Substance and Function, and Einstein's Theory of Relativity Ernst Cassirer, Marie Taylor Collins Swabey, 1923 The first part of the present book Substanzbegriff und funktionsbegriff was published in 1910 while the second part which we have called the supplement Zur Einstein schen relativit ts theorie appeared in 1921 Bibliography p 457 460 **Freud's**

Philosophy of the Unconscious D.L. Smith, 2013-03-14 Freud's Philosophy of the Unconscious is the only comprehensive systematic study of Sigmund Freud's philosophy of mind Freud emerges as a sophisticated philosopher who addresses many of the central questions that concern contemporary philosophers and cognitive scientists while anticipating many of their views While still a student in Vienna Freud was initiated into philosophy by Franz Brentano The book charts Freud's intellectual development as he deals with the mind body problem the nature of consciousness folk psychology versus scientific psychology the relationship between language and thought realism and antirealism in psychology and the nature of unconscious mental events The book also critically examines writings on Freud by Wittgenstein Davidson and Searle demonstrating their weakness as interpretations and criticisms of Freud's position Readership Philosophers cognitive scientists psychologists psychoanalysts psychotherapists and psychiatrists **Lectures on the Experimental Psychology**

of the Thought-processes Edward Bradford Titchener, 1909 The Psychological Index, 1900 *Library Bulletin of the University of St. Andrews* University of St. Andrews, 1910 The Existential Husserl Marco Cavallaro, George Heffernan, 2022-10-25 This book examines Husserl's approach to the question concerning meaning in life and demonstrates that his philosophy includes a phenomenology of existence Given his critique of the fashionable philosophy of existence of the late 1920s and early 1930s one might think that Husserl posited an opposition between transcendental phenomenology and existential philosophy as well as that in this respect he differed from existential phenomenologists after him But texts composed between 1908 and 1937 and recently published in *Husserliana XLII Grenzprobleme der Ph nomenologie* 2014 show that the existential Husserl was not opposed but open to the phenomenological investigation of several basic topics of a philosophy of existence A collection of contributions from a team of internationally recognized scholars drawing on these and other sources the present volume offers insights into the relationship between phenomenology and philosophy of existence It does so by 1 delineating the basic outlines of Husserl's phenomenology of existence 2 reinterpreting the tension between Husserl's transcendental phenomenology and Jaspers's and Heidegger's philosophy of existence as well as Kierkegaard's and Sartre's existentialism and 3 investigating the existential aspects of Husserl's phenomenological ethics Thus focusing on neglected aspects of Husserl's thought the volume shows that there is a consensus between classical phenomenology and existential phenomenology on the urgency of addressing the existential questions that in *The Crisis of the European Sciences and Transcendental Phenomenology* 1936 Husserl calls the questions concerning the meaning or meaninglessness of this entire human existence The Existential Husserl represents a major contribution to the clarification of the historical and

philosophical developments from transcendental phenomenology to existential phenomenology The book should appeal to a wide audience of many readers at all levels looking for phenomenological answers to existential questions Thesen aus dem vortrage Robert Eisler,1902 *Psychological Index* ,1901 Deutsche Worte ,1904 **Measurements of Twins** Edward Lee Thorndike,1905 **Zeitschrift für Psychologie und Physiologie der Sinnesorgane** Hermann Ebbinghaus,Arthur Peter König,Wilibald A.
