Ebook: Entrepreneurship KIRBY, 2002-07-16 Ebook Entrepreneurship

Frontiers in Entrepreneurship Boris Urban, 2010-07-23 The series Perspectives in Entrepreneurship A Research Companion provides an authoritative overview of specialised themes in entrepreneurship Each of the four books presents the conceptual framework and foundations underlying a specialist field of scholarship in entrepreneurship The series is inspired by the dearth of higher level texts available in South Africa failing to encapsulate the rigorous research evident in the growing field of entrepreneurship internationally The content is driven by a judicious selection and interpretation of key knowledge set in context by introducing and delineating major topics previously not discussed in depth in traditional entrepreneurial texts A blend of theoretical and empirical evidence is presented that collectively demonstrates the convergence of thinking on a particular theme Identifying and evaluating the most seminal and impactful scholarly research on different subject areas where entrepreneurship is at the core serves to achieve this convergence By applying a theoretical lens to central issues about entrepreneurship rather than focusing on practical issues of how to the series has a conceptual outlook with specialist areas in detailed narrative The book is deliberately structured to add value to learners who are undertaking secondary programmes in entrepreneurship by building on basic entrepreneurship principles and theory The series builds on fundamental entrepreneurial texts Each book provides a valuable knowledge base for educators third year and postgraduate students researchers policy makers and service providers

Strategy for Action - II Giorgio Gandellini, Alberto Pezzi, Daniela Venanzi, 2013-01-26 The innovative and unique feature of this book is that it does not contain theoretical concept that cannot be translated into practice This second volume expands the analysis of the strategic decisions emphasizing the importance of a sustainable competitive advantage and proposing an integrated conceptual and operational framework the Strateco Dashboard that complements and significantly improves the recent and well known Blue Ocean approach to strategy development Finally it addresses the measurement of the performance of strategy in terms of value creation highlighting differences and similarities as well as strengths and weaknesses of the main metrics Furthermore it proposes a comprehensive and operational framework for the assessment of the financial feasibility of strategy through the measurement of the impact of the planned strategic moves on financial needs and the evaluation of their financial sustainability

Sustainable Entrepreneurship and Social Innovation Katerina Nicolopoulou, Mine Karatas-Ozkan, Frank Janssen, John Jermier, 2016-11-10 Sustainable entrepreneurship has attracted growing attention in both scholarly and practitioner circles Focusing on generating social environmental and business value the notion has been raised more recently to address the contribution of entrepreneurial activities to

sustainable economic and social development Sustainable Entrepreneurship and Social Innovation builds on a theoretical framework that addresses related topics via a combination of insights from sustainability policy managerial strategic innovation and institutional perspectives Providing empirical casework as well as a conceptual and theoretical framework the book takes a global interdisciplinary approach to the emergent field of sustainable entrepreneurship The book highlights elements of sustainable entrepreneurship which have a societal impact as well as regional relevance and related aspects of innovation are also presented Definitional issues are further elaborated in order to encompass the main inter connected fields of study sustainable entrepreneurship and social innovation This book is an important resource for academic researchers and postgraduate and advanced undergraduate students in the fields of entrepreneurship innovation and sustainability

Entrepreneurship and Regional Development Rajagopal,Ramesh Behl,2020-10-31 This edited volume brings together research on symbiotic themes of entrepreneurship resource planning and regional development and their impact on global local business imperatives Discussions in this volume critically analyze the convergence of entrepreneurship innovation technology business practices public policies political ideologies and consumer values for improving the global local business paradigm to support regional development This book also delves into contemporary entrepreneurship models converging business strategies towards entrepreneurial and industrial alliance in manufacturing services and marketing organizations It contemplates the development of new business models and hybrid entrepreneurial perspectives to match the changing priorities of regional economic development in developing countries This volume offers scholars new entrepreneurial visions and business perspectives of industries in emerging markets while presenting a more integrated view to enable companies to innovate for long term profitability and sustainability Data-Driven Decision Making in

Entrepreneurship Nikki Blacksmith,Maureen E. McCusker,2024-04-02 Since the beginning of the 21st century there has been an explosion in startup organizations Together these organizations have been valued at over 3 trillion In 2019 alone nearly 300 billion of venture capital was invested globally Global Startup Ecosystem Report 2020 Simultaneously an explosion in high volume and high velocity of big data is rapidly changing how organizations function Gone are the days when organizations can make decisions solely on intuition logic or experience Some have gone as far as to say that data is the most valuable currency and resource available to businesses and startups are no exception However startups do differ from their larger counterparts and corporations in three distinct ways 1 they tend to have fewer resources time and specialized training to devote to data analytics 2 they are part of a unique entrepreneurial ecosystem with unique needs 3 scholarship and academic research on human capital data analytics in startups is lacking Existing entrepreneurship research is primarily conducted in business schools There needs to be more integration of industrial organizational psychology and entrepreneurship This book was designed to do just that to demonstrate how organizational psychology with a focus on human capital data and analytics can advance the science and practice of entrepreneurship This book is purposefully

designed to address the unique idiosyncrasies of the science research and practice of startups and the entrepreneurial ecosystem Each chapter takes a science practice perspective highlighting a specific human capital management topic e g learning and development team effectiveness human capital due diligence and discusses how leveraging data can help enhance decision making The volume is grounded in sound theory and practice of organizational psychology entrepreneurship and management It is divided into three parts 1 human capital assessment and development for startups 2 understanding startup situations environments and support systems and 3 measuring startup level performance **GLOBAL BUSINESS MANAGEMENT AND INFORMATION TECHNOLOGY** Prof. K. S. Thakur, 2014-06-01 School of Commerce and Business Studies Jiwaji University organized a two days National Seminar on Changing Scenario of Global Business Management and Information Technology and I take great pleasure in presenting the edited book of papers submitted and presented in the National Seminar which is essential in this new and changing Global Business Management and Information Technology which requires new approaches to Business Management and Information Technology There is a need to analyse key management global economy and information technology theories from human perspective and measure their impact The seminar was an endeavour to provide platform to all the academicians and practicing managers to interact together and discuss the course of action that businesses and technology needs to take to combat the fast changing global business scenario Executive Teams in Research-Based Spin-Off Companies Rigo Tietz, 2013-04-10 Research based spin off companies are a special subgroup of new technology based ventures and play an important role for innovation and economic development Executive teams of academic spin offs face several challenges in building up sustainable and profitable ventures because they often lack managerial and entrepreneurial skills Based on a quantitative analysis of 193 German spin offs Rigo Tietz examines the relationships between executive team characteristics strategic decision making and firm performance The study contributes to the entrepreneurship and strategic management literature and has practical implications for entrepreneurs and managers policymakers and practitioners of start up initiatives and technology transfer organisations
