Environmental Problems Of East Central Europe:

Environmental Problems in East-Central Europe Frank Carter, David Turnock, 2002-09-26 In this new edition the progress made in the last decade to solve the environmental problems described in the first edition is assessed The attempts to bring environmental legislation into line with West European norms is also described Environmental Problems of East Central Europe looks at air and water pollution modern farming water supplies waste management and landscape protection These topics are placed within economic social and political profiles as spending on a clean environment must be reconciled with welfare spending and the safeguarding of jobs European Union assistance civil society and the work of environmental NGOs are also discussed All of these matters are considered within the context of the wider geographical area and then by each individual country including the previously communist states lying to the west of the Soviet Union now with the former federal states of Czechoslovakia and Yugoslavia broken up into seven different entities and a review of the former Soviet Union with particular reference to the Baltic States Environmental Problems in East Central Europe provides a wealth of up to date reference material with a vast amount of supporting literature on environmental conditions and the functioning of civil society and a map of each country The environment is being taken seriously by them all such is the influence of the Rio sustainability agenda in general and the EU environmental acquis in particular The book reveals that Eastern Europe is not a blighted area but in some respects has a higher biodiversity than Western Europe Although there is enormous waste and inefficiency in energy use people actually consume relatively little and the East therefore has some lessons for the West in terms of managing on the basis of fair share of the earth's resources *Environmental Problems in Eastern Europe* Francis W. Carter, David Turnock, 1996 Providing a comprehensive descriptive analysis of a wide range of Central and East European countries this updated paperback edition offers an invaluable study of pollution problems and effects on the quality of life Revisions include new chapter on Slovakia demonstrating the implementation of a number of practical measures which have made a considerable impact on environmental problems that arose under communism and have been tackled during the transition new concluding chapter which provides an important overview of recent developments in Eastern Europe and discusses topical issues such as health hazards and methods of charging polluters for environmental damage

Environmental problems in Eastern Europe F. W. Carter, David Turnock, 1993 **Dilemmas of Transition** Susan Baker, Petr Jehlička, 1998 This volume examines the idea of civil society in its historical and contemporary dimensions It provides a comprehensive and critical mapping of the idea the burden of expectation that it has carried and the intellectual and political dimensions that surround it *Environmental Protection in East-Central Europe* Peter Hardi, Werner Weidenfeld, 1994 **The Human Geography of East Central Europe** David Turnock, 2003-10-04 This book examines the geography of the transition economies that were not formerly part of the Soviet Union The main themes of the transition from communism to market capitalism are outlined and variations discussed **East Central Europe and the former**

Soviet Union Michael Bradshaw, Alison Stenning, 2016-04-15 A comprehensive introduction to the important economic social and political processes and development issues in this increasingly popular area of study Employing a groundbreaking thematic approach the book centres its discussion on the interrelation between contemporary development theories and continuing transition issues in this huge and complex region

Environmental Transitions Petr Pavlínek, John Pickles, 2000 Environmental Transitions is a detailed and comprehensive account of the environmental changes in Central and Eastern Europe both during and after state socialism The book illustrates how transformations after 1989 have brought major environmental improvements as well as new environmental problems Environmental Transitions contains detailed case studies from the region including an historical geographical analysis of the environmental change L health impacts of environmental degradation the role of environmental issues during the anti communist revolutions legislative reform the effects of transition on environmental quality after 1989

Foreign Direct Investment and Regional Development in East Central Europe and the Former Soviet Union David Turnock, 2017-11-28 With the achievement of further EU and NATO enlargement a critical political and economic lens is now focused on East Central Europe and to a lesser extent the other former communist states Economic growth in each transition state and more broadly the region pivots around the prospects for foreign direct investment FDI with decisions on where foreign investors will locate their projects now vitally important This book the first one devoted to a geographical survey concentrating specifically on FDI in the region brings together a wide range of prominent authors from the US and Europe including the late Frank Carter to provide a timely and critical examination of the importance of foreign investment It presents a detailed analysis of location patterns and their significance for regional development with particular emphasis given to the important socioeconomic and political consequences of uneven distribution of FDI across the region and its constituent countries Divided into two parts the book first deals with general overarching themes and issues before applying these to more specific country case studies The second part deals with regional studies focusing broadly on the Western Balkans and Bulgaria before looking at specific economic sectors in individual countries

The Economics of Transition Ichiro Iwasaki, 2020-04-28 In the last three decades since the fall of the Berlin Wall there has been a vast amount of study looking at transforming the planned economy to a market economy from both theoretical and empirical aspects This book provides an overview and insight into transition economies in the recent decades and looks at key economics topics from the so called transition strategy debate to environmental reform The book also includes an analytical review and meta analysis of the existing literature By integrating theoretical discussions and synthesizing empirical findings in a systematic manner this book may help to enlighten the debate on the timing speed and policy sequence of economic transition The book will particularly appeal to researchers policy makers other practitioners and under and post graduate students who are interested in transition economies in Eastern Europe the former Soviet Union Southeast Asia and China It aims to be read as an advanced reader

