britain over the last two centuries and it demonstrates how these changes were rooted in transformed patterns of medical care The shifts from private medicine through to National Insurance and the National Health Service fostered different kinds of relationship between doctor and patient and different understandings of psychological distress The Transformation of the Psyche in British Primary Care 1880 1970 examines these transformations and in so doing provides new critical insights into our modern sense of identity and changing notions of health that will be of great value to anyone interested in the modern history of British medicine *The New Reformation. A Narrative of the Old Catholic Movement from 1870 to the Present Time with a Historical Introduction* Theodorus (pseud.), 1875 The New Reformation. A Narrative of the Old Catholic Movement from 1870 to the Present Time, with a Historical Introduction Theodorus, James Bass Mullinger, 2025-07-12 Reprint of the original first published in 1875 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **"A" Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Accounts to the Latter Half of the Nineteenth Century** S. Austin Allibone, 1891 *Capitalism and Classical Social Theory, Second Edition* John Bratton, David Denham, 2014-01-24 Most texts on classical social theory offer exhaustive coverage of every possible theorist making it difficult to use the book in one semester Capitalism and Classical Social Theory Second Edition represents a departure from

this approach by offering solid coverage of the classical triumvirate Marx Durkheim and Weber but also extending the canon strategically to include Simmel four early female theorists and the writings of Du Bois The result is a manageable but thorough examination of the key classical theorists The second edition has been updated throughout and includes two new chapters one on Weber and rationalization and one on Du Bois and his writings on race A new concluding chapter links classical theory to current developments in capitalism during an age of austerity

The Publishers' Circular and Booksellers' Record ,1920 *British Books* ,1900 **The Making of Global Enterprise** Geoffrey Jones,1994 This volume provides new insights to the history of international business The international group of authors drawn from the United States Canada Britain and Japan address two main themes How has global business developed over the last century And what has been its impact on host economies These original and wide ranging essays prefaced by an extensive editorial introduction are required reading in courses on international business

Blackwell Ltd,1928 *Catalogue of the Mercantile Library of Philadelphia* Mercantile Library of Philadelphia,1870 **Real Fantasies** Patricia Johnston,2023-11-15 During the 1920s and 1930s Edward Steichen was the most successful photographer in the advertising industry Although much has been said about Steichen s fine art photography his commercial work which appeared regularly in Vanity Fair Vogue Ladies Home Journal and almost every other popular magazine published in the United States has not received the attention it deserves At a time when photography was just beginning to replace drawings as the favored medium for advertising Steichen helped transform the producers of such products as Welch s grape juice and Jergens lotion from small family businesses to national household names In this book Patricia Johnston uses Steichen s work as a case study of the history of advertising and the American economy between the wars She traces the development of Steichen s work from an early naturalistic style through increasingly calculated attempts to construct consumer fantasies By the 1930s alluring images of romance and class developed in collaboration with agency staff and packaged in overtly manipulative and persuasive photographs became Steichen s stock in trade He was most frequently chosen by agencies for products targeted toward women his images depicted vivacious singles earnest new mothers and other stereotypically female life stages that reveal a great deal about the industry s perceptions of and pitches to this particular audience Johnston presents an intriguing inside view of advertising agencies drawing on an array of internal documents to reconstruct the team process that involved clients art directors account executives copywriters and photographers Her book is a telling chronicle of the role of mass media imagery in reflecting shaping and challenging social values in American culture During the 1920s and 1930s Edward Steichen was the most successful photographer in the advertising industry Although much has been said about Steichen s fine art photography his commercial work which appeared regularly in Vanity Fair Vogue Ladies Ho

Mindful Aesthetics Chris Danta,Helen Groth,2013-11-07 In the last

few decades literary critics have increasingly drawn insights from cognitive neuroscience to deepen and clarify our understanding of literary representations of mind This cognitive turn has been equally generative and contentious While cognitive literary studies has reinforced how central the concept of mind is to aesthetic practice from the classical period to the present critics have questioned its literalism and selective borrowing of scientific authority Mindful Aesthetics presents both these perspectives as part of a broader consideration of the ongoing and vital importance of shifting concepts of mind to both literary and critical practice This collection contributes to the forging of a new interdisciplinarity to paraphrase Alan Richardson s recent preface to the Neural Sublime that is more concerned with addressing how rather than why we should navigate the increasingly narrow gap between the humanities and the sciences
