Eighth Air Force Bomber Stories Ian McLachlan, 1991 Each chapter looks at a particular incident or theme including Jerks Berserks newly discovered crew pictures and additional evidence relating to the loss at sea of an American bomber crew Adrift and helpless were they murdered by a vengeful German U boat crew Skipper an the Kids a B 17 on a whisky run to Scotland vanishes Decades later the author helps discover debris from the lost bomber and recreates its final flight Buchenwald a powerful account relating the little known facts about US airmen incarcerated in Hitler s infamous death camp The Innocent Sky rescuers risking their lives perish in a vast explosion the 8th AF s worst ever incident of its kind that claimed the lives of both crews and 19 rescuers Don t worry folks I m happy and fine a last hasty letter penned on the hardstand prior to take off words that echoed for generations in an American family *American Bomber Crewman 1941-45*

Gregory Fremont-Barnes, 2012-06-20 Gregory Fremont Barnes examines the lives of the American Bomber Crewmen of the Eighth Air Force The Mighty Eighth who manned maintained and repaired the Boeing B 17 Flying Fortresses and the B 24 Liberators that flew from the airfields of England He highlights the physical and psychological strain placed on these men who required brute strength to control the aircraft on long bombing missions and extraordinary endurance to fly for hours at 20 000 feet at temperatures below freezing in unpressurised cabins In addition to this with Luftwaffe fighters and anti aircraft fire to contend with it required incredible skill and some luck to return from a mission unscathed This book is a fitting tribute to these often uncelebrated heroes who took the war deep into the Third Reich as well as a fascinating historical account of their experiences **Flying against Fate** S. P. MacKenzie, 2017-08-04 During World War II Allied

casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45 5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or

talismans lucky boots or a stuffed toy a coin whose year numbers added up to thirteen counterintuitively a boomerang Some performed rituals or avoided other acts e g having a photo taken before a flight Whatever seemed to work was worth sticking with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of buttressing morale The first in depth exploration of just how varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers Flying against Fate expands our understanding of a major aspect of the psychology of war in the air and of World War II *USAAF Fighter Stories* Ian McLachlan,2005 Provides a series of accounts of the USAAF s fighter squadrons at war **Aviation News** ,2008 *Flypast* ,2008 **Flights Into History** Ian McLachlan,2010-07-06 In this compelling sequel to *Final Flights* aviation archaeologist Ian McLachlan has reconstructed the dramatic last flights of Second World War airmen including the first Fortress to fall in combat from the USAAF s 447th Bomber Group the final flight of an intruder Mosquito pursuing a German night fighter the courage of a Lancaster pilot responsible for six lives aboard a burning aircraft the story of a Spitfire s last flight and its heroic Belgian pilot Exciting stories are also recounted of those whose misdirected courage saw them serve under the swastika In reconstructing long forgotten wartime events often from buried wreckage eyewitness accounts and contemporary documentation aviation archaeologists can bring recognition to the individual flyers involved and shed new light on the air war over Britain and Europe during the Second World War Even the discovery of small fragments can be significant They provide evidence or prompt new research revealing stories that offer a uniquely human dimension and reveal the hopes fears aspirations and pleasures of the aircrew involved Ian McLachlan and other aviation archaeologists have now done them justice **US 9th Air Force Bases in Essex, 1943-44** Martin W. Bowman,2010-10-27 As part of the AHT series the airfields and interest in this book are concentrated in a particular area in this case Essex It covers the American air bases used by the Martin B 29 Marauders P 47 Thunderbolts and P 51 Mustangs of the 9th USAAF Air Force during 1943 44 prior to their move south to France after the D Day invasion on 6 June 1944 The airfields included are Andrews Field Birch Boreham Boxted Chipping Ongar Earls Colne Gosfield Great Dunmow Little Walden Matching Roydon Rivenhall Stansted Wethersfield and Wormingford This book looks at the history and personalities associated with each base what remains today and explores the favourite local wartime haunts where aircrew and ground crew would have sought well deserved entertainment and relaxation Other museums and places that are relevant will also be described and general directions on how to get them included *8th AF News* ,1994 *The Pointblank Directive* L. Douglas Keeney,2012-12-20 The Pointblank Directive is the result of extensive new research that creates a richly textured portrait of perhaps the last untold story of D Day Where was the Luftwaffe on D Day Following decades of debate 2010 saw a formerly classified history restored and in it

