Mining Environmental Policy Michael S. Hamilton, 2017-11-30 Illustrated by a detailed comparative examination of mining regulations and environmental impact assessment EIA in the USA the second largest producer of coal in the world and Indonesia the eighth largest and most rapidly growing this book argues that the degree of policy integration often determines the success or failure in controlling environmental effects of mining operations Comparison of surface mining regulation in the two countries provides some stark contrasts some surprising results concerning the diffusion of policy innovations from one country to another and instances of both policy success and failure The book provides significant new insights into international relations and comparative environmental policy particularly as

they affect rainforests and biodiversity It also suggests that if mining environmental policy were to be effectively implemented the environmental degradation caused need not be permanent
