**Enthusiasm and Enlightenment in Europe, 1650-1850** Lawrence Eliot Klein, Anthony J. LaVopa, 1998 These essays on the shifting content and value attached to enthusiasm treat a particular historical question and at the same time pose a general challenge to our methodological expectations The contributors Peter Fenves Jan Goldstein Lawrence E Klein Jon Mee J G A Pocock Mary D Sheriff and Anthony J La Vopa study the discourses of religion psychology aesthetics politics and philosophy in which enthusiasm figured as a key term often a pejorative by which various forms of orthodoxy sought to establish their authority sometimes a desideratum attached to intellectual spiritual or artistic inspiration By tracing these often parallel discourses in France Germany and England the essays establish the value of a transnational framework for the issues of secularization and modernity one that draws on the perspectives of intellectual as well as social and political history

**Inspiration in the Age of Enlightenment** Sarah Eron, 2014-03-20 Inspiration in the Age of Enlightenment reconsiders theories of apostrophe and poetic authority to argue that the Augustan age created a new form of inspiration one that not only changed the relationship of literary production to authority in the modern period but also crucially contributes to defining the movement of secularization in literature from the Renaissance to Romanticism Seeking to redefine what we mean by secularization in the early stages of modernity Eron argues that secularization's link to enthusiasm or inspiration often associated with Romanticism begins in the imaginative literature of the early eighteenth century If Romantic enthusiasm has been described through the rhetoric of transport or unworlding then Augustan invocation appears more akin to a process of worlding in its central aim to appeal to the social other as a function of the eighteenth century belief in a literary public sphere By reformulating the passive structure of ancient invocation and subjecting it to the more dialogical methods of modern apostrophe and address authors such as the Third Earl of Shaftesbury Alexander Pope Henry Fielding and Anna Laetitia Barbauld formally revise inspiration in a way that generates a new and distinctive representation of the author In this context inspiration becomes a social gesture an apostrophe to a friend or judging spectator or an allusion to the mental or aesthetic faculties of the author himself his genius Articulating this struggle toward modernity at its inception this book examines modern authority at the moment of its extraordinariness when it was still tied to the creative energies of inspiration to the revelatory powers that marked the awakening of a new age an era and an ethos of Enlightenment

A Cultural History of Money in the Age of Enlightenment Christine Desan, 2021-03-11 The Enlightenment was a time of monetary turmoil and transformation in Europe Change began with a riot of experimentation including novel ideas about human agency and capacity to promote economic progress efforts to reframe divinity in terms like the providential compatible with market exchange new instruments of credit and innovative institutions such as national banks and capital markets Europeans including the settler societies in North America improvised frantically people faced the task of everyday exchange in changing media governments took up the project of creating currencies that supported their political power artists and writers raced to represent new forms of wealth and interpret the issues they raised and intellectuals struggled to conceptualize and tame patterns of monetary transformation The result was a rich debate still unsettled about the sources of value the morality of the market and the very nature of money Drawing upon a wealth of visual and textual sources *A Cultural History of Money in the Age of Enlightenment* presents essays that examine key cultural case studies of the period on the themes of technologies ideas ritual and religion the everyday art and representation interpretation and the issues of the age

**Mystery Unveiled** Paul C. H. Lim, 2012-08-13 Winner of the Sixteenth Century Society's Roland H Bainton Prize for History or Theology Paul C H Lim offers an insightful examination of the polemical debates about the doctrine of the Trinity in seventeenth century England showing that the philosophical and theological re configuration of this doctrine had a significant impact on the politics of religion in the early modern period Lim's analysis of these heated polemics shows how Trinitarian God talk became untenable in many ecclesiastical and philosophical circles leading to the emergence of Unitarianism He demonstrates that those who continued to uphold Trinitarian doctrine articulated their piety and theological perspectives in an increasingly secularized culture of discourse Drawing on both unexplored manuscripts and well known treatises of Continental and English provenance he uncovers the complex layers of the polemic from biblical exegesis to reception history of patristic authorities from popular religious radicalism during the Civil War to Puritan spirituality from Continental Socinians to English anti Trinitarians who claimed an independent theological identity from the notion of the Platonic captivity of primitive Christianity to that of Plato as Moses Atticus Among this book's surprising findings are that Anti Trinitarian sentiment arose in a Puritan ambience in which

biblical literalism overrode rationalistic presuppositions and that theology and philosophy were more closely connected during this period than previously thought *Mystery Unveiled* fills a significant lacuna in early modern English intellectual history

*Way to Wisdom* Karl Jaspers, 2003-05-11 An eloquent expression of a great hope that philosophy may again become an activity really relevant not only to the perennial problems of life and death but to the unusual configurations of such problems in our time Julian N Hartt Yale Review Original sincere cultivated and stimulating Philosophy One of the founders of existentialism the eminent philosopher Karl Jaspers here presents for the general reader an introduction to philosophy In doing so he also offers a lucid summary of his own philosophical thought In Jaspers view the source of philosophy is to be found in wonder in doubt in a sense of forsakenness and the philosophical quest is a process of continual change and self discovery In a new foreword to this edition Richard M Owsley provides a brief overview of Jaspers life and achievement

*Atheism and Deism Revalued* Wayne Hudson, Diego Lucci, 2016-04-15 Given the central role played by religion in early modern Britain it is perhaps surprising that historians have not always paid close attention to the shifting and nuanced subtleties of terms used in religious controversies In this collection particular attention is focussed upon two of the most contentious of these terms atheism and deism terms that have shaped significant parts of the scholarship on the Enlightenment This volume argues that in the seventeenth and eighteenth century atheism and deism involved fine distinctions that have not always been preserved by later scholars The original deployment and usage of these terms were

often more complicated than much of the historical scholarship suggests. Indeed, in much of the literature, static definitions are often taken for granted, resulting in depictions of the past constructed upon anachronistic assumptions. Offering reassessments of the historical figures most associated with atheism and deism in early modern Britain, this collection opens the subject up for debate and shows how the new historiography of deism changes our understanding of heterodox religious identities in Britain from 1650 to 1800. It problematises the older view that individuals were atheist or deists in a straightforward sense and instead explores the plurality and flexibility of religious identities during this period. Drawing on the most recent scholarship, the volume enriches the debate about heterodoxy, offering new perspectives on a range of prominent figures and providing an overview of major changes in the field.
