Qualitative Economics Woodrow W. Clark II,Michael Fast,2019-10-08 This book provides a new paradigm of economics that is called Qualitative Economics The authors take an approach to economics that is entirely different from the established neo classical economics paradigm Arguing that the basis of neo classical economic theory with its focus on perfect information in a balanced equilibrium system of supply and demand is fundamentally flawed the authors propose an inclusive philosophical and scientific perspective to explain economic structures and activities and how best to understand the dynamics of economics Furthermore the authors argue that a qualitative approach allows for greater understanding of not only the actors actions and situations in economics but also defines the context in which the more traditional quantitative and statistical methods are applied The book includes case studies to further illustrate the applications of qualitative economics Challenging orthodox paradigms and schools of economic thought the book proposes a new way of looking at economics and as such will be of use to researchers and students of economics business social sciences and the sciences as well as think tanks and advocacy groups interested in heterodox economics

Agile Energy Systems Woodrow W. Clark,Ted Bradshaw,2004-12-13 Empowering decision makers by setting the vision for a new approach to energy systems and providing the tools and plans to achieve these objectives Provides specific and actionable public policy and programme tools Help solve energy issues worldwide by illustrating how the lessons learned from the California energy crisis can be used to create an agile energy system for any region in a country

Due to the recent catastrophic energy system failures in California along with those in the North Eastern US and Southern Canada London and Italy the time has come to proclaim the failure of deregulation privatization or liberalization and propose a new energy system Agile Energy Systems shows in the first section how five precipitating forces led to the deregulation debacle in California 1 major technological changes and commercialization 2 regulatory needs mismatched to societal adjustments 3 inadequate and flawed economic models 4 lack of vision goals and planning leading to energy failures and 5 failure and lack of economic regional development The second half of the book examines how civic market new economic models and planning for a sustainable economic environment counteracted these five forces to create an agile energy system This system is based on renewable energy generation hybrid or combined and distributed generation technologies Such an agile system can be a new paradigm for both energy efficiency and reliability for any region or country in contrast to the brittle centralized energy grid systems created by deregulation Furthermore the book overviews how the future of energy systems rests in the emerging clean hydrogen economy Empowering decision makers by setting the vision for a new approach to energy systems and providing the tools and plans to achieve these objectives Provides specific and actionable public policy and program tools Helping to solve energy issues worldwide by illustrating how the lessons learned from the California energy crisis can be used to create an agile energy system for any region or country

Global Business Today Postscript 2003, Map and Powerweb Charles W. L. Hill, 2002-07 Global Business Today has become an established text in the International Business market for its excellent but concise coverage of the key global issues including the cultural context for global business cross border trade and investment the global monetary system and competition in the global environment GBT's concise chapters give a general introduction to international business emphasizing the environmental factors with less coverage of operations Charles Hill is renowned for his attention to research trends and that is evident in GBT through a variety of real world examples and cases from small medium and large companies throughout the world 2003 Postscript 32 pages make up this postscript edition In this postscript we review some important developments that have occurred since the manuscript for the second edition of this book was sent to the publishers and we discuss the implications of these developments for international business One development has been the continuing globalization of the world economy Here we update the statistics contained in this book and look at the 2001 slowdown in the rate of economic growth across the three major economics of the world the United States Japan and the European Union The FDI is revisited and as well A second important development has been the growing tide of protests against globalization Here we review the reasons for the protests and discuss their implications Another important development was the formal adoption of euro notes and coins by 12 nations of the European Union on January 1st 2002 In this postscript edition the progress of the euro to date is examined The postscript closes with a review of the economic and political achievements of the twentieth century and a discussion of the outlook for the early years of the twenty first century

Sustainable Living and Business Hans-Werner Franz, Gerald Beck, Diego Compagna, Peter Dürr, Wolfgang Gehra, Martina Wegner, 2024-01-04 The title of the book derives from the theme of the 20th Conference on Applied Social Sciences of the Professional Association of German Sociologists held in Munich in May 2019 The question of what concrete contributions social innovations can make to the transition to forms of sustainable coexistence and economic activity is as much the focus of this book as the question of what contribution the social sciences can make Thus on the one hand it is about concrete social innovations that help us to achieve the goal of living and doing business sustainably but on the other hand it is also about the way in which the social sciences not least through appropriate theoretical and methodological training can be made socially responsible for the success of such socially innovative processes This book is a translation of an original German edition The translation was done with the help of artificial intelligence machine translation by the service DeepL com A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation
