Geiger, 2020-03-02 A collection of articles and review essays from the year 2000 that make up Volume 20 of the annual publication by The Pennsylvania State University **A Modern Introduction to Theology** Philip Kennedy, 2009-09-22 Philip Kennedy here offers the first book that any student with or without religious convictions can profitably use to get quickly to grips with the essentials of the Christian religion its history and its key thinkers its successes and its failures Most existing undergraduate textbooks of theology begin from essentially traditional positions on the Bible doctrine authority interpretation and God What makes Philip Kennedy s book both singularly important and uniquely different is that it has a completely new starting point The author contends that traditional Christian theology must extensively overhaul many of its theses because of a multitude of modern social historical and intellectual revolutions Offering a grand historical sweep of the genesis of the modern age and writing with panache and a magisterial grasp of the relevant debates conflicts and controversies *A Modern Introduction to Theology* moves a tired and increasingly incoherent discipline in genuinely fresh and exciting directions and will be welcomed by students and readers of the subject *The Routledge Companion to Eighteenth Century Philosophy* Aaron Garrett, 2014-03-21 The Eighteenth century is one of the most important periods in the history of Western philosophy witnessing philosophical scientific and social and political change on a vast scale In spite of this there are few single volume overviews of the philosophy of the period as a whole *The Routledge Companion to Eighteenth Century Philosophy* is an authoritative survey and assessment of this momentous period covering major thinkers topics and movements in Eighteenth century philosophy Beginning with a substantial introduction by Aaron Garrett the thirty five specially commissioned chapters by an outstanding team of international contributors are organised into seven clear parts Context and Movements Metaphysics and Understanding Mind Soul and Perception Morals and Aesthetics Politics and Society Philosophy in relation to the Arts and Sciences Major Figures Major topics and themes are explored and discussed ranging from materialism free will and personal identity to the emotions the social contract aesthetics and the sciences including mathematics and biology The final section examines in more detail three figures central to the period Hume Rousseau and Kant As such *The Routledge Companion to Eighteenth Century Philosophy* is essential reading for all students of the period both in philosophy and related disciplines such as politics literature history and religious studies **Multiplicity** Justin Rosenberg, Milja Kurki, 2021-05-11 This volume takes up the idea of multiplicity as a new common ground for international theory bringing together 10 scholars to reflect on the implications of societal

multiplicity for areas as diverse as nationalism ecology architecture monetary systems cosmology and the history of political ideas International relations IR it is often said has contributed no big ideas to the interdisciplinary conversation of the social sciences and humanities Yet this is an unnecessary silence for IR uniquely addresses a fundamental fact about the human world its division into a multiplicity of interacting social formations This feature is full of consequences for the very nature of societies and for social phenomena of all kinds And in recent years a research programme has emerged within IR to theorise these consequences of multiplicity and to trace how the effects of the international dimension extend into other fields of social life This book is a powerful indication of the contribution that IR may yet make to the human disciplines The chapters in this book were originally published as a special issue of Globalizations **The History of Reading, Volume 2 K.**

Mueller, 2009-08-17 This book also emphasizes the difference between religion and science as means for understanding causal relationships but it focuses much more heavily on the challenge religious extremism poses for liberal democratic institutions The treatment contains a discussion of human psychology describes the salient characteristics of all religions and contrasts religion and science as systems of thought Historical sketches are used to establish a link between modernity and the use of the human capacity for reasoning to advance human welfare The book describes the conditions under which democratic institutions can advance human welfare and the nature of constitutional rights as protectors of individual freedoms Extremist religions are shown to pose a threat to liberal democracy a threat that has implications for immigration and education policies and the definition of citizenship **Early Modern Political Petitioning and Public Engagement in Scotland, Britain and Scandinavia, c.1550-1795** Karin Bowie, Thomas Munck, 2020-12-28 This book assesses the everyday use of petitions in administrative and judicial settings and contrasts these with more assertive forms of political petitioning addressed to assemblies or rulers A petition used to be a humble means of asking a favour but in the early modern period petitioning became more assertive and participative This book shows how this contrasted to ordinary petitioning often to the consternation of authorities By evaluating petitioning practices in Scotland England and Denmark the book traces the boundaries between ordinary and adversarial petitioning and shows how non elites could become involved in politics through petitioning Also observed are the responses of authorities to participative petitions including the suppression or forgetting of unwelcome petitions and consequent struggles to establish petitioning as a right rather than a privilege Together the chapters in this book indicate the significance of collective petitioning in articulating early modern public opinion and shaping contemporary ideas about opinion at large The chapters in this book were originally published in the journal *Parliaments Estates Representation* *The Wodrow-Kenrick Correspondence 1750-1810* , 2024-12-12 This is the second volume of the *Wodrow Kenrick Correspondence 1750-1810* Reverend James Wodrow 1730-1810 minister of the Church of Scotland at Stevenston in Ayrshire and Samuel Kenrick 1728-1811 tutor to a Renfrewshire family until 1763 and subsequently a merchant and banker in Bewdley Worcestershire began corresponding around 1750 soon after leaving the University of Glasgow They continued to do so until James Wodrow's death in 1810 Their correspondence is an exceptionally rich resource for the study of British culture and society in the era of Enlightenment and revolutions here made easily available to scholars for the first time Samuel Kenrick lived in England from 1765 and the men only met again in 1789 so their friendship was carried out almost entirely on paper for forty five years The correspondence constitutes a remarkable

record of a friendship In Volume 2 1784 1790 Wodrow and Kenrick were long established in successful careers and their daughters were now adults A major theme in this book is Mary Kenrick s visit to Scotland to stay with the Wodrow family in summer 1784 and Helen Nell Wodrow s return with her to Bewdley to become part of the Kenrick household until September 1785 Wodrow himself visited Bewdley on the only occasions he ever did this in early September and late October 1788 on his way to and from London to arrange for the publication of two volumes of the sermons of his mentor Principal William Leechman of Glasgow University As well as discussing family friendship and the practicalities of publishing the letters in this volume contain lively and highly readable exchanges on theology and church politics in Scotland and England university politics in Glasgow a wide range of contemporary literature and an enormous spectrum of famous and less well known politicians authors clergymen and local figures in Ayrshire and Worcestershire

Enlightened Reform in Southern Europe and its Atlantic Colonies, c. 1750-1830 Gabriel Paquette, 2016-05-06 Efforts to ascertain the influence of enlightenment thought on state action especially government reform in the long eighteenth century have long provoked stimulating scholarly quarrels Generations of historians have grappled with the elusive intersections of enlightenment and absolutism of political ideas and government policy In order to complement expand and rejuvenate the debate which has so far concentrated largely on Northern Central and Eastern Europe this volume brings together historians of Southern Europe broadly defined and its ultramarine empires Each chapter has been explicitly commissioned to engage with a common set of historiographical issues in order to reappraise specific aspects of enlightened absolutism and enlightened reform as paradigms for the study of Southern Europe and its Atlantic empires In so doing it engages creatively with pressing issues in the current historical literature and suggests new directions for future research No single historian working alone could write a history that did justice to the complex issues involved in studying the connection between enlightenment ideas and policy making in Spanish America Brazil France Italy Portugal and Spain For this reason this well conceived balanced volume drawing on the expertise of a small carefully chosen cohort offers an exciting investigation of this historical debate
