international institutions as a visiting lecturer Roy C Wood is based in the Oberoi Centre of Learning and Development India

**Environmental Management for Hotels** International Hotels Environment Initiative, 1996 This unique manual has been updated to include the latest ideas in environmental management practice in the international hotel industry Sebastian MacMillan an expert in environmental issues has revised the manual on behalf of the International Hotels Environment Initiative Sponsored by Diversy Corporation Environmental Management for Hotels brings together the considerable experience and expertise of a substantial part of the global hotel business It is the first manual of its kind and demonstrates the commitment of key hotels groups to implementing good environmental practice as well as encouraging others to do the same New sections include implementing an environmental policy managing an audit of performance Environmental Management for Hotels is written in an accessible style with mini cases and checklists featured throughout and it is presented as a looseleaf ringbinder Additional information has been included on laundry and cleaning in response to readers feedback It can be used as a blueprint for developing an environmental policy or improving on one already in place

*Environmental Management for Hotels* Jennifer Raga, 2017-11 In recent times Environmental Management has gained immense importance in various industries from the hospitality industry to several small sector industries Application of environmental management has been on a rise in hospitality industry in particular Hospitality industry contributes significantly to the GDP of a country which is why it becomes essential to implement sustainability practices in its operations Due to the growing need of environmental management in hotels and restaurants there is an urgent requirement to educate staff members and guests as well about sustainability initiatives This book teaches the readers about the ways in which they can implement the sustainability practices Various dimensions related to environmental management in hotels and restaurants are covered in different chapters of this book Tourism its features and various other aspects form the idea and content of the first two chapters which includes destination management as it is an important aspect of tourism management and much of environmental concerns are also associated with destination management There is a complete chapter devoted to the need for environmental management in hotels and restaurants In addition this book discusses about the current trends which are prevailing in hotels and restaurants Future trends which are a possibility in this industry are also described One chapter entirely talks about the ways in which resources can be managed sustainably in hotels It emphasizes on how workshops can be organized to educate the staff members and guests about the management of natural resources Another chapter is entirely dedicated to consumption of energy in hotels and restaurants The book also sheds light on the various methods of waste management in hospitality industry Furthermore environmental management starts with the responsible procurement of resources Purchasing goods and services which do not harm the environment should be the first priority for hotels and restaurants The chapter dedicated to purchasing policies also talks about the best practices which can be implemented to ensure effective environmental management There is another chapter which completely talks about the need

of guest participation in this environmental drive Currently many hotels are implementing sustainability practices in their operations which makes these hotels Green Hotels Importance of Green hotels and challenges faced in their implementation are also focused upon The book also talks about the certification and regulatory bodies which are created to monitor the practices of different hotels and restaurants Guests and their attitudes towards the sustainability practices are discussed briefly This book gives a glimpse regarding the practices of hotels and restaurants which are causing major damage to the environment This book intends to teach readers about the needs and methods of environmental management in hotels

**An Operational Environmental Management Guideline for the Hospitality Industry According to ISO 14000** Gertruida Catharina Hanekom,2013 Increasing environmental awareness and an acceptance of accountability by the public and by businesses internationally and locally could motivate organisations to adopt Environmental Management as part of their operations The new direction the tourism and related industries are obliged to follow in accordance with new government initiatives will require responsibility in terms of the environment management of the impacts these activities have on the environment and a commitment to the philosophy of sustainable development Even though international standards and benchmarks for Environmental Management exist for the hotel industry standards and guidelines do not yet exist for the South African environment Furthermore guidelines for an Environmental Management System in accordance with ISO 14001 have not yet been drafted for this industry either internationally or locally The aim of this study is to compile a guideline document for the implementation of Operational Environmental Management in accordance with the requirements of an ISO 14001 Environmental Management System Three South African hotels belonging to a local group of hotels but with international exposure were researched as case studies to establish the impacts hotels may have on the environment Literature on Environmental Management was studied to extract the requirements for Environmental Management and combined with the requirements for the establishment of an Environmental Management System as prescribed by ISO 14001 The research confirmed that hotel activities facilities and services impact on the environment Environmental Management procedures previously documented for hotels have not been incorporated into an ISO 14001 Environmental Management System The study successfully combined Environmental Management procedures for the environmental impacts identified for hotel activities facilities and services with the procedures of establishing an ISO 14001 Environmental Management System In summary hotels have activities facilities and services that impact significantly on the environment but these significant impacts are site specific Detailed site specific assessments should be undertaken when implementing this guideline for specific hotels to establish the significance of each of the environmental impacts in relation to the site that is studied Further studies should adapt this guideline document to the different accommodation types offered in the hospitality industry to ensure that an ISO 14000 Environmental Management System can be implemented at each of these accommodation types
