Environmental Resource Guide 1997 Supplement

**ARCOM, The American Institute of
Architects**

Environmental Resource Guide 1997 Supplement:

Environmental Resource Guide, 1997 Supplement The American Institute of Architects, 1997-01-20 The ERG gives architects and others in the building industry a basis for comparing the environmental impact of building materials products and systems It provides a consistent format for assessing the environmental impacts of building materials from their original extraction and manufacture to their final disposal or reuse The ERG was launched by the AIA in 1992 with funding from the EPA to create a simplified methodology for assessing the environmental impact of building materials and as a vehicle for disseminating that information to the building community at large The AIA Press has brought in Wiley as a publishing partner to improve its content format packaging and marketing **Building Construction Illustrated** Francis D. K.

Ching, 2011-03-10 The classic visual guide to the basics of building construction now with the most current information For nearly three decades Building Construction Illustrated has offered an outstanding introduction to the principles of building construction This new edition of the revered classic remains as relevant as ever providing the latest information in Francis D K Ching's signature style Its rich and comprehensive approach clearly presents all of the basic concepts underlying building construction and equips readers with useful guidelines for approaching virtually any new materials or techniques they may encounter Laying out the material and structural choices available it provides a full understanding of how these choices affect a building's form and dimensions Complete with more than 1 000 illustrations the book moves through each of the key stages of the design process from site selection to building components mechanical systems and finishes Illustrated throughout with clear and accurate drawings that present the state of the art in construction processes and materials Updated and revised to include the latest knowledge on sustainability incorporation of building systems and use of new materials Archetypal drawings offer clear inspiration for designers and drafters Reflects the most current building codes and CSI Master Format numbering scheme With its comprehensive and lucid presentation of everything from foundations and floor systems to finish work Building Construction Illustrated Fourth Edition equips students and professionals in all areas of architecture and construction with useful guidelines for approaching virtually any new materials or techniques they may encounter in building planning design and construction *The Graphic Standards Guide to Architectural Finishes*

ARCOM, The American Institute of Architects, 2003-03-24 From ARCOM and The American Institute of Architects A complete visual guide to choosing and using finish materials In this unique guide the authors of MASTERSPEC and Architectural Graphic Standards join forces to offer architects vital single source access to the unbiased information they need to evaluate select and specify the best finish materials for any job This powerful visual resource combines hundreds of illustrations from Architectural Graphic Standards with corresponding building material performance and specification information from AIA's MASTERSPEC published by ARCOM Use this book during the schematic and design development phases of a project and as an indispensable aid for product selection and specification Essential for architects interior

designers and building designers this vital reference provides information to make informed decisions about specific design goals such as affordability environmental friendliness durability fire resistance and esthetic success Features include Unique source of independent in depth building product performance information the one source that gives you reliable building product information before you consult with manufacturers Covers a full range of standard finish materials and includes selection criteria details typical product sizes and installation and maintenance data Provides current standards based on research by government association and independent testing organizations as well as the input of experienced architects and specifiers Architectural Graphic Standards has served the design community for decades as a virtual bible for architectural detailing MASTERSPEC Evaluations have long comprised one of the best resources available for building product selection and specification Consolidating the strong points of both into this new desktop reference is an act of sheer brilliance Martin M Bloomenthal FAIA CCS CSI Principal The Hillier Group Princeton New Jersey
