Mystical Bodies, Mystical Meals Joel Hecker,2005 Mystical Bodies Mystical Meals is the first book length study of mystical eating practices and experiences in the kabbalah Focusing on the Jewish mystical literature of late thirteenth century Spain author Joel Hecker analyzes the ways in which the Zohar and other contemporaneous literature represent mystical attainment in their homilies about eating What emerges is not only consideration of eating practices but more broadly the effects such practices and experiences have on the bodies of its practitioners Using anthropology sociology ritual studies and gender theory Hecker accounts for the internal topography of the body as imaginatively conceived by kabbalists For these mystics the physical body interacts with the material world to effect transformations within themselves and within the Divinity The kabbalists experience the ideal body as one of fullness one whose boundaries allow for the intake of divine light and power and for the outward overflow of fruitfulness and generosity at the same time the body retains sufficient integrity to confer a sense of completeness as the perfect symbol for the Divinity itself Nourishment imagery is used throughout the kabbalah as a metaphor signifying the flow of divine blessing from the upper worlds to the lower from masculine to feminine and from Israel to the Godhead The body s spiritual continuity allows for unions between the kabbalistic devotee and his food table chair and wine and is exemplified in the practices and experiences surrounding the consumption of food this continuity is also applicable to other aspects of embodiment such as the kabbalist s union with his fellow man Mystical Bodies Mystical Meals underscores the homosocial quality of the kabbalistic fraternity in which gendered hierarchies of master and disciple are linked to the imagery and dynamics of nourishment and sexuality Bringing this entire spectrum into focus Hecker ultimately considers how the oral cavity and stomach even the emotions associated with festive meals are mobilized to produce the soul of the mystical saint in medieval kabbalah

 Mena em Mendel Schneerson 1902-1994 was the seventh and seemingly last Rebbe of the Habad Lubavitch dynasty Marked by conflicting tendencies Schneerson was a radical messianic visionary who promoted a conservative political agenda a reclusive contemplative who built a hasidic sect into an international movement and a man dedicated to the exposition of mysteries who nevertheless harbored many secrets Schneerson astutely masked views that might be deemed heterodox by the canons of orthodoxy while engineering a fundamentalist ideology that could subvert traditional gender hierarchy the halakhic distinction between permissible and forbidden and the social anthropological division between Jew and Gentile While most literature on the Rebbe focuses on whether or not he identified with the role of Messiah Elliot R Wolfson a leading scholar of Jewish mysticism and the phenomenology of religious experience concentrates instead on Schneerson's apocalyptic sensibility and his promotion of a mystical consciousness that undermines all discrimination For Schneerson the ploy of secrecy is crucial to the dissemination of the messianic secret To be enlightened messianically is to be delivered from all conceptual limitations even the very notion of becoming emancipated from limitation The ultimate liberation or true and complete redemption fuses the believer into an infinite essence beyond all duality even the duality of being emancipated and not emancipated an emancipation in other words that emancipates one from the bind of emancipation At its deepest level Schneerson's eschatological orientation discerned that a spiritual master if he be true must dispose of the mask of mastery Situating Habad's thought within the evolution of kabbalistic mysticism the history of Western philosophy and Mahayana Buddhism Wolfson articulates Schneerson's rich theology and profound philosophy concentrating on the nature of apophatic embodiment semiotic materiality hypernomian transvaluation nondifferentiated alterity and atemporal temporality
