Environmental Justice Creating Equity Reclaiming Democracy:

Environmental Justice Kristin Shrader-Frechette, 2002-09-26 Shrader Frechette offers a rigorous philosophical discussion of environmental justice Explaining fundamental ethical concepts such as equality property rights procedural justice free informed consent intergenerational equity and just compensation and then bringing them to bear on real world social issues she shows how many of these core concepts have been compromised for a large segment of the global population among them Appalachians African Americans workers in hazardous jobs and indigenous people in developing nations She argues that burdens like pollution and resource depletion need to be apportioned more equally and that there are compelling ethical grounds for remedying our environmental problems She also argues that those affected by environmental problems must be included in the process of remedying those problems that all citizens have a duty to engage in activism on behalf of Environmental Justice and that in a democracy it is the people not the government that are ultimately responsible for fair use of the environment *Environmental Justice* Shrader-Frechette, Kristin Sharon Shrader-Frechette, 2002

Environmental Justice Kristin Sharon Shrader-Frechette, 2006 Explaining fundamental ethical concepts such as equality property rights procedural justice free informed consent intergeneration equality just compensation and moral heroism and then bringing them to bear on real world social issues Shrader Frechette shows how many of these core concepts have been compromised for a large segment of the global population among them Appalachians African Americans workers in hazardous jobs and indigenous people living in developing nations She argues that there are strong and compelling grounds for remedying our environmental problems and that burdens like pollution and resource depletion need to be apportioned more equally She also argues vehemently that not only do we have strong ethical grounds for remedying environmental problems but that these remedies need to involve the participation of those affected that all citizens have a duty to engage in activism an behalf of Environmental Justice and that in a democracy it is the people not the government that are ultimately and truly responsible for equitable and fair use of the environment Combining rigorous philosophical scholarship with a deep knowledge of actual problems in the environment and among the disenfranchised Environmental Justice is a new look at an old problem and will encourage debate among those concerned with both social and environmental justice *Environmental Justice* Kristin Shrader-Frechette, 2002-09-26 Shrader Frechette offers a rigorous philosophical discussion of environmental justice Explaining fundamental ethical concepts such as equality property rights procedural justice free informed consent intergenerational equity and just compensation and then bringing them to bear on real world social issues she shows how many of these core concepts have been compromised for a large segment of the global population among them Appalachians African Americans workers in hazardous jobs and indigenous people in developing nations She argues that burdens like pollution and resource depletion need to be apportioned more equally and that there are compelling ethical grounds for remedying our environmental problems She also argues that those affected by

environmental problems must be included in the process of remedying those problems that all citizens have a duty to engage in activism on behalf of Environmental Justice and that in a democracy it is the people not the government that are ultimately responsible for fair use of the environment **Environmental Justice** Pamela Hill, 2025-10-03 Environmental justice is an important idea in the larger context of environmental protection It has gained importance globally the UN governments and nongovernmental organizations now regularly address it Environmental justice concerns the unfair treatment of underserved and disenfranchised people It challenges all of us to acknowledge the responsibilities of affluent populations and developed countries to correct the environmental harms such as disproportionate industrial pollution and rising seas from climate change that they have unwittingly or not inflicted on those who are less powerful Relying on the latest scholarship and highlighting relevant events this book provides readers with the foundational knowledge of environmental justice what it is and its causes as well as governmental and international responses to it **Managing Environmental Justice** Dennis

Pavlich, 2010 Environmental justice is the subtext of this collection of anxieties around the need for a sustainable future on Planet Earth Thinkers and scholars from a diversity of backgrounds reflect on what it means and how cultures must change to greet this future From Romania to Mexico Bosnia to Canada Sweden to California authors analyze and recount community experiences and expectations leading to justice for land sea air and wildlife The kind of ethical weltanschauung for a society in which this kind of justice is achievable is suggested The collection points to the myriad of single instance decisions that we must all make in living our daily lives whether in our homes workplaces or leisure time From good policies to sound management governments corporations and community based organizations will find prudent praxis from cover to cover

