Environmental Discourse And Practice:

Environmental Discourse and Practice Lisa M. Benton, John Rennie Short, 1999-06-18 This book brings together a set of readings that throw light on the relationship between people and the environment Provides both historical background and an analysis of key debates and theories Based on tried and tested classroom teaching material Uses the idea of environmental discourses to explain human environmental relationships

Environmental Discourses in Public and International Law Brad Jessup, Kim Rubenstein, 2012-02-02 How do dominant views and arguments about environmental problems traverse and connect international and public law

Teaching for EcoJustice Rita J. Turner, 2015-05-22 Teaching for EcoJustice is a unique resource for exploring the social roots of environmental problems in humanities based educational settings and a curriculum guidebook for putting EcoJustice Education into practice It provides model curriculum materials that apply the principles of EcoJustice Education giving pre and in service teachers the ability to review examples of specific secondary and post secondary classroom assignments lessons discussion prompts and strategies that encourage students to think critically about how modern problems of sustainability and environmental destruction have developed their root causes and how they can be addressed The author describes instructional methods she uses when teaching each lesson and shares insights from evaluations of the materials in her classroom and by other teachers Interspersed between lessons is commentary about the rationale behind the materials and observations about their effect on students

The Politics of Environmental Discourse Maarten A. Hajer, 1995-12-14 Dr Hajer's path breaking study opens the way for a better understanding of the environmental conflict showing how language can be seen to shape our view of what environmental politics is really about and how those perceptions can differ between countries The author identifies the emergence and increasing political importance of ecological modernization as a new concept in the language of environmental politics This concept which has come to replace the antagonistic debates of the 1970s stresses the opportunities of environmental policy for modernizing the economy and stimulating the technological innovation Combining abstract social theory with detailed empirical analysis Martin Hajer illustrates the social and political dynamics of ecological modernization in a detailed analysis of the acid rain controversies in Great Britain and the Netherlands He concludes by reflecting on the institutional challenge of the environmental politics in the years to come

Ecology of Utopia Maria Ann Reed, 2021 This dissertation reveals connections between social reform and environmental thought and practice and considers the meaning of getting back to nature to radical reformers in the antebellum United States It examines the circulation of environmental ideas and practices through a broad network of communities that connected political social and religious reform movements during the communitarian moment of the 1840s I argue that members of communal settlements many inspired by French social thinker Charles Fourier others known as Universal Reformers contributed in nuanced and under examined ways to nineteenth century environmental and agricultural discourse in the United States Antebellum communitarians became investigators

experimenters and scientists engaged in a project of articulating and adhering to natural laws As they pursued authentic transformative means of social and personal reform members of intentional communities across New England and the Old Northwest produced new forms of social and scientific authority as they grappled with the meaning of natural Through novel beliefs and practices of labor diet hygiene agriculture marriage and religion their experiments in community were experiments in living with a new orientation to the natural world This work engages both environmental scholars and historians of the nineteenth century United States to tell a new story of antebellum reform and to explore new dimensions of nineteenth century environmental thought and practice It builds upon recent scholarship that unsettles core assumptions about nineteenth century attitudes toward and treatment of the environment and reconsiders the possible futures that were available to Americans before the Civil War

Multimodality in Practice Sigrid Norris, 2012-05-22 In this wide ranging collection contributors present examples of multimodal discourse analysis in practice The book illustrates new theoretical methodological and empirical research into new technologies such as the internet software CD ROM video and older technologies such as film newspapers brands or billboards Each chapter demonstrates how aspects of multimodal theory and method can be used to conduct research into these and other multimodal texts

Environmental Discourse Necdet Teymur, 1982

Environmental Management Geoff A. Wilson, Raymond L. Bryant, 2021-07-06 First published in 1997 An introductory text on environmental management with a global coverage including attention paid to the Third World The perspective of the book is geographical and the treatment draws on the broad and complementary experience of the two authors

