Biogeochemistry is a comparatively recently developed science that incorporates scientific knowledge and findings, research methodologies and models linking the biological, chemical and earth sciences. Therefore, while it is a definitive science with a strong theoretical core, it is also dynamically and broadly interlinked with other sciences. This book examines the complex science of biogeochemistry from a novel perspective, examining its comparatively recent development while also emphasizing its interlinked relationship with the earth sciences, including the complementary science of geochemistry, the geographical sciences, biogeography, oceanography, geomatics, earth systems science, the biological sciences, ecology, wildlife studies, biological aspects of environmental sciences and the chemical sciences, including environmental chemistry and pollution. The book covers cutting edge topics on the science of biogeochemistry, examining its development, structure, interdisciplinary, multidisciplinary and transdisciplinary relations and the future of the current complex knowledge systems, especially in the context of technological developments and the computer and data fields. Essentials of Oceanography Harold V. & Trujillo Thurman (Alan P.), Thurman, 2001-10-01 **Marine Chemical Monitoring** Philippe Quevauviller, 2016-01-07 Combining laboratory experience with research and policy developments, this book provides an insight into the historical background of marine monitoring, its regulatory frameworks and science policy interactions. With experience in the European Commission, the author draws from practical experience in research and policy implementation to present a concise review of marine monitoring on an international level. The author deals with monitoring and related QA/QC principles, focusing on monitoring types while describing general features of analytical methods used in marine monitoring. The book concludes with a discussion about how to achieve metrology principles: measurement traceability in marine monitoring.
