## **El Derecho A La Protesta:**

Protesta social, derecho punitivo y derechos fundamentales Pedro Martín Páez Bimos, 2022-08-19 La presente obra que consta de seis capítulos revisa las respuestas del derecho punitivo del Estado frente a la protesta social. En ellos podrá encontrar el lector el análisis de los derechos fundamentales de reunión y de libertad de expresión tanto desde el derecho comparado como desde la perspectiva constitucional siendo estos los pilares fundamentales que permiten la ejecución de las protestas sociales y por consiguiente de obligatoria revisión en un Estado democrático. Se analiza el derecho administrativo sancionador de la protesta social que ha generado mucha discusión por parte de los diferentes organismos internacionales organizaciones de la sociedad civil la doctrina y los medios de comunicación por limitar el ejercicio de la protesta social. También consta el estudio sobre el derecho penal con finalidad preventiva y la criminalización de la protesta social que revela importantes hechos que guardan relación con la estructuración de una política criminal expansiva e intensa del derecho penal que busca controlar conductas que tienen relación directa con el ejercicio de los derechos fundamentales.

**De la protesta a la participación ciudadana** Ulrich Richter Morales, 2017-09-15 Una visión actual sobre las nuevas formas de organización de la sociedad civil. Del mexicano pasivo al ciudadano consciente y participativo. Uno de los fenómenos más capitales ocurridos en México en lo que va del siglo XXI tiene que ver con la participación ciudadana. Progresivamente la sociedad civil ha salido del letargo en el que se encontraba inmersa y hoy en día comienza a desempeñar un papel más activo en la toma de decisiones. Ulrich Richter Morales analiza aquí dicho fenómeno a partir de una revisión minuciosa de distintos acontecimientos políticos y sociales. Su análisis muestra a una ciudadanía que ya no se conforma sólo con manifestar su descontento mediante la protesta sino que además se organiza para crear iniciativas de participación en dichas protestas. El autor va más allá de la descripción de los hechos para ofrecer también propuestas destinadas a mejorar y hacer más eficaces dichas iniciativas.

**The Latin American Casebook** Juan F. González-Bertomeu, Roberto Gargarella, 2016-04-20 Traditionally relegated because of political pressure and public expectations courts in Latin America are increasingly asserting a stronger role in public and political discussions. This casebook takes account of this phenomenon by offering a rigorous and up-to-date discussion of constitutional adjudication in Latin America in recent decades. Bringing to the forefront the development of constitutional law by Latin American courts in various subject matters the volume aims to highlight a host of creative arguments and solutions that judges in the region have offered. The authors review and discuss innovative case law in light of the countries' social, political and legal context. Each chapter is devoted to a discussion of a particular area of judicial review from freedom of expression to social and economic rights from the internalization of human rights law to judicial checks on the economy from gender and reproductive rights to transitional justice. The book thus provides a very useful tool to scholars, students and litigants alike.

*Derecho a defender derechos humanos* Gerardo Sauri Suárez, 2014-12-30 La actual evaluación y monitoreo del cumplimiento de las obligaciones del Estado en relación con el derecho humano a defender derechos humanos ha sido más

bien narrativa y anecdótica se ha limitado a la mera documentación de agresiones y violaciones. Esto ha derivado en la falta de instrumentos técnicos y científicos que reflejen con rigor y puntual seguimiento la actuación de los aparatos estatales en este campo. La presente investigación llena ese vacío. Mediante una análisis histórico y conceptual sobre la construcción del derecho humano a defender derechos humanos, así como de un encuadre sobre el marco obligacional del Estado respecto del mismo, este trabajo desarrolla un conjunto de indicadores que basado en la metodología de desagregación o desempaque de los derechos consiste en un original aporte a la sistematización de las distintas perspectivas metodológicas relacionadas con el uso de indicadores para el monitoreo y seguimiento de ese derecho y en un valioso insumo que facilita su investigación. Y ese grito es nuestro. Expresiones de la defensa de los Derechos Humanos y Nuevos Movimientos Maribel Núñez

Cruz, 2025-01-31 La protesta abre camino a las libertades pero sobre todo es un mecanismo para la expresión de necesidades humanas en colectivo. La protesta problematiza, sociabiliza, configura y transforma. Así como "Y ese grito es nuestro" amuleto es la frase con la que termina "Amuleto 1999" del escritor chileno Roberto Bolaño, contextualizada en el movimiento estudiantil de 1968 en México; as parte de ella es punto de arranque y recordatorio para analizar la discusión que hay en el espacio público para mostrar lo que hemos defendido en nuestro país y para ver cómo desde el espacio común han evolucionado las luchas que configuran nuestra identidad. Aquí hay una compilación de ensayos desde las voces de nuevas generaciones que comienzan a formarse en la investigación y que aportan al mundo de las ciencias sociales enfoques frescos que pueden forjar un legado para el futuro. *Los derechos fundamentales no escritos y análogos* Marcial Antonio Rubio Correa, 2023-05-05 Los derechos no escritos son derechos fundamentales y se protegen de igual manera que los escritos en la Constitución. Este libro explica la teorización del Tribunal Constitucional sobre los derechos no escritos y hace una descripción de todos ellos uno por uno.