Handbook on China's Urban Environmental Governance Fangzhu Zhang, Fulong Wu, 2023-11-03 This Handbook addresses how Chinese cities govern environmental changes generated by fast economic growth and urbanisation With in depth case studies on governing waste management climate change and energy transition it will illuminate the relationship between the state market and society in environmental governance

Routing Borders Between Territories, Discourses and Practices H. Van Houtum, Eiki Berg, 2018-10-24 This title was first published in 2003 This multi disciplinary reading focuses on the latent meaningful and contextual strategies that are often implied and included in bordering processes It demonstrates that the border as a concept is not so much an object but rather an ongoing process The book also consciously and provocatively balances the modernist trap of universalism exclusive ordering and state centrism and the postmodernist trap of moral nihilism Leading specialists in their fields provide illustrative case studies from Europe and Asia making a major contribution to border studies

Environmental Dilemmas Robert Mugerauer, Lynne Manzo, 2008-01-01 *Environmental Dilemmas* focuses on the ethical problems and dilemmas that emerge in place based professional practices_ architecture landscape architecture planning engineering and construction management Mugerauer and Manzo connect decision making to major ethical theories principles and rules and professional codes of ethics

Seeking Environmental Justice Sarah Wilks, 2008 Based on presentations made at the conference entitled Environmental Justice and

Global Citizenship held in July 2006 at Oxford UK 14 papers consider environmental concerns against their social contexts Contributors address theories in environmental management as they pertain to society and to orientations in perverse ecologies the framework of sustainability including voluntary agreements and incentives class and conflict in environmental governance including the uses of effective conflict information management including the public debate on genetic modification and the differences between experts and laymen environmental activism education including environmental education in a course on ethics and international development and the effects of free trade corporate capitalism and empowerment of professionals on sustainability and international environmental law

Mapping Environmental Risk and Energy Communication Barbara George, 2024-10-15 As the rise of the Anthropocene has led to serious deliberation about how energy is best produced and distributed in a world pressured by both the depletion of natural resources and global climate change advances in technology have enabled new systems of extracting energy like High Volume Hydraulic Fracturing HVHF commonly known as fracking that complicate these discussions In this book Barbara George explores how citizens impacted by HVHF tell stories about environmental risks the conflict they experience in attempting to articulate these risks and the hope for a post carbon future in which HVHF is banned Deep ideologies linked to history coal and industry permeate areas like the Rust Belt and Appalachia and George argues create frames that encourage and advocate for HVHF and make it difficult for publics in these locales to find a platform to tell their stories in a meaningful way This book offers a case study of three communities in the United States New York Pennsylvania and Ohio and how each community frames HVHF environmental and health risks differently based on their differing sociocultural histories Scholars of communication environmental studies history and sociology may find this book of particular interest

Handbook of Critical Environmental Politics Pellizzoni, Luigi, Leonardi, Emanuele, Asara, Viviana, 2022-10-20 This timely Handbook offers a comprehensive outlook on global environmental politics providing readers with an up to date view of a field of ever increasing academic and public significance Its critical perspective interrogates what is taken for granted in current institutions and social and power relations highlighting the issues preventing meaningful change in the relationship between human societies and their biophysical underpinnings This title contains one or more Open Access chapters

A Companion to Political Geography John A. Agnew, Katharyne Mitchell, Gerard Toal, 2008-04-15 A Companion to Political Geography presents students and researchers with a substantial survey of this active and vibrant field Introduces the best thinking in contemporary political geography Contributions written by scholars whose work has helped to shape the discipline Includes work at the cutting edge of the field Covers the latest theoretical developments

