Erotic Nihilism in Late Imperial Russia Otto Boele, 2009-11-24 Banned shortly after its publication in 1907 the Russian novel Sanin scandalized readers with the sexual exploits of its eponymous hero Wreaking havoc on the fictional town he visits in Mikhail Artsybashev s story the character Sanin left an even deeper imprint on the psyche of the real life Russian public Soon Saninism became the buzzword for the perceived faults of the nation Seen as promoting a wave of hedonistic decadent behavior the novel was suppressed for decades leaving behind only the rumor of its supposedly epidemic effect on a vulnerable generation of youth Who were the Saninists and what was their teaching all about Delving into police reports newspaper clippings and amateur plays Otto Boele finds that Russian youth were not at all swept away by the self indulgent lifestyle of the novel s hero In fact Saninism was more smoke than fire a figment of the public imagination triggered by anxieties about the revolution of 1905 and the twilight of the Russian empire The reception of the novel Boele shows reflected much deeper worries caused by economic reforms an increase in social mobility and changing attitudes toward sexuality Showing how literary criticism interacts with the age old medium of rumor *Erotic Nihilism in Late Imperial Russia* offers a meticulous analysis of the scandal s coverage in the provincial press and the reactions of young people who appealed to their peers to resist the novel s nihilistic message By examining the complex dialogue between readers and writers children and parents this study provides fascinating insights into Russian culture on the eve of World War I

founding in 1905 **Doubt, Atheism, and the Nineteenth-Century Russian Intelligentsia** Victoria Frede, 2011-09-08

The autocratic rule of both tsar and church in imperial Russia gave rise not only to a revolutionary movement in the nineteenth century but also to a crisis of meaning among members of the intelligentsia. Personal faith became the subject of intense scrutiny as individuals debated the existence of God and the immortality of the soul; debates reflected in the best known novels of the day. Friendships were formed and broken in exchanges over the status of the eternal. The salvation of the entire country, not just of each individual, seemed to depend on the answers to questions about belief. Victoria Frede looks at how and why atheism took on such importance among several generations of Russian intellectuals from the 1820s to the 1860s, drawing on meticulous and extensive research of both published and archival documents including letters, poetry, philosophical tracts, police files, fiction, and literary criticism. She argues that young Russians were less concerned about theology and the Bible than they were about the moral, political, and social status of the individual person. They sought to maintain their integrity against the pressures exerted by an autocratic state and rigidly hierarchical society. As individuals sought to shape their own destinies and searched for truths that would give meaning to their lives, they came to question the legitimacy both of the tsar and of Russia's highest authority, God.

Reinventing Romantic Poetry Diana Greene, 2004-01-15

Reinventing Romantic Poetry offers a new look at the Russian literary scene in the nineteenth century. While celebrated poets such as Aleksandr Pushkin worked within a male-centered Romantic aesthetic, the poet as a bard or sexual conqueror, nature as a mother or mistress, the poet's muse as an idealized woman. Russian women attempting to write Romantic poetry found they had to reinvent poetic conventions of the day to express themselves as women and as poets. Comparing the poetry of fourteen men and fourteen women from this period, Diana Greene revives and redefines the women's writings and offers a thoughtful examination of the sexual politics of reception and literary reputation. The fourteen women considered wrote poetry in every genre, from visions to verse tales, from love lyrics to metaphysical poetry, as well as prose works and plays. Greene delves into the reasons why their writing was dismissed, focusing in particular on the work of Evdokiia Rostopchina, Nadezhda Khvoshchinskaya, and Karolina Pavlova. Greene also considers class as a factor in literary reputation, comparing canonical male poets with the work of other men whose work like the women's was deemed inferior at the time. The book also features an appendix of significant poems by Russian women discussed in the text. Some found in archival notebooks are published here for the first time, and others are reprinted for the first time since the mid-nineteenth century.

The Moscow Uprising of December, 1905 Joseph L. Sanders, 2017-02-17

This book, originally published in 1987, focuses on the factors which contributed to the Moscow uprising of December 1905 by comprehensively surveying a vast field of both Russian and English language literature on the subject. In order to explain why the uprising occurred in Moscow when it did, the author discusses the contributions of the Bolsheviks, the Mensheviks, the Soviet Revolutionaries, and the government, concluding that the

uprising happened at that time because the parties were committed to it and agitated for it and the local government in Moscow was not in control of the situation **Monthly List of Russian Accessions** Library of Congress. When Art Makes News Katia Dianina,2012-11-15 From the time the word kul tura entered the Russian language in the early nineteenth century Russian arts and letters have thrived on controversy At any given time several versions of culture have coexisted in the Russian public sphere The question of what makes something or someone distinctly Russian was at the core of cultural debates in nineteenth century Russia and continues to preoccupy Russian society to the present day When Art Makes News examines the development of a public discourse on national self representation in nineteenth century Russia as it was styled by the visual arts and popular journalism Katia Dianina tells the story of the missing link between high art and public culture revealing that art became the talk of the nation in the second half of the nineteenth century in the pages of mass circulation press At the heart of Dianina s study is a paradox how did culture become the national idea in a country where few were educated enough to appreciate it Dianina questions the traditional assumptions that culture in tsarist Russia was built primarily from the top down and classical literature alone was responsible for imagining the national community When Art Makes News will appeal to all those interested in Russian culture as well as scholars and students in museum and exhibition studies *Monthly Index of Russian Accessions* Library of Congress.