Benefit-sharing in Environmental Governance Louisa Parks, 2019-11-20 Taking a bottom up perspective this book explores local framings of a wide range of issues related to benefit sharing a growing concept in global environmental governance Benefit sharing in Environmental Governance draws on original case studies from South Africa Namibia Greece Argentina and Malaysia to shed light on what benefit sharing looks like from the local viewpoint These local level case studies move away from the idea of benefit sharing as defined by a single international organization or treaty Rather they reflect different situations where benefit sharing has been considered including agriculture access to land and plants wildlife management and extractives industries Common themes in the experiences of local communities form the basis for an exploration of spaces for local voices at the international level in the Convention on Biological Diversity CBD often argued to be the most open arena to non state actors and therefore vital to how local voices may be included at the global level The book analyzes the decisions of the CBD parties to produce an in depth reflection on how this arena builds and delimits spaces for the expression of local community themes and paths for local community participation including community protocols The book then situates the bottom up findings in the wider debate about global civil society and deliberative democracy in environmental governance This interdisciplinary book will be of great interest to students and scholars of environmental

politics environmental law political ecology and global governance as well as practitioners and policymakers involved in multilateral environmental agreements *The Oxford Handbook of Public Health Ethics* Anna C. Mastroianni, Jeffrey P. Kahn, Nancy E. Kass, 2019 Public health raises critical ethics issues and concerns making public health ethics an essential topic for students and public health professionals The 73 chapters in this volume examine public health ethics across a broad range of public health topics both in the U S and globally It is the first ever comprehensive collection devoted to public health ethics

Environment, Power, and Justice Graeme Wynn, Jane Carruthers, Nancy J. Jacobs, 2022-07-26 Spanning the colonial postcolonial and postapartheid eras these historical and locally specific case studies analyze and engage vernacular activist and scholarly efforts to mitigate social environmental inequity This book highlights the ways poor and vulnerable people in South Africa Lesotho and Zimbabwe have mobilized against the structural and political forces that deny them a healthy and sustainable environment Spanning the colonial postcolonial and postapartheid eras these studies engage vernacular activist and scholarly efforts to mitigate social environmental inequity Some chapters track the genealogies of contemporary activism while others introduce positions actors and thinkers not previously identified with environmental justice Addressing health economic opportunity agricultural policy and food security the chapters in this book explore a range of issues and ways of thinking about harm to people and their ecologies Because environmental justice is often understood as a contemporary phenomenon framed around North American examples these fresh case studies will enrich both southern African history and global environmental studies Environment Power and Justice expands conceptions of environmental justice and reveals discourses and dynamics that advance both scholarship and social change Contributors Christopher Konz Marc Epprecht Mary Galvin Sarah Ives Admire Mseba Muchaparara Musemwa Matthew A Schnurr Cherryl Walker

Justice Unbound Patrizia Longo, 2018-12-17 This important anthology provides students and teachers with voices of social and global justice that have been marginalized or forgotten by history It gives thought leaders from the Global South a platform and engages the voices of oppressed communities including Charles Mills and Franz Fanon and Ella Baker This text is a comprehensive analysis of modern and contemporary theories of justice Since the publication in 1971 of John Rawls's *A Theory of Justice* there has been much debate on his views from both the right and the left of the political spectrum But there is a lack of textbooks that provide not only a compilation of substantial selections on challenges to Rawls's theory from feminist and postcolonial scholars but that also include writings by non white and non Western authors on different aspects of justice This book fills this huge gap and brings together many influential writings on the topic of justice that are often omitted in philosophy and political theory collections This work addresses complex issues in an increasingly diverse society

Lessons from environmental and social sustainability certification standards for equitable REDD+ benefit-sharing mechanisms Januarti Sinarra Tjajadi, Anastasia Lucy Yang, Daisuke Naito, Shintia Dian Arwida, 2015-05-19

Climate Litigation and Justice in Africa Kim Bouwer, Uzuazo Etemire, Tracy-Lynn Field, Ademola Oluborode

Jegede, 2024-01-25 EPDF and EPUB available Open Access under CC BY NC ND licence This volume brings together an international team of contributors to provide a much needed examination of climate litigation in Africa The book outlines how climate litigation in Africa is distinct as well as pinpointing where it connects with the global conversation Chapters engage with crucial themes such as human rights approaches to climate governance corporate liability and the role of gender in climate litigation Rural Economic Developments and Social Movements Rita Vilké, Dalia Vidickienė, Živilė Gedminaitė-Raudonė, Vitalija Simonaitytė, Erika Ribašauskienė, 2021-05-15 Focusing on the demands of the new innovative sustainable and inclusive rural development paradigm the monograph raises the discussion regarding new approaches and success factors that are vital in current rural socio economic development and policy transformations The bottom up policymaking self organization creative use of knowledge in rural areas and many other rural innovations are aligned in this book with new social movements theories which help disclose explore and explain the rural development paradigm shift Rural development forces of the 21st century center on the agents of change rural population and surprisingly urban population and the political debate concerning EU Common Agricultural Policy and European Green Deal illustrated with multiple case studies This book will be of interest to a broad audience of readers keen on scientific political and practical issues of innovations in rural areas and their future development pathways The monograph is authored by a team of scholars from the Lithuanian Centre for Social Sciences Institute of Economics and Rural Development Department of Rural Development Law and Justice Review-22 Türkiye Adalet Akademisi, Law and Justice Review 22 *The Oxford Handbook of Water Politics and Policy* Ken Conca, Erika Weinthal, 2018 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online For more information please read the site FAQs The Globalization of Environmental Crisis Jan Oosthoek, Barry K. Gills, 2013-10-31 Previously published as a special issue of Globalizations this collection of essays addresses what is arguably the most pressing and urgent issue of our day the continuing development of global environmental crises and the need for new and urgent responses to them by the world community The contributors include social scientists environmental historians anthropologists and science policy researchers and together they give an overview of the history of the globalization of environmental crisis over the past several decades both in terms of the science of measurement and the types of policy and public responses that have emerged to date The specific issue areas addressed in the book cover a wide range of topics including international environmental governance North South inequalities climate change global warming tropical forests air pollution economic and paradigm shifts sustainability indigenous peoples and eco conservation EU environmental policy the United States and politicized climate science and more The Globalization of

