EU Environmental Law and the Internal Market Nicolas de Sadeleer, 2014-01-09 For some a protectionist policy underlies most environmental measures Lawyers working in the area of fundamental freedoms are very accustomed to discussing all issues within a free market framework and therefore often come to market friendly decisions Similarly while environmental law has taken on a renewed intensity at European level the tendency has been to analyse the subject rather narrowly and studies fail to address the impact of environmental law on market integration Written by one of the foremost experts in the area the book challenges current thought and re assesses the rules of economic integration within an environmental framework In so doing it bridges the gap between environmental and trade law and provides a systematic robust and practically workable analytical framework of the conflicts opposing rapidly evolving environmental and climate change measures and internal market as well as competition rules The book is divided into three parts beginning with a systematic and in depth analysis of the key Treaty provisions regarding environmental protection as well as an overview of secondary environmental law Part two addresses the compatibility of EU and national environmental protection measures with the provisions of the TFEU on the free movement of goods and services and the freedom of establishment Part three examines the compatibility of environmental protection measures with treaty provisions on the freedom of competition and State aids The book also includes discussion of all major cases handed down by the Court of Justice highlighting the real impact of the conflicts

Environmental Law, Policy, and Economics Nicholas Askounes Ashford, Charles C.

Caldart, 2008 The past twenty five years have seen a significant evolution in environmental policy with new environmental legislation and substantive amendments to earlier laws significant advances in environmental science and changes in the treatment of science and scientific uncertainty by the courts This book offers a detailed discussion of the important issues in environmental law policy and economics tracing their development over the past few decades through an examination of environmental law cases and commentaries by leading scholars The authors focus on pollution addressing both pollution control and prevention but also emphasize the evaluation design and use of the law to stimulate technical change and industrial transformation arguing that there is a need to address broader issues of sustainable development Environmental Law Policy and Economics which grew out of courses taught by the authors at MIT treats the traditional topics covered in

most classes in environmental law and policy including common law and administrative law concepts and the primary federal legislation But it goes beyond these to address topics not often found in a single volume the information based obligations of industry enforcement of environmental law market based and voluntary alternatives to traditional regulation risk assessment environmental economics and technological innovation and diffusion Countering arguments found in other texts that government should play a reduced role in environmental protection this book argues that clear stringent legal requirements coupled with flexible means for meeting them and meaningful stakeholder participation are necessary for bringing about environmental improvements and technological transformations
