Enlightenment A Sourcebook And Reader:

The Enlightenment Paul Hyland, Olga Gomez, Francesca Greensides, 2003 This outstanding sourcebook brings together the work of major Enlightenment thinkers to illustrate the full importance and achievements of this great period of change

The Enlightenment Paul Hyland, Olga Gomez, Francesca Greensides, 2003 Capitalism and Classical Social Theory, Third Edition John Bratton, David Denham, 2019-05-31 In this third edition of *Capitalism and Classical Social Theory* John Bratton and David Denham build on the classical triumvirate Karl Marx, Emile Durkheim and Max Weber by extending the conversation to include early female theorists such as Mary Wollstonecraft and Charlotte Perkins Gilman as well as the writings of W E B Du Bois and G H Mead Connecting current headlines in the political mainstream to concepts like alienation, anomie, class, gender, race and the environment *Capitalism and Classical Social Theory* sheds light on how classical social theories may be applied and understood within a contemporary context This revised and expanded third edition features topical discussions of socio economic shifts in the post Trump and post Brexit world and uses original excerpts and additional readings to further contextualize the significance of classical social theory today **Capitalism and Classical Social Theory, Second Edition** John Bratton, David Denham, 2014-01-24 Most texts on classical social theory offer exhaustive coverage of every possible theorist making it difficult to use the book in one semester *Capitalism and Classical Social Theory Second Edition* represents a departure from this approach by offering solid coverage of the classical triumvirate Marx, Durkheim and Weber but also extending the canon strategically to include Simmel, four early female theorists and the writings of Du Bois The result is a manageable but thorough examination of the key classical theorists The second edition has been updated throughout and includes two new chapters one on Weber and rationalization and one on Du Bois and his writings on race A new concluding chapter links classical theory to current developments in capitalism during an age of austerity *A Short History of Secularism* Graeme Smith, 2007-11-28 What does it mean to call Western society secular What is secularism And how should we understand the concept of secularism in international relations particularly the clash between radical Islam and the West The Latin term from which the word secular is derived *saeculum* means generation or age and came to mean that which belongs to this life to the here and now in this world It is widely used as a shorthand for the ideology which shapes contemporary society without reference to the divine However according to Graeme Smith secularism represents a great deal more He offers a radical reappraisal of the notion of secularism and its history beginning with the Greeks and proceeding to modernity and the contemporary period The assumption that the West is becoming increasingly secular is often unquestioned By contrast Dr Smith discerns a different kind of society one informed by a historical legacy which makes sense only when it is appreciated that it is religious Secularism was born of Christianity Daringly and very originally Smith argues that it is impossible to understand the idea of the secular without appreciating that at root it is Christian *A Short History of Secularism* will fundamentally reshape discussions of western culture, religion and

politics It will have strong appeal to students of religion political philosophy and the history of ideas The Routledge Companion to Historical Studies Alun Munslow,2006-02-01 The Routledge Companion to Historical Studies provides a much needed critical introduction to the major historians and philosophers together with the central issues ideas and theories which have prompted the rethinking of history that has gathered pace since the 1990s With twenty nine new entries and many that have been substantially updated key concepts for the new history are examined through the ideas of leading thinkers such as Kant Nietzsche Croce Collingwood White Foucault and Derrida and subjects range over class empiricism hermeneutics inference relativism and technology New entries for the second edition include Carl Becker Frank R Ankersmit Jean Francois Lyotard gender justified belief the aesthetic turn race film biography cultural history critical theory and experimental history With a revised introduction setting out the state of the discipline of history today as well as an extended and updated bibliography this is the essential reference work for all students of history The Golem in German Social Theory Gad Ya'ir,Michaela Soyer,2008-01-01 The Golem in German Social Theory provides an innovative and bold interpretation of German social theory Authors Gad Yair and Michaela Soyer argue that the mythological story of the Golem rising over its master provides the basic code which animated German social theory from the 19th century until the 21st century Yair and Soyer illustrate how the Golem run mad narrative permeates the history of modern German social thought and how it now provides a convenient literary tool for re reading German critiques of the Enlightenment modernity capitalism and progress The Golem in German Social Theory points out a family resemblance that unites German theorists enhancing interpretation of their writings and understanding of their moral vehemence **The Ancient Greek Roots of Human Rights** Rachel Hall Sternberg,2021-06-29 Although the era of the Enlightenment witnessed the rise of philosophical debates around benevolent social practice the origins of European humane discourse date further back to Classical Athens The Ancient Greek Roots of Human Rights analyzes the parallel confluences of cultural factors facing ancient Greeks and eighteenth century Europeans that facilitated the creation and transmission of humane values across history Rachel Hall Sternberg argues that precursors to the concept of human rights exist in the ancient articulation of emotion though the ancient Greeks much like eighteenth century European societies often failed to live up to those values Merging the history of ideas with cultural history Sternberg examines literary themes upholding empathy and human dignity from Thucydides s and Xenophon s histories to Voltaire s Candide and from Greek tragic drama to the eighteenth century novel She describes shared impacts of the trauma of war the appeal to reason and the public acceptance of emotion that encouraged the birth and rebirth of humane values **God's Word Alone---The Authority of Scripture** Matthew Barrett,2016-09-20 Scholar and pastor Matthew Barrett retraces the historical and biblical roots of the doctrine that Scripture alone is the final and decisive authority for God s people God s Word Alone is a decisive defense of the Bible as the inspired and inerrant Word of God Revitalizing one of the five great declarations of the Reformation sola Scriptura Barrett Analyzes what the idea of sola