Environmental Crisis will be of particular interest to all those concerned with the on going debate over the state of the global environment and what to do about it

The Routledge Handbook of Political Ecology Tom Perreault, Gavin Bridge, James McCarthy, 2015-06-12 The Routledge Handbook of Political Ecology presents a comprehensive and authoritative examination of the rapidly growing field of political ecology Located at the intersection of geography anthropology sociology and environmental history political ecology is one of the most vibrant and conceptually diverse fields of inquiry into nature society relations within the social sciences The Handbook serves as an essential guide to this rapidly evolving intellectual landscape With contributions from over 50 leading authors the Handbook presents a systematic overview of political ecology s origins practices and core concerns and aims to advance both ongoing and emerging debates While there are numerous edited volumes textbooks and monographs under the heading political ecology these have tended to be relatively narrow in scope either as collections of empirically based mostly case study research on a given theme or broad overviews of the field aimed at undergraduate audiences The Routledge Handbook of Political Ecology is the first systematic comprehensive overview of the field With authors from North and South America Europe Australia and elsewhere the Handbook of Political Ecology provides a state of the art examination of political ecology addresses ongoing and emerging debates in this rapidly evolving field and charts new agendas for research policy and activism The Routledge Handbook of Political Ecology introduces political ecology as an interdisciplinary academic field By presenting a state of the art examination of the field it will serve as an invaluable resource for students and scholars It not only critically reviews the key debates in the field but develops them The Handbook will serve as an excellent resource for graduate and advanced undergraduate teaching and is a key reference text for geographers anthropologists sociologists environmental historians and others working in and around political ecology

Industrial Policy for Resilience, Equity, and Sustainability Tzouvelekas, Manolis D., Zarotiadis, Grigorios, Varsakelis, Nikolaos, 2025-07-15 Transformation in industrial policy has become more popular as governments and institutions seek to address economic resilience and environmental sustainability In this era of global supply chain disruptions and escalating climate risks and changes industries plan to strategize a new way to shape inclusivity and sustainable economics This approach prioritizes strategic investments green innovation and equitable labor transitions aiming to build industries that are not only productive but also socially responsible and environmentally sound Industrial Policy for Resilience Equity and Sustainability explores the intersection of industrial policy and innovation This book explains the future directions of industrial policy in complex economies Covering topics such as community wellbeing national competitiveness and social inclusion this book is an excellent resource for academicians researchers policymakers business leaders and executives and more

Shipbreaking in Developing Countries Md Saiful Karim, 2017-12-06 This book explores the process of shipbreaking in developing countries with a particular focus on Bangladesh In the past shipbreaking the disposal of obsolete ships was a very common industrial activity in many developed

countries However due to stringent domestic environmental and labour laws it is almost impossible for the increasing number of vessels to be disposed of domestically and now developing nations including Bangladesh China India Turkey and Pakistan regularly participate in this activity The shipbreaking yards in these countries are not only detrimental to the marine and coastal environment but also represent significant health hazards to local people and workers Given the global importance of the issue an effective legal and institutional framework for a sustainable operation of the shipbreaking industry is desperately needed Sitting at the intersection of three distinct fields environmental justice international environmental law and international maritime law this book offers an innovative take on the issues surrounding the shipbreaking process Drawing on the case study of Bangladesh due to its prominence in the shipbreaking industry the author implements an environmental justice framework to examine the issues of sustainability surrounding shipbreaking and analyses the relationship between social development economic development and environmental protection Maritime perspectives of environmental justice will also be highlighted through a discussion of the International Maritime Organization s role in the implementation of the Hong Kong Convention in developing countries This book will be of great interest to scholars of environmental justice international maritime law and international environmental law Environmental Health Perspectives,1993
