Imaginary Cinema Dustin Condren, 2024-12-15 An Imaginary Cinema is the first systematic study of Sergei Eisenstein s unrealized films as well as a deeply informed historical and theoretical inquiry into the role and meaning of the unmade in his oeuvre Eisenstein directed some of the twentieth century s most important films from the early classic of montage Battleship Potemkin to his late masterpiece Ivan the Terrible Alongside these however the Soviet filmmaker also toiled over a compelling array of unrealized projects from ideas that never grew beyond complex passionate notebook scrawls and sketches to productions that were mounted and shot to some degree of completion without ever being finished Working from the archival remnants of several of the director s most fascinating unrealized projects from his bold vision to film Marx s Das Kapital to his time in Hollywood struggling to adapt Dreiser s An American Tragedy Dustin Condren s book reveals new aspects of Eisenstein s genius showing the filmmaker in a constant state of process open to working toward impossible and sometimes utopian ends and committed to the pursuit of creative and theoretical discovery Condren s analysis of these unrealized projects in An Imaginary Cinema reveals Eisenstein at crucial moments of his personal and artistic biography and it also tells the wider story of a canonical artist negotiating the political labyrinths of Stalinist Russia the economic pitfalls of Hollywood and the technological shifts of early cinema

Frame by Frame Hannah Frank, 2019-04-09 At publication date a free ebook version of this title will be available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more In this beautifully written and deeply researched study Hannah Frank provides an original way to understand American animated cartoons from the Golden Age of animation 1920 1960 In the pre digital age of the twentieth century the making of cartoons was mechanized and standardized thousands of drawings were inked and painted onto individual transparent celluloid sheets called cels and then photographed in succession a labor intensive process that was divided across scores of artists and technicians In order to see the art labor and technology of cel animation Frank slows cartoons down to look frame by frame finding hitherto unseen aspects of the animated image What

emerges is both a methodology and a highly original account of an art formed on the assembly line **Savage Junctures** Anne Nesbet, 2003-07-25 Eisenstein delighted in unlikely juxtapositions being apt to cite from Stalin and Disney in one breath The heterogeneity underlying his work is breathtaking and his lack of decorum and refusal to be categorised tend to make critics uneasy but not Anne Nesbet Based on extensive research in the Eisenstein archives her book is an original beautifully written exploration of Eisenstein's omnivorous consumption of high and low culture and his wide ranging experiments in thinking in pictures *Savage Junctures* provides fresh insights into Eisenstein's films and writings It examines the multiple contexts within which his films evolved and Eisenstein's appropriation of all of world culture as his source Like Eisenstein himself Anne Nesbet is particularly interested in the possibilities of visual image making and each chapter addresses the problem of his image based thinking from a different perspective Each chapter also offers a fundamentally new interpretation of the films and writings that make up his oeuvre This is a major new contribution to studies in Soviet cinema and culture and to the field of film studies **Compromising Kino** Vincent Bohlinger, 2007 *Ovid on Screen* Martin M. Winkler, 2020-01-30 The first study of Ovid especially his *Metamorphoses* as inherently visual literature explaining his pervasive importance in our visual media *Film* William H.