was a new set of answers This title analyzes three uniquely talented men and why the German Air Force was unable to mount an effective combat against the invasion forces Following a year of unremarkable bombing against German aircraft industries General Henry H Hap Arnold commander of the U S Army Air Forces placed his lifelong friend General Carl A Tooey Spaatz in command of the strategic bombing forces in Europe and his prot g General James Jimmy Doolittle command of the Eighth Air Force in England For these fellow aviation strategists he had one set of orders sweep the skies clean of the Luftwaffe by June 1944 Spaatz and Doolittle couldn t do that but they could clear the skies sufficiently to gain air superiority over the D Day beaches The plan was called Pointblank

The British National Bibliography Arthur James Wells,2005

Winning the Next War Stephen Peter Rosen,2018-07-05 How and when do military innovations take place Do they proceed differently during times of peace and times of war In Winning the Next War Stephen Peter Rosen argues that armies and navies are not forever doomed to fight the last war Rather they are able to respond to shifts in the international strategic situation He also discusses the changing relationship between the civilian innovator and the military bureaucrat In peacetime Rosen finds innovation has been the product of analysis and the politics of military promotion in a process that has slowly but successfully built military capabilities critical to American military success In wartime by contrast innovation has been constrained by the fog of war and the urgency of combat needs Rosen draws his principal evidence from U S military policy between 1905 and 1960 though he also discusses the British army s experience with the battle tank during World War I

A History Of The B-24 Liberator in Over 300 Photographs, Stories And Analysis: Including The U.S. Army Air Forces in World War II: Combat Chronology 1941 - 1945 - American Air Power in WWII ,2015-07-28

PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 It is designed as a companion reference to the seven volume history of The Army Air Forces in World War II edited by Wesley Frank Craven and James Lea Cate The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F Simpson Historical Research Center Such an effort has demanded certain changes in established historical methodology as well as some arbitrary rules for presentation of the results After International and US events entries are arranged geographically They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world using the location of the headquarters of the numbered air forces as the basis for placement For this reason entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force When that headquarters moves to England in October 1943 the entries are shifted to follow Eighth Air Force The entries end with those numbered air

forces which remained in the Zone of the Interior as well as units originally activated in the ZI then designated for later movement overseas such as Ninth and Tenth Air Forces The ZI entries do not include Eighth and Twentieth Air Forces which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified For these two units original actions are shown either under AAF or in their intended geographic area of location All times and dates used are those of the area under discussion The entry 1 2 Jun indicates that an event occurred during the night between the two given dates while 1 2 Jun indicates an action over a period of time In dealing with people again arbitrary decisions were implemented For military men below the general officer or equivalent level full grade and name were used For general officers and those of equal grade in other US and foreign services the complete rank both that at the time first mentioned and the highest rank held prior to the end of the war and name will be found in the index Only an abbreviated rank e g Gen or Adm and last name are used in the text The exception is where two general officers had the same last name in such cases the first name is also included Similarly for civilian leaders only the last name is used full name and title are given in the index Location of all towns islands etc is also made in the index In all cases attempts were made to cite place names in use by the native population at the time of or immediately before the war No names imposed by a conqueror are used For example Pylos Bay not Navarino Bay is used Further as appropriate native geographic terms are used Shima for island in Japanese island groups See for lake in Germany However two exceptions were made In cases in which the place became infamous because of the actions of the conquering power that name is preferred for example Auschwitz would be used rather than the Polish name of Oswiecim Also in larger international cities such as Roma Koln and Wien the anglicized name is used Where a village or hamlet was difficult to locate or where there were several such places with the same name in a general area the coordinates are given in the index In some cases with no extant navigational aids of the attacking force the best possible guess was made based upon all available evidence In other instances such as the bridge at Hay ti attacked so often by Tenth Air Force a logical guess could not be made In these cases a question mark is placed in brackets after the index entry Accent marks such as umlauts were omitted

