Environmentalism And The Gospel:

Should Christians Be Environmentalists? Dan Story, 2012-04-13 Did God instruct the human race to be His caretakers over nature If so is environmental exploitation disobedience to God Is it true as many critics claim that Christianity is the root cause of today's environmental problems or are all religions and cultures responsible How should the church respond Should Christians Be Environmentalists systematically tackles these tough questions and more by exploring what the Bible says about the environment and our stewardship of creation Looking at three dimensions of environmentalism as a movement a Bible based theology of nature and the role the church has in environmental ethics Dan Story examines each through a theological apologetic and practical lens *The Gospel of Climate Skepticism* Robin Globus Veldman, 2019-10-22 Why are white evangelicals the most skeptical major religious group in America regarding climate change Previous scholarship has pointed to cognitive factors such as conservative politics anti science attitudes aversion to big government and theology Drawing on qualitative fieldwork *The Gospel of Climate Skepticism* reveals the extent to which climate skepticism and anti environmentalism have in fact become embedded in the social world of many conservative evangelicals Rejecting the common assumption that evangelicals skepticism is simply a side effect of political or theological conservatism the book further shows that between 2006 and 2015 leaders and pundits associated with the Christian Right widely promoted skepticism as the biblical position on climate change *Environmentalism and the Gospel* Gale Lyle Pooley, 1995-05-01 **About Earth's Child** Michael Trainor, 2017-09-20 How does sensitivity to current ecological and environmental issues impact on our hearing of the Gospels *About Earth's Child* listens for the ecological sounds that are present in Luke's narrative symphony and offers a way for readers today to identify them Michael Trainor approaches Luke's Gospel with a fresh engagement while respecting the evangelist's own purposes in addressing the social and cultural concerns of first century followers of Jesus Hearing the Gospel from an ecological perspective allows us to see how Luke presents Jesus as Earth's Child In the Gospel's early chapters Jesus is presented as born of Earth wrapped with Earth's cloth and laid in Earth's manger In the final chapters he is affixed to Earth's wood and laid in Earth's receptacle from where he is resurrected and meets his disciples Between these opening and closing chapters a remarkable story of Earth unfolds This concerns all Earth's members human and non human organic and inanimate It is about God angels demons human beings soil seeds mountains waters animals even ravens pigs and a couple of asses Luke presents a fundamental truth about following Jesus how one treats Earth and freely shares its fruits are central An authentic disciple of Jesus is ecologically contemplative and environmentally respectful *About Earth's Child* sparkles with surprising insights as Jesus teaching and his meal and healing ministries take on new meaning for today's world faced with growing environmental challenges *The Gospel*
