Transcendental unity is a figure of thought of the Latin Middle Ages which is indebted to Avicenna's renewal of metaphysics and which is wrongly attributed to Aristotle A specific interpretation of the demonstrable attribute determines the metaphysical reflection on the one and turns it into a transcendental attribute of being Notwithstanding the variety of epistemic constellations however this metaphysical relationship of being and unity always turns out to be a fundamental state of affairs Transcendental unity identifies as a problem constellation the principles of which are still effective in the critique of scholastic metaphysics in classical German philosophy