**TRATADO DE LA HERMENÉUTICA DE LOS DERECHOS FUNDAMENTALES - Elucidaciones, prospectivas, disruptivas** JORGE ISAAC TORRES MANRIQUE, 2021-12-01 El Tratado de la hermenéutica de los derechos fundamentales. Elucidaciones prospectivas disruptivas. Es de hecho un libro que ya lo contiene todo. Cada palabra adicional aunque solo sea en un texto de apertura y presentación del volumen parece superflua. Trata todos los problemas más importantes relacionados con la protección de los derechos fundamentales en el nuevo milenio y lo hace en una clave transversal que muy pocos estudiosos hubieran podido utilizar con la misma sutileza. Del derecho constitucional al derecho procesal, del derecho penal al civil, no hay una sola rama del ordenamiento jurídico que no se tenga en cuenta. Proporciona una imagen detallada de los diversos problemas también en clave comparativa y lo hace con la mirada puesta en el futuro, como muestra por ejemplo el apreciado capítulo dedicado a la inteligencia artificial y los problemas que plantea en los distintos sectores del derecho. Algunos libros tienen el mérito de ser como reservorios culturales a los que se puede recurrir en momentos de necesidad. El Tratado de derechos fundamentales del Dr. Torres pertenece a esta categoría. Derechos fundamentales César Landa, 2020-09-24 El presente libro reúne las ponencias de las V Jornadas Nacionales organizadas por el rector de Derecho

Constitucional de la Pontificia Universidad Católica del Perú llevadas a cabo del 24 al 26 de septiembre del 2020 Casar Landa Arroyo Profesor de Derecho Constitucional en la Pontificia Universidad Católica del Perú y en la Universidad Nacional Mayor de San Marcos Ex Presidente del Tribunal Constitucional del Perú Diez cuestiones actuales sobre derechos humanos.

Joaquín Mejía Rivera, 2020-09-21 El presente libro pretende aportar al debate sobre los derechos humanos para promover un mayor entendimiento sobre sus alcances y su impacto en la vida cotidiana de las personas y en el fortalecimiento de la democracia y el Estado de derecho. Se abordan 10 cuestiones actuales relacionadas con el Estado de derecho, los sistemas internacionales de protección de los derechos humanos, particularmente el Sistema Interamericano de Derechos Humanos, las obligaciones estatales frente a todos los derechos humanos, enfatizando las relativas a los derechos económicos, sociales y culturales y al papel que juegan estos en la consolidación de las democracias latinoamericanas. La elaboración del Protocolo Facultativo al Pacto Internacional de Derechos Económicos Sociales y Culturales garantiza niveles de exigibilidad de estos derechos, el impacto de los tratados de libre comercio sobre los derechos humanos, la fundamentalidad de los derechos humanos frente a los derechos patrimoniales, la protesta social como ejercicio colectivo de la democracia cuando los canales institucionales no son idóneos para encausar las demandas ciudadanas y finalmente el papel del poder judicial en contextos de graves violaciones a derechos humanos, tomando como ejemplo el golpe de Estado ocurrido en Honduras en 2009 y sus consecuencias, siguiendo profundizando la corrupción e impunidad. Sin duda, este libro constituye una lectura indispensable para quienes desean profundizar en el estudio y conocimiento de los derechos humanos así como comprender los desafíos actuales a los que se enfrentan.

### **Democracia, estado de derecho y derechos humanos en**

**América Latina** Cristian Altavilla, 2023-11-05 Debo señalar que la pluralidad de temas tratados en esta obra tienen sobradamente entidad y requieren de la atención de la doctrina constitucional. La Carta Democrática Interamericana parece abrir a un momento de consolidación democrática en América Latina después de los turbulentos años 80 y 90 y sobre todo una vez superadas las diversas y dramáticas experiencias autoritarias que sufrió la región. Sin embargo, la situación se ha ido deteriorando progresivamente sobre todo a partir del inicio del segundo decenio del siglo XXI. Debo señalar que lamentablemente no se trata de un fenómeno solo predictable de América Latina sino que también afecta a otras zonas del planeta que parecen que gozaban de mayor estabilidad democrática y de respeto institucional. Por todo ello, es una crisis plural tanto desde la perspectiva nacional como temática como el que se hace en este conjunto de trabajos impulsados por el profesor Altavilla. Nos permite ver la profundidad del deterioro que más arriba he expuesto muy sucintamente. Roberto Viciana Pastor, Catedrático de Derecho Constitucional, Universitat de Valencia, España.

### **Desafíos globales para la democracia en la nueva Constitución.**

Claudio Enrique Nash Rojas, 2022-12-01 La protesta social constituye un ejercicio de derechos. El Estado tiene la obligación de respetar y garantizarlos en igualdad. Las políticas represivas y la falta de controles eficaces ponen en riesgo el estado democrático de derechos en la región.

Muestra de ello es el envío de un comisionado plenipotenciario a fuerzas federales y una inversión multimillonaria para la intervención en el estado de Michoacán en un intento por frenar la inseguridad, restituir el estado de derecho, impulsar el desarrollo de la entidad y detener el crecimiento de las fuerzas de autodefensa. La puesta en marcha de las reformas estructurales en materia política y económica así como la consolidación de las pendientes como la energética estuvo a la cabeza en la agenda gubernamental como parte de la estrategia para mantener a flote y en marcha un barco que en varias ocasiones cumplió el primer tercio del mandato del presidente Enrique Peña Nieto. Presenta un balance desfavorable en casi todos los frentes, en especial en lo que se refiere a crecimiento económico, empleo, seguridad pública y respeto de los derechos humanos. Pese al desquebrajamiento del Pacto por México en el ámbito político, es donde el Ejecutivo federal mejores resultados obtuvo tras consolidarse la reforma electoral que significó la creación del Instituto Nacional Electoral (INE) con políticas atribuciones con lo que comienza una nueva etapa electoral en el país, plagada de incertidumbre y que tendrá su prueba de fuego en 2015 a o en que el INE deberá organizar las elecciones en 17 entidades de la república.