Scriptura is and what it entails clarifying why the doctrine is truth and why it is so essential to Christianity Surveys the development of this theme in the Reformation and traces the crisis that followed resulting in a shift away from the authority of Scripture Shows that we need to recover a robust doctrine of Scripture's authority in the face of today's challenges and why a solid doctrinal foundation built on God's Word is the best hope for the future of the church This book is an exploration of the past in order to better understand our present and the importance of reviving this indispensable doctrine for the Christian faith and church today THE FIVE SOLAS Historians and theologians have long recognized that at the heart of the sixteenth century Protestant Reformation were five declarations often referred to as the solas These five statements summarize much of what the Reformation was about and they distinguish Protestantism from other expressions of the Christian faith that they place ultimate and final authority in the Scriptures acknowledge the work of Christ alone as sufficient for redemption recognize that salvation is by grace alone through faith alone and seek to do all things for God's glory The Five Solas Series is more than a simple rehashing of these statements but instead expounds upon the biblical reasoning behind them leading to a more profound theological vision of our lives and callings as Christians and churches

Science, Worldviews and Education Michael Matthews, 2009-07-14 This book has its origins in a special issue of the journal *Science Education* Volume 18 Numbers 6-7 2009 The essay by Costas Skordoulis *Science and Worldviews in the Marxist Tradition* did not appear in that special issue due to a mistake in production scheduling It was published in an earlier issue of the journal Volume 17 Number 6 2008 but has been included in this book version of the special issue As explained in the Introduction the catalyst for the journal special issue was the essay on *Science Worldviews and Education* submitted to the journal by Hugh G Gauch Jr This was circulated to the other contributors who were asked to write their own contribution in the light of the arguments and literature contained in the paper Hugh made brief Responses and Clarifications after the papers were written However the Tanis Edis article on Islam and my own article on Priestley were processed too late to benefit from Hugh's appraisal The journal is associated with the International History Philosophy and Science Teaching Group which was formed in 1987 The group stages biennial international conferences and occasional regional conferences details can be found at www.ihpst.org The group though the journal conferences and its electronic newsletter at www.ihpst.org

The Myth of Religious Violence William T Cavanaugh, 2009-09-03 The idea that religion has a dangerous tendency to promote violence is part of the conventional wisdom of Western societies and it underlies many of our institutions and policies from limits on the public role of religion to efforts to promote liberal democracy in the Middle East William T Cavanaugh challenges this conventional wisdom by examining how the twin categories of religion and the secular are constructed A growing body of scholarly work explores how the category religion has been constructed in the modern West and in colonial contexts

according to specific configurations of political power Cavanaugh draws on this scholarship to examine how timeless and transcultural categories of religion and the secular are used in arguments that religion causes violence He argues three points 1 There is no transhistorical and transcultural essence of religion What counts as religious or secular in any given context is a function of political configurations of power 2 Such a transhistorical and transcultural concept of religion as non rational and prone to violence is one of the foundational legitimating myths of Western society 3 This myth can be and is used to legitimate neo colonial violence against non Western others particularly the Muslim world
