El Clima:

El clima de la ciudad de México Ernesto Jáuregui O., 2000-01-01 Esta obra describe el clima de la Ciudad de México y de la cuenca en que se ubica llamada comúnmente valle de México. Como la cuenca abarca una región mucho más amplia que la mancha urbana la información del libro es útil para otras poblaciones cercanas a la ciudad principalmente al norte y oriente de ella. Con lenguaje sencillo no sólo se explica el clima actual sino también cómo ha sido éste a partir del Imperio Azteca. Se hace énfasis en el cambio del clima durante el siglo XX por causas antropogénicas: unas de índole local: desertificación de lagos, urbanización etc. y otras de naturaleza mundial: el calentamiento global. Asimismo se hace una previsión del clima del siglo XXI que seguramente seguirá cambiando por estas mismas causas. Por medio de numerosos mapas, tablas, climogramas y rosas de viento se presenta la climatografía de la cuenca que comprende temperaturas, lluvias, heladas, nieblas, vendavales, contaminantes etc. Hay también un glosario de terminología climática. Por todo lo anterior este libro ampliará por un lado la cultura general de cualquier lector y por otro será un apoyo técnico para profesionales en cuyo trabajo incide directamente el clima como son constructores, urbanistas, planificadores, transportistas y diseñadores entre otros.

Relaciones entre el clima organizacional y la satisfacción laboral Margarita Chiang, Margarita Chiang Vega, María José Martín, María José Martín Rodrigo, Antonio Núñez Partido, 2010-11-02 El estudio del clima organizacional aporta conocimientos fundamentales para la comprensión de las relaciones laborales y para la calidad y eficiencia de la acción organizativa. En estos dominios la influencia de variables actitudinales tales como la satisfacción laboral y de ciertas variables personales como la autoeficacia pueden tener una acción preponderante sobre la interacción social que se desarrolla entre los distintos actores que componen las organizaciones y por ello sobre los resultados obtenidos en el trabajo. La aportación más relevante y convergente en estas investigaciones es aquella que es más probable obtener mejores resultados laborales en alto desempeño o compromiso o cooperación cuando las personas se sienten parte de un grupo de trabajo con un clima organizacional satisfactorio cuando perciben que tienen las competencias adecuadas para desarrollar su trabajo y cuando son recompensadas y reconocidas como agentes significativos de los resultados organizacionales. No sorprende entonces que la relación de las variables organizacionales y personales esté representando una influencia relevante sobre la dinámica de la vida organizacional. En este libro se desgranarán cincuenta años de seguimiento científico sobre esta curiosa relación que se establece entre el clima organizacional y la satisfacción laboral que aunque de un modo intuitivo pueda parecer obvia adquiere matices diferentes pertinentes todos ellos a la singularidad de los diferentes contextos organizativos.

El clima de los equipos de trabajo: determinantes y consecuencias Miguel Ángel Mañas Rodríguez, Vicente González Romá, José María Peiró, 1999-01-01 El clima laboral ha recibido mucha atención durante las últimas décadas debido a que es considerado como uno de los factores que contribuye a producir resultados deseables para las organizaciones y para las personas que trabajan en ellas. Sin embargo todavía son escasos los estudios longitudinales desarrollados para identificar con cierta claridad cuáles son los antecedentes y las consecuencias del clima. El trabajo de

investigación que se presenta en este libro pretende contribuir a cubrir esta laguna. Para ello se ha desarrollado un diseño de panel con Equipos de Atención Primaria. Los resultados hallados indican que el clima de los equipos influye sobre diversas dimensiones del estrés, el bienestar psicológico, la satisfacción laboral y sobre el compromiso con el equipo. Estos resultados muestran que las intervenciones sobre el clima de los equipos pueden constituir un instrumento eficaz para mejorar la calidad de la vida laboral de las personas que trabajan en ellos. Para diseñar tales intervenciones es preciso identificar los antecedentes de las percepciones de clima. En este sentido, los resultados obtenidos muestran que las percepciones de clima son influidas por el tamaño del equipo, la interacción entre los miembros del equipo y la calidad de las relaciones lider-miembro. Los cambios introducidos en estos factores incidirán sobre el clima de los equipos que a su vez permitirán mejorar la calidad de la vida laboral de sus miembros.