Researching Education and the Environment Alan Reid, William Scott, 2007-10-25 Previously published as a special issue of Environmental Education Research this collection includes some of the most influential and important articles contributed to the field over the last decade Drawing out the best articles from volumes one to ten the editors highlight six major themes EE and ESD tension or

transition locating the environ Screening Nature Anat Pick,Guinevere Narraway,2013-11-01 Environmentalism and ecology are areas of rapid growth in academia and society at large Screening Nature is the first comprehensive work that groups together the wide range of concerns in the field of cinema and the environment and what could be termed posthuman cinema It comprises key readings that highlight the centrality of nature and nonhuman animals to the cinematic medium and to the language and institution of film The book offers a fresh and timely intervention into contemporary film theory through a focus on the nonhuman environment as principal register in many filmic texts Screening Nature offers an extensive resource for teachers undergraduate students and more advanced scholars on the intersections between the natural world and the worlds of film It emphasizes the cross cultural and geographically diverse relevance of the topic of cinema ecology

Emissions Trading Schemes Sanja Bogojevic,2013-07-04 Over the last four decades emissions trading has enjoyed a high profile in environmental law scholarship and in environmental law and policy Much of the discussion is promotional preferring emissions trading above other regulatory strategies without however engaging with legal complexities embedded in conceptualising scrutinising and managing emissions trading regimes The combined effect of these debates is to create a perception that emissions trading is a straightforward regulatory strategy imposable across various jurisdictions and environmental settings This book shows that this view is problematic for at least two reasons First emissions trading responds to distinct environmental and non environmental goals including creating profit centres substituting bureaucratic control of resources and ensuring regulatory compliance This is important as the particular purpose entrusted to a given emissions trading regime has as its corollary a particular governance structure according to which the regime may be constructed and managed and which trusts the emissions market the state and rights in emissions allowances with distinct roles Second the governance structures of emissions trading regimes are culture specific which is a significant reminder of the importance of law in understanding not only how emissions trading schemes function but also what meaning is given to them as regulatory strategies This is shown by deconstructing emissions trading discourses that is by inquiring into the assumptions about emissions trading as featuring in emissions trading scholarship and in debates involving law and policymakers and the judiciary at the EU level Ultimately this book makes a strong argument for reconfiguring the common understanding of emissions trading schemes as regulatory strategies and sets out a framework for analysis to sustain that reconfiguration

Proceedings of the 3rd International Conference: Quantitative and Qualitative Methodologies in the Economic & Administrative Sciences (QMEAS 2013) Christos Frangos, Conflict and Change in Australia's Peri-Urban Landscapes Melissa Kennedy,Andrew Butt,Marco Amati,2016-03-22 In an era of rapid urbanization peri urban areas are emerging as the fastest growing regions in many countries Generally considered as the space extending one hundred kilometres from the city fringe peri urban areas are contested and subject to a wide range of uses such as residential development productive farming water catchments forestry mineral and stone extraction and tourism and

recreation Whilst the peri urban space is valued for offering a unique ambiance and lifestyle it is often highly vulnerable to bushfire and loss of biodiversity and vegetation along with threats to farming and food security in highly productive areas Drawing together leading researchers and practitioners this volume provides an interdisciplinary contribution to our knowledge and understanding of how peri urban areas are being shaped in Australia through a focus on four overarching themes Peri urban Conceptualizations Governance and Planning Land Use and Food Production and Solutions and Representations Whilst the case studies focus on Australia they advance a variety of tools useful in discerning processes and impacts of peri urban change globally Furthermore the findings are instructive of the issues and tensions commonly encountered in rapidly urbanizing peri urban areas throughout the world from landscape valuation and biosecurity concerns to functional adaptation and social change

If you ally dependence such a referred **Environmental Discourse And Practice** books that will find the money for you worth, acquire the extremely best seller from us currently from several preferred authors. If you want to hilarious books, lots of novels, tale, jokes, and more fictions collections are after that launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all books collections Environmental Discourse And Practice that we will no question offer. It is not in the region of the costs. Its practically what you habit currently. This Environmental Discourse And Practice, as one of the most involved sellers here will no question be in the course of the best options to review.
