Breaking the Glass Armor Kristin Thompson,2020-05-05 Classical works have for us become covered with the glassy armor of familiarity wrote Victor Shklovsky in 1914 Here Kristin Thompson defamiliarizes the reader with eleven different films Developing the technique formulated in her Eisenstein s Ivan the Terrible Princeton 1981 she clearly demonstrates the

flexibility of the neoformalist approach She argues that critics often use cut and dried methods and choose films that easily fit those methods Neoformalism on the other hand encourages the critic to deal with each film differently and to modify his or her analytical assumptions continually Thompson's analyses are thus refreshingly varied and revealing ranging from an ordinary Hollywood film Terror by Night to such masterpieces as Late Spring and Lancelot du Lac She proposes a formal historical way of dealing with realism using Bicycle Thieves and The Rules of the Game as examples Stage Fright and Laura provide cases in which the classical cinema defamiliarizes its own conventions by playing with audience expectations Other chapters deal with Tati s Les Vacances de Monsieur Hulot and Play Time and Godard s Tout va bien and Sauve gui peut la vie Although neoformalist analysis is a rigorous distinctive approach it avoids extensive specialized vocabulary and esoteric concepts the essays here can be read separately by those interested in the individual films. The book is overall purpose however goes beyond making these particular films more accessible and intriguing to propose new ways of looking at cinema as a whole The Routledge Encyclopedia of Film Theory Edward Branigan, Warren Buckland, 2013-12-04 The Routledge Encyclopedia of Film Theory is an international reference work representing the essential ideas and concepts at the centre of film theory from the beginning of the twentieth century to the beginning of the twenty first When first encountering film theory students are often confronted with a dense interlocking set of texts full of arcane terminology inexact formulations sliding definitions and abstract generalities The Routledge Encyclopedia of Film Theory challenges these first impressions by aiming to make film theory accessible and open to new readers Edward Branigan and Warren Buckland have commissioned over 50 scholars from around the globe to address the difficult formulations and propositions in each theory by reducing these difficult formulations to straightforward propositions The result is a highly accessible volume that clearly defines and analyzes step by step many of the fundamental concepts in film theory ranging from familiar concepts such as Apparatus Gaze Genre and Identification to less well known and understood but equally important concepts such as Alain Badiou s Inaesthetics Gilles Deleuze s Time Image and Jean Luc Nancy s Evidence The Routledge Encyclopedia of Film Theory is an ideal reference book for undergraduates of film studies as well as graduate students new to the discipline in the Cinema Edward Branigan, 2012-01-02 Branigan effectively criticizes the communication model of narration a task long overdue in Anglo American circles The book brings out the extent to which mainstream mimetic theories have relied upon the elastic notion of an invisible idealized observer a convenient spook whom critics can summon up whenever they desire to naturalize style The book also makes distinctions among types of subjectivity after this we will have much more precise ways of tracing the fluctuations among a character's vision dreams wishes and so forth Branigan also explains the necessity of distinguishing levels of narration **Red Aesthetics** Todd Cronan, 2021-11-04 Red Aesthetics offers a new way to think about art and politics focusing on the revolutionary work of Aleksandr Rodchenko Bertolt Brecht and Sergei Eisenstein between the wars Todd Cronan shows how these three artists photographs dramas films and writings centered on class

conflict differ from current left orthodoxies rooted in empathy Writing against liberal pieties Cronan contends following Brecht that empathy is not the solution to our problems but more like the source of them Flashbacks in Film Maureen Turim, 2013-12-17 The flashback is a crucial moment in a film narrative one that captures the cinematic expression of memory and history This author's wide ranging account of this single device reveals it to be an important way of creating cinematic meaning Taking as her subject all of film history the author traces out the history of the flashback illuminating that history through structuralist narrative theory psychoanalytic theories of subjectivity and theories of ideology From the American silent film era and the European and Japanese avant garde of the twenties from film noir and the psychological melodrama of the forties and fifties to 1980s art and Third World cinema the flashback has interrogated time and memory making it a nexus for ideology representations of the psyche and shifting cultural attitudes Shakespeare and the Second World War Irena Makaryk, Marissa McHugh, 2012-09-18 Shakespeare's works occupy a prismatic and complex position in world culture they straddle both the high and the low the national and the foreign literature and theatre The Second World War presents a fascinating case study of this phenomenon most if not all of its combatants have laid claim to Shakespeare and have called upon his work to convey their society s self image In wartime such claims frequently brought to the fore a crisis of cultural identity and of competing ownership of this universal author Despite this the role of Shakespeare during the Second World War has not yet been examined or documented in any depth Shakespeare and the Second World War provides the first sustained international collaborative incursion into this terrain The essays demonstrate how the wide variety of ways in which Shakespeare has been recycled reviewed and reinterpreted from 1939 1945 are both illuminated by and continue to illuminate the War today The Eisenstein Reader Sergei Eisenstein, 2019-07-25 For the first time in one volume this book presents in concise chronological form Sergei Eisenstein s most significant work including his famous theories of montage and articles on subjects as diverse as sound film language and Russian history. defined film theory **Time and the Everyday in Slow Cinema** Rosa Barotsi,2025-07-08 Time and the Everyday in Slow Cinema examines the phenomenon of Slow cinema a style defined by its lingering focus on quotidian activities and extended durations Rosa Barotsi argues that while the style emerges from a tradition of durational filmmaking and resonates with movements advocating for deceleration it is also deeply entangled in the structures of late capitalism creating a dynamic tension between radicalism and conservatism This book situates the trend between artistic innovation and institutional commodification ultimately raising critical questions about spectatorship cinematic time and the politics of cultural value