Environmental Cooperation In Europe Otmar

Holl,2019-04-11 This book aims to take stock of the state of environmental degradation in Europe from theoretical and empirical point of views It focuses on international organizations and institutions in Europe that deal with ecological problems and integrates case studies on regional environmental cooperation *Socioeconomic and Environmental Impacts on Agriculture in the New Europe* Serban Scrieciu,2011-03-13 This book looks at agriculture and the environment placed within the dynamic context of post communist societal change and entry into the European Union EU Scrieciu explores developments in eleven Central and Eastern European CEE countries and argues for agriculture s natural place in these societies The history of these countries is significant in how it has shaped the institutions and influenced the outcomes In many cases during communism agriculture was not considered a strategically An ecological consciousness did not figure high on the agendas of authoritarian regimes After 1990 some post communist farm economies progressed slower than others and environmental pressures mostly diminished with agricultural restructuring In parts of CEE increases in numbers of low input small farms have resulted in some though largely unintended ecological benefits A dual environmental challenge has nevertheless surfaced On one hand environmentally unsustainable practices have been attributed to some low input farming On the other hand risks of farm over intensification and resource overexploitation are on the rise Also environmental regulatory and institutional frameworks are not always effectively in place EU membership is not creating the anticipated benefits for farm growth There are a number of systemic structural barriers preventing many farmers from drawing on Common Agricultural Policy incentives and support The presence of many vulnerable poor farms is clearly problematic particularly economically However small scale farms could be made more acceptable and profitable by ensuring EU policies acknowledge their value and by building institutions to support alternative farm growth strategies aside from the traditional European model of individual corporate farm expansion The voluntary uptake of grassroots rural cooperation and farm associations may represent such an alternative Future European farm policy reforms need to reach the small and vulnerable and better tackle issues of farm equity poverty and agricultural sustainability in the new Europe This is a timely contribution as this type of transition has just begun This book should be of use to students and researchers looking at agricultural and environmental economics post communist rural societal change European integration and the Common Agricultural Policy

Sustainable Development and Governance in Europe Pamela M. Barnes, Thomas C. Hoerber, 2013-06-26 This book analyses the evolution of the sustainability discourse in the European Union exploring the conditions necessary for sustainable development to move from a conceptual model into a model for action for strategic decision makers at all levels of governance This book questions the extent to which the discourse on sustainability has become embedded into governance structures in Europe It focuses on the importance of the nature of the language of the political discourse on sustainability and how ideas are communicated amongst the actors and stakeholders in the policy making process as well as assessing the conceptual political institutional and operational barriers apparent across the European geographic region Drawing case studies from numerous policy areas including climate change EU emissions trading scheme renewable energy nuclear energy the European integrated energy market transport mobility and environmental protection expert contributors unveil a narrowing of the discourse on sustainability that has taken place in Europe However a considerable discontinuity remains between the economic and environmental objectives of sustainable development and the authors argue that it is essential that conditions for a dynamic discourse open to multiple participants are developed Sustainable Development and Governance in Europe will be of strong interest to students and scholars of comparative politics governance sustainable development and environmental politics and studies

Technology and the Environment in State-Socialist Hungary Viktor Pál, 2017-09-15 This book explains how and why the state socialist regime in Hungary used technology and propaganda to foster industrialization and the conservation of natural resources simultaneously Further this book explains why this process was ultimately a failure By exploring the environmental pre history of communist Hungary before analyzing the economic development of the K d r regime P l investigates how economic and environmental policies and technology transfer were negotiated between the official communist ideology and the global economic reality of capitalist markets P l argues that the modernization project of the K d r regime 1956 1990 facilitated ecological consciousness at both an individual and societal level which provoked great social unrest when positive environmental impact was not achieved Today global issues of climate change urban pollution resource depletion and overpopulation transcend political systems but economic and environmental discourses varied greatly in the twentieth century This volume is important reading for all those interested in economic and environmental history as well as political science

Coping with Accession to the European Union T. Börzel, 2015-12-11 The book explores the role of new modes of governance in helping future member states to cope

with their accession to the EU It examines the extent to which civil society and business have assisted the governments of Southern Central and Eastern European accession countries in taking on the ever more comprehensive body of EU laws and regulations **European Environmental Law** Suzanne Kingston,Veerle Heyvaert,Aleksandra Čavoški,2017-07-20 A critical and contextual overview of European environmental law examining today s key environmental challenges alongside traditional topics **Foreign Assistance Legislation for Fiscal Years 1992-93** United States.
