El Exilio Español 1936-1978:

El exilio republicano Milagrosa Romero Samper, 2005-09-12 Este volumen cubre un nuevo territorio del complejo mundo constituido por los diversos movimientos políticos que se opusieron al régimen de Franco. En este caso se trata de la institución que mantuvo la legitimidad republicana, es decir el Gobierno de la República en el exilio. Se trata de un asunto del que se ha escrito mucho y del que parece difícil decir algo nuevo. Pero la documentación que se ha ido abriendo al público en los últimos años permite abordarlo con más elementos de juicio y por otra parte y sobre todo vale la pena todo lo que sea introducir un factor nuevo de ecuanimidad y también de magnanimidad en el conocimiento de una época y de unas cuestiones que siguen siendo empleadas como arma de enfrentamiento entre los españoles. Todo esto justifica libros como el de Milagrosa Romero que está escrito con claridad con una base documental y bibliográfica ejemplar con ponderación y medida y sin miedo. Sobre todo sin miedo del Prólogo de José Andrés Gallego.

Camisas azules en Hispanoamérica (1936-1978) **Organización política y prosopografía del falangismo en Ultramar.** Luis Velasco Martínez, Miguel Madueño

Álvarez, José Manuel Azcona Pastor, 2021 El falangismo fue el experimento más exitoso del fascismo español pero también representó una ideología y un movimiento político con aspiraciones fuera de sus fronteras. En los estados independientes que habían formado parte del Imperio español o en los lugares donde se concentraba la población emigrante española el falangismo organizó estructuras y células para participar desde ultramar en la revolución nacional sindicalista primero y en el esfuerzo de guerra de los sublevados en 1936 después. Durante la Segunda Guerra Mundial también tuvo un papel destacado en los intentos de movilización de apoyos y simpatías para los países del Eje. En esta obra se ofrecen algunas aproximaciones a la organización de esos apoyos y a los perfiles de sus miembros y dirigentes en Hispanoamérica pero también en África y Asia. Los editores Miguel Madueño Álvarez y José Manuel Azcona Pastor son profesores de la Universidad Rey Juan Carlos.

Exilio y cine Varios autores, 2013-02-13 La necesidad de una reflexión profunda acerca de las complejas interacciones entre las dos categorías que el título de este libro anuncia: exilio y cine constituye el punto de partida de su elaboración. La escritura de los diversos artículos deja clara la relevancia del espacio fílmico como lugar privilegiado para la exposición y configuración de nociones tales como el desarraigo, el desplazamiento y el comienzo que supone la nueva vida en cualquier destino. Se estudian diversos aspectos en torno a los exilios en el cine vasco y español a los guiones documentales y crítica cinematográfica a las artes, pintura y fotografía y al cine del exilio en otros lugares tales como Rusia y Cuba.

International Communism and the Spanish Civil War Lisa A. Kirschenbaum, 2015-07-28 This book provides an intimate picture of international communism in the Stalin era. Focusing on Americans and Spaniards who worked or studied in Moscow and later participated

in the Spanish civil war it uncovers the personal and political ties that linked communists to one another and the Soviet Union

Spain During World War II Wayne H. Bowen, 2006 The story of Spain during World War II has largely been viewed as the story of dictator Francisco Franco's foreign diplomacy in the aftermath of civil war Wayne H Bowen now goes behind the scenes of fascism to reveal less studied dimensions of Spanish history By examining the conflicts within the Franco regime and the daily lives of Spaniards he has written the first book length assessment of the regime's formative years and the struggle of its citizens to survive Bowen argues that the emphasis of previous scholars on Spain's foreign affairs is misplaced that even the most pro Axis elements of Franco's regime were more concerned with domestic politics the potential for civil unrest and poverty than with events in Europe Synthesizing a wide range of Spanish language scholarship and recently declassified government documents Bowen reveals how Franco's government stumbled in the face of world war inexperienced leaders contradictory political ideology and a divided populace His book tells the dramatic story of a six year argument among the general the politicians and the clerics on nothing less than what should be the nature of the new Spain touching on issues as diverse as whether the monarchy should be restored and how women should dress Examining the effects of World War II years on key facets of Spanish life Catholicism the economy women leisure culture opposition to Franco and domestic politics Bowen explores a wide range of topics the grinding poverty following the civil war exacerbated by poor economic decisions restrictions on employment for women versus the relative autonomy enjoyed by female members of the Falange the efforts of the Church to recover from near decimation and methods of repression practiced by the regime against leftists separatists and Freemasons He also shows that the lives of most Spaniards remained apolitical and centered on work family and leisure marked by the popularity of American movies and the resurgence of loyalty to regional sports teams Unlike other studies that have focused exclusively on Spain's foreign affairs during the Second World War Bowen's work stresses the importance of the home front not only in keeping Spain out of the war but also in keeping Franco in power He shows that in spite of internal problems and external distractions Franco's government managed to achieve its goals of state survival and internal peace As the only single volume survey of this era available in English Spain during World War II is a masterful synthesis that offers a much needed alternative view of the Franco regime during crucial times as it provides a testament to the Spanish people's will to survive

Plots of War Isabel Capeloa Gil,Adriana Martins,2012-10-30 *Plots of War* Modern Narratives of Conflict discusses the dynamics of change and transformation that underlie the troubled project of modernity and shows how deeply it has been shaped by war and violence The narrative of war the emplotment of violence in historic and mainly in symbolic terms is

deeply embedded in the construction of individual and collective memories but it also helps to shape the mediation of future conflicts What is ultimately at stake here is the complex figuration and mediation of the violence of war in ever more hyper mediated ways with direct consequences to the production of identities and processes of cultural memory
