revolutionary spirit permeates contemporary culture as can be seen in the political actions of Pussy Riot in Russia the yellow vest protesters in France the BlackLivesMatter movement and the striking teachers and student protesters on campuses throughout the U S See inside the book **May 68' - A Compendium** Rene Vienet, Rene Riesel, Mustapha Khayati, 2018-05-07 As the 50th anniversary of the events of May 68 passes it leaves a familiar image heavy trail in its wake young street fighting Parisians earnest but chic looking Sorbonne occupiers the iconic graffiti posters imagery all long since passed into the mythology of pop culture endlessly recycled and recuperated stripped bare of real political legacy Within that mythology the role of the Situationists has long been contested underplayed exaggerated misunderstood This compendium reprints crucial pieces written by the Sitos themselves helping show May 68 as a reaction to a profound systemic stasis running deep through mid 20th C capitalism and to the autocratic hierarchical and tradition bound ruling class that still oversaw it in France On the Poverty of Student Life 1966 was originally printed via appropriated funds when 5 pro Sitos were elected to Strasbourg Uni Student Union Its searing critique of what the authors considered the miserable passive consumerism of the modern hipster student was a powerful portent of what was to come The real poverty of his everyday life finds its immediate phantastic compensation in the opium of cultural commodities he is obliged to discover modern culture as an admiring spectator he thinks he is avant garde if he's seen the latest Godard or participated in the latest happening He discovers modernity as fast as the market can provide it Possibly the single most important document recording and analysing the events of May 68 remains Enragés and Situationists in the Occupations Movement written by Rene Vienet a young pro Situ at the centre of the Sorbonne Occupation A 60 page chronological account at times it unselfconsciously captures the poetry of the revolution they were helping make but mostly the focus is on the objective material forces that shaped events after the initial occupation of the Sorbonne This vital piece is supplemented supported by contemporaneous Various Documents from May 68 and retrospective Further Reflections on May 68 from the Situationist International journal Slightly more tangentially Preliminaries on Councils and Councillist Organization looks deeper into the proto revolutionary structures that the Situationists saw at the very core of global post capitalism in the 20th century and beyond **Tactics and Emancipation in the Age of Authoritarian Neoliberalism** Nicholas Kiersey, William W. Sokoloff, 2023-04-11 This book calls for new attention to non traditional forms of emancipatory tactics and welcomes to the fold all manner of everyday expressions of anti authoritarianism Capitalism has taken the mask off Elites feel less obliged to pursue strategies of popular legitimization The traditional institutions of representative democracies are thus hollowing out and stand before us corrupted and broken In this milieu the prospects for a democratic entering of the state are seen as increasingly fantastical and the Left is advised instead to adopt a more tactical posture These expressions can run the gamut from the more obviously theatrical antics of The Yes Men to those of black bloc and other direct action militant groups already well known from their interventions in the cities of Berkeley and Charlottesville This volume addresses this problem via the concept of tactics The

point is less to prescribe an ideal range of tactics but rather to consider a broader range of resistances from the struggles of indigenous peoples to those who seek refuge from gender or citizenship based discrimination to those who seek to defend black lives from militarized policing Tactics and Emancipation in the Age of Authoritarian Neoliberalism will be a beneficial read for students and scholars of Critical Political Science International Relations and International Political Economy The chapters in this book were originally published as a special issue of New Political Science

**The Composition of Movements to Come** Stevphen Shukaitis, 2015-12-18 How does the avant garde create spaces in everyday life that subvert regimes of economic and political control How do art aesthetics and activism inform one another And how do strategic spaces of creativity become the basis for new forms of production and governance The Composition of Movements to Come reconsiders the history and the practices of the avant garde from the Situationists to the Art Strike revolutionary Constructivism to Laibach and Neue Slowenische Kunst through an autonomist Marxist framework Moving the framework beyond an overly narrow class analysis the book explores broader questions of the changing nature of cultural labor and forms of resistance around this labor It examines a doubly articulated process of refusal the refusal of separating art from daily life and the re fusing of these antagonistic energies by capitalist production and governance This relationship opens up a new terrain for strategic thought in relation to everyday politics where the history of the avant garde is no longer separated from broader questions of political economy or movement but becomes a point around which to reorient these considerations

The Walls Have the Floor Julien Besancon, 2018-05-11 The graffiti of the French student and worker uprising of May 1968 capturing participatory politics in action Graffiti itself became a form of freedom Julien Besancon The Walls Have the Floor Fifty years ago in 1968 barricades were erected in the streets of Paris for the first time since the Paris Commune of nearly one hundred years before The events of May 1968 began with student protests against the Vietnam War and American imperialism expanded to rebellion over student living conditions and resistance to capitalist consumerism An uprising at the Sorbonne was followed by wildcat strikes across France uniting students and workers and bringing the country's economy to a halt There have been many accounts of these events This book tells the story in a different way through the graffiti inscribed by protestors as they protested The graffiti collected here is by turns poetic punning hopeful sarcastic and crude It quotes poets as often as it does political thinkers Many wrote I have nothing to write signaling not their naiveté but their desire to participate Other anonymous declarations included Prohibiting prohibited The dream is reality The walls have ears Your ears have walls Exaggeration is the beginning of invention Comrades you're nitpicking You don't beg for the right to live you take it and I came I saw I believed A meeting is called at the Grand Amphitheater of the Sorbonne Agenda the worldwide revolution This was interactive participatory politics before Twitter and Facebook Although the revolution of May 1968 didn't topple the government Charles de Gaulle fled the country only to return in June his party won a resounding electoral mandate it made history In The Walls Have the Floor Julien Besancon collected traces of this history before the walls

relationship between radicalism and a sense of loss and the ambivalent position of socialism in and against modernity can be viewed with greater clarity In Section One of the book Bonnett shows the centrality and repression of nostalgia in both 19th century radicalism and anti colonial radicalism In Section Two he explores the consequences of this inheritance by way of 20th century and contemporary studies of revolutionary intellectuals and intellectual culture Bonnett s unique approach in how to understand the left in an age of post socialism will make book a needed resource for anyone interested in the history and politics of the left and radicalism

Visions of the City David Pinder, 2013-11-12 Visions of the City is a dramatic history of utopian urbanism in the twentieth century It explores radical demands for new spaces and ways of living and considers their effects on planning architecture and struggles to shape urban landscapes The author critically examines influential utopian approaches to urbanism in western Europe associated with such figures as Ebenezer Howard and Le Corbusier uncovering the political interests desires and anxieties that lay behind their ideal cities He also investigates avant garde perspectives from the time that challenged these conceptions of cities especially from within surrealism At the heart of this richly illustrated book is an encounter with the explosive ideas of the situationists Tracing the subversive practices of this avant garde group and its associates from their explorations of Paris during the 1950s to their alternative visions based on nomadic life and play David Pinder convincingly explains the significance of their revolutionary attempts to transform urban spaces and everyday life He addresses in particular Constant s New Babylon finding within his proposals a still powerful provocation to imagine cities otherwise The book not only recovers vital moments from past hopes and dreams of modern urbanism It also contests current claims about the end of utopia arguing that reconsidering earlier projects can play a critical role in developing utopian perspectives today Through the study of utopian visions it aims to rekindle elements of utopianism itself A superb critical exploration of the underside of utopian thought over the last hundred years and its continuing relevance in the here and now for thinking about possible urban worlds The treatment of the Situationists and their milieu is a revelation David Harvey Distinguished Professor of Anthropology City University of New York Graduate School