Redefining Airmanship Tony Kern, 1997

Here for the first time is a systematic model of professional airmanship for all pockets of the aviation community With this book as a guide you too will develop the right stuff for today s complex world of flight Step by step system by system the book shows you how to Use history s greatest flyers as role models and follow in their footsteps Define standards and measurements for success Understand specific aspects of airmanship using case studies and lessons learned Handle peer pressure lack of time and stress Reduce errors and aid decision making Manage risks Evaluate your own performance Illuminate a path for self improvement Advance your career Redefining Airmanship gives you a holistic model of good airmanship and shows you how to use that model to measure and improve your performance Using the book s Individual Improvement Plan you can increase your confidence develop flight discipline understand your aircraft know your crew s

strengths and weaknesses be an effective team manager and achieve your personal best as an airman **USAAF Fighter Stories** Ian McLachlan, 2012-04-01 Ian McLachlan presents a compelling collection of true life accounts by USAAF fighter pilots flying from England during the Second World War Some are the result of detailed post war research by the author into aircraft crash sites others are the memories of those who were lucky enough to survive the war some are stories gleaned from the letters written home to loved ones by pilots who were destined not to survive the war Each story is supported by a unique selection of personal and combat photographs **AMMTIAC Quarterly**, 2010 [A History Of The B-17 Flying Fortress in Over 400 Photographs, Stories And Analysis: Including The U.S. Army Air Forces in World War II: Combat Chronology 1941 - 1945 - American Air Power in WWII](#), 2015-08-01 PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 It is designed as a companion reference to the seven volume history of The Army Air Forces in World War II edited by Wesley Frank Craven and James Lea Cate The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F Simpson Historical Research Center Such an effort has demanded certain changes in established historical methodology as well as some arbitrary rules for presentation of the results After International and US events entries are arranged geographically They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world using the location of the headquarters of the numbered air forces as the basis for placement For this reason entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force When that headquarters moves to England in October 1943 the entries are shifted to follow Eighth Air Force The entries end with those numbered air forces which remained in the Zone of the Interior as well as units originally activated in the ZI then designated for later movement overseas such as Ninth and Tenth Air Forces The ZI entries do not include Eighth and Twentieth Air Forces which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified For these two units original actions are shown either under AAF or in their intended geographic area of location All times and dates used are those of the area under discussion The entry 1 2 Jun indicates that an event occurred during the night between the two given dates while 1 2 Jun indicates an action over a period of time In dealing with people again arbitrary decisions were implemented For military men below the general officer or equivalent level full grade and name were used For general officers and those of equal grade in other US and foreign services the complete rank both that at the time first mentioned and the highest rank held prior to the end of the war and name will be found in the index Only an abbreviated rank e g Gen or Adm and last name are used in the text The exception is where two general officers had the same last name in such cases the first name is also included Similarly for civilian leaders only the last name is used full name and title are given in the index Location of all towns islands etc is also made in the index In all cases attempts were made to cite place names in use by the native population at the time of or

immediately before the war No names imposed by a conqueror are used For example Pylos Bay not Navarino Bay is used Further as appropriate native geographic terms are used Shima for island in Japanese island groups See for lake in Germany However two exceptions were made In cases in which the place became infamous because of the actions of the conquering power that name is preferred for example Auschwitz would be used rather than the Polish name of Oswiecim Also in larger international cities such as Roma Koln and Wien the anglicized name is used Where a village or hamlet was difficult to locate or where there were several such places with the same name in a general area the coordinates are given in the index In some cases with no extant navigational aids of the attacking force the best possible guess was made based upon all available evidence In other instances such as the bridge at Hay ti attacked so often by Tenth Air Force a logical guess could not be made In these cases a question mark is placed in brackets after the index entry Accent marks such as umlauts were omitted
