Entrepreneurs Of Ideology:

Entrepreneurs of Ideology Gary D. Stark, 2018-08-25 Stark examines the importance of publishers and the book industry in the rise of twentieth century Germany's radical right wing cultural movements. He shows that these men thought their professional calling conferred upon them the right and responsibility to provide guidance for the German nation. The book industry created new currents of thought fused them into a coherent ideological system and spread this system to a wide audience. Originally published in 1981. A UNC Press Enduring Edition. UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value.

Community Revival in the Wake of Disaster Virgil Henry Storr, Stefanie Haeffele-Balch, Laura E. Grube, 2016-02-10 Rebounding after disasters like tsunamis, hurricanes, earthquakes, and floods can be daunting. Communities must have residents who can not only gain access to the resources that they need to rebuild but who can also overcome the collective action problem that characterizes post-disaster relief efforts. *Community Revival in the Wake of Disaster* argues that entrepreneurs conceived broadly as individuals who recognize and act on opportunities to promote social change fill this critical role. Using examples of recovery efforts following Hurricane Katrina in New Orleans, Louisiana, and Hurricane Sandy on the Rockaway Peninsula in New York, the authors demonstrate how entrepreneurs promote community recovery by providing necessary goods and services, restoring and replacing disrupted social networks, and signaling that community rebound is likely and in fact underway. They argue that creating space for entrepreneurs to act after disasters is essential for promoting recovery and fostering resilient communities.

Entrepreneurs of Ideology Gary D. Stark, 1974 *Organizational Entrepreneurship, Politics and the Political* Carine Farias, Pablo Fernandez, Daniel Hjorth, Robin Holt, 2020-12-17 Entrepreneurship as the creation of new organizations has globally become an appealing call for individuals and governments alike. Too often still, it is simply associated with the idea of enterprise, thus sustaining a pervasive politics of homo economicus, agents living a measured life in competition-based individuality. *Organizational Entrepreneurship, Politics and the Political* disconnects entrepreneurship from the politics of enterprise to more fully explore its potential to resist the economic and ethical demand of the enterprise to be instrumentally innovative and instead to disrupt and disturb the established order. As such, entrepreneurship is seen as inevitably political; it is a constant attempt at declassifying existing structures and institutions, de-normalizing practices and sensemaking to make room for and initiate the new. The chapters invite the readers to revisit key concepts in entrepreneurship studies: opportunity, motivation, identity, experimentation, creative destruction, and experimentation by approaching them through a political process lens. This book offers a new conceptual repertoire and vocabulary that reconnects entrepreneurship studies with the socio-political dimensions of organization creation, opening up multiple possibilities for understanding and questioning the meanings and

effects of entrepreneurship in society Combining philosophical reflections with organizational and processual perspectives this book will be of interest to academics students and researchers in the areas of business social and political entrepreneurship organization studies and management The chapters in this book were originally published as a special issue of the Entrepreneurship and Regional Development

Entrepreneurs and the Transformation of the Global Economy Anthony P. Ellison,2002-01-01 Anthony Ellison cuts through conventional neo classical interpretations to expose the indispensable contribution of entrepreneurs in driving the market process and in particular in accomplishing the deregulation of the transportation trade telecommunications and financial regimes both in North America and across the globe Entrepreneurs have an important role in any economy but the author argues that they have played a crucial part in shaping the contemporary global market This book situates the emergence of the contemporary global market economy within an historical context

The Politics and Aesthetics of Entrepreneurship Daniel Hjorth, Chris Steyaert, 2010-01-01 Stylish bold fiery and full of zest this book could well have been called *Embodying Entrepreneurship* for perhaps the first time we have a cultured scholarly in the flesh treatment of entrepreneurial life Ranging from striptease to de Sade the aboriginal to Christo and the grotesque to the sublime *The Politics and Aesthetics of Entrepreneurship* is a tantalizing and critically refreshing work throughout This one could easily become the bad boy book of entrepreneurial studies given how strongly it challenges slaps existing entrepreneurship studies Daved Barry Universidade Nova de Lisboa Portugal Daniel Hjorth and Chris Steyaert make a unique contribution to management education Their ability to illustrate complex ideas through theatre and visual media is outstanding and much appreciated by a wide audience This book is no exception Their insights into the nature of entrepreneurship are fresh and original Their style of presentation is both rich and rewarding This is a book to surprise you and it will Heather H pfl University of Essex UK the four books comprising the series would certainly be a valuable addition to any entrepreneurship library However each book also stands alone as an individual purchase Lorraine Warren International Journal of Entrepreneurial Behaviour and Research This fourth book in the *New Movements in Entrepreneurship* series focuses on the politics and aesthetics of entrepreneurial processes in order to shed light on entrepreneurial creation itself Presenting original empirical material the eminent contributors examine control and entrepreneurship in various organizational contexts They go on to demonstrate how control can be exercised entrepreneurially how art brings an entrepreneurial force into society and how entrepreneurship operates by aesthetic moves The need to move beyond the traditional focus on the economic and business implications of entrepreneurship is also discussed as is the relevance of political and aesthetic theory to our understanding of entrepreneurship as a creative force The book provides entrepreneurship studies with a new language that in itself is an aesthetic effort with political implications

resulting in new theoretical empirical and practical possibilities It will prove a fascinating read for students academics and researchers with an interest in entrepreneurship and management and creativity and aesthetics **Choosing an Identity**

Sun-Ki Chai,2010-05-06 Social science research is fragmented by the widely differing and seemingly contradictory approaches used by the different disciplines of the social sciences to explain human action Attempts at integrating different social science approaches to explain action have often been frustrated by the difficulty of incorporating cultural assumptions into rational choice theories without robbing them of their generality or making them too vague for predictions Another problem has been the major disagreements among cultural theorists regarding the ways in which culture affects preferences and beliefs This book provides a general model of preference and belief formation addressing the largest unresolved issue in rational choice theories of action It attempts to play a bridging role between these approaches by augmenting and modifying the main ideas of the rational choice model to make it more compatible with empirical findings in other fields The resulting model is used to analyze three major unresolved issues in the developing world the sources of a government s economic ideology the origins of ethnic group boundaries and the relationship between modernization and violence Addressing theoretical problems that cut across numerous disciplines this work will be of interest to a diversity of theoretically minded scholars Sun Ki Chai is Assistant Professor of Sociology University of Arizona **Critical management studies in South**

Africa ,2021-11-30 This book shows how Critical Management Studies CMS scholarship is starting to develop a character of its own in South Africa It attests to CMS slowly gaining momentum and acquiring an identity of its own amongst South African scholars However management studies in South Africa is dominated by capitalist ideology and positivist methodology Although Interpretive scholarship has gained some momentum it still falls within the parameters of mainstream capitalist thinking Scholarship outside the domain of capitalist thinking such as critical scholarship remains sorely underexplored Being entrenched in the positivist tradition is arguably a major Achilles Heel for the progression of management as a field of inquiry CMS presents a vehicle for alternative epistemologies to be heard in the management discourse With its focus on power imbalances struggles for emancipation from oppression and distrust of capitalism CMS provides the peripheral point of view with a voice CMS presents a space where scholars can engage with South African realities surrounding political cultural social and historical contexts and issues in management This book is promoting CMS to the scholarly community to show that there are exciting possibilities being offered by a different approach to management scholarship This book also forms part of a larger project of growing CMS in South Africa and is a collection of original works by academics actively working in CMS following various methodological approaches which can be categorised into two broad methodological categories namely conceptual work and empirical work following an Interpretive approach **Women, Business and**
