**Enlightenment** Daniel Roche, 1998 A panorama of a whole civilization a world on the verge of cataclysm unfolds in this magisterial work by the foremost historian of eighteenth century France Since Tocqueville's account of the Old Regime historians have struggled to understand the social cultural and political intricacies of this efflorescence of French society before the Revolution France in the Enlightenment is a brilliant addition to this historical interest France in the Enlightenment brings the Old Regime to life by showing how its institutions operated and how they were understood by the people who worked within them Daniel Roche begins with a map of space and time depicting France as a mosaic of overlapping geographical units with people and goods traversing it to the rhythms of everyday life He fills this frame with the patterns of rural life urban culture and government institutions Here as never before we see the eighteenth century French culture of appearances the organization of social life the diffusion of ideas the accoutrements of ordinary people in the folkways of ordinary living their food and clothing living quarters reading material Roche shows us the eighteenth century France of the peasant the merchant the noble the King from Paris to the provinces from the public space to the private home By placing politics and material culture at the heart of historical change Roche captures the complexity and depth of the Enlightenment From the finest detail to the widest view from the isolated event to the sweeping trend his masterly book offers an unparalleled picture of a society in motion flush with the transformation that will be its own demise *Mesmerism*

*and the End of the Enlightenment in France* Robert Darnton, 1968 Early in 1788 Franz Anton Mesmer arrived in Paris and began to promulgate an exotic theory of healing that almost immediately seized the imagination of the general populace Robert Darnton's lively study provides a useful contribution to the study of popular culture and the manner in which ideas are diffused down through various social levels **The Cambridge Companion to the French Enlightenment** Daniel

Brewer, 2014-10-27 The Enlightenment has long been seen as synonymous with the beginnings of modern Western intellectual and political culture As a set of ideas and a social movement this historical moment the age of reason of the seventeenth and eighteenth century is marked by attempts to place knowledge on new foundations The Cambridge Companion to the French Enlightenment brings together essays by leading scholars representing disciplines ranging from philosophy religion and literature to art medicine anthropology and architecture to analyse the French Enlightenment Each essay presents a concise view of an important aspect of the French Enlightenment discussing its defining characteristics internal dynamics and historical transformations The Companion discusses the most influential reinterpretations of the

Enlightenment that have taken place during the last two decades reinterpretations that both reflect and have contributed to important re evaluations of received ideas about the Enlightenment and the early modern period more generally

**Belief and Politics in Enlightenment France** Mita Choudhury, 2019 Written in honor of Dale K Van Kley leading specialist on religion and politics in the Old Regime and the French Revolution these essays examine how Jansenist belief shaped enlightenment ideas cultural identities social relations and politics in France throughout the long eighteenth century Van Kley s work has invited scholars to think beyond the traditional parameters of the Enlightenment and to consider how religious faith functioned in the broader context of Old Regime Revolutionary and post Revolutionary France In different ways each essay challenges the idea of an inherent opposition between faith and Enlightenment which likewise equates modernity with secularization The authors within this volume address two main questions Firstly how did religious belief continue to shape identities and experiences in the long eighteenth century Secondly how does this narrative of enduring religious belief in eighteenth century France help historians rethink the Enlightenment and the French Revolution The various methodologies used by the contributors illustrate how belief Enlightenment and Revolution coexisted and indeed co mingled in different contexts politics and political culture the social and cultural history of ideas and the history of material culture Winner of Baylor University s 2019 Guittard Book Award for Historical Scholarship Mita Choudhury is professor of History at Vassar College Her publications have focused on eighteenth century French politics religion and gender Daniel J Watkins is assistant professor of History at Baylor University His research focuses on the cultural and intellectual history of eighteenth century France and the Catholic Church

**The Virtues of Abandon** Charly Coleman, 2014-07-01 France in the eighteenth century glittered but also seethed with new goods and new ideas In the halls of Versailles the streets of Paris and the soul of the Enlightenment itself a vitriolic struggle was being waged over the question of ownership of property of position even of personhood Those who championed man s possession of material spiritual and existential goods faced the successive assaults of radical Christian mystics philosophical materialists and

political revolutionaries The Virtues of Abandon traces the aims and activities of these three seemingly disparate groups and the current of anti individualism that permeated theology philosophy and politics throughout the period Fired by the desire to abandon the self men and women sought new ways to relate to God nature and nation They joined illicit mystic cults that engaged in rituals of physical mortification and sexual license committed suicides in the throes of materialist fatalism drank potions to induce consciousness altering dreams railed against the degrading effects of unfettered consumption and ultimately renounced the feudal privileges that had for centuries defined their social existence The explosive denouement was the French Revolution during which God and king were toppled from their thrones

*Reading Drama in Eighteenth-Century France* Thomas Wynn, 2024-01-10 *Reading Drama in Eighteenth Century France* is the first book length study of how plays were read in eighteenth century France and relatedly of closet drama excessive plays that cannot be performed within the playhouse s confines and which thus appeal to the reader s imagination This period in France was characterized by th tromanie a craze that encompassed the page as well as the stage The book s first part surveys the historical context in which plays were read and offers a theoretical model for understanding this practice The eighteenth century closet was valued as a privileged site of reading Although scholars routinely present this room as a place of calm reflection Thomas Wynn develops a framework derived in part from queer theory to argue that it fosters passionate and disruptive pleasures that elude the coercive normativity of the playhouse To explore the multipositional experience of reading plays in this period Wynn turns to the journal *Mercure de France* whose extensive reviews help us to think about geographies of reading coercion and autonomy The second part examines how dramatists exploited the critical imaginative and formal potential of the reading experience It offers close analysis of several closet plays comedies depicting the dispute between Jesuits and Jansenists in the 1730s H nault s historical drama *Fran ois II roi de France* 1747 and erotic plays from the end of the period The study concludes with an account of R tif de La Bretonne s *Le Drame de la vie* 1793 an extreme and arguably unsurpassed example of closet drama Ultimately this book shows closet drama is not failed theatre but rather an indisputable part of the lively passionate and combative theatrical culture of eighteenth century France

**Belief and Politics in Enlightenment France** Mita Choudhury, Daniel J. Watkins, 2019 Written in honor of Dale K Van Kley leading specialist on religion and politics in the Old Regime and the French Revolution these essays examine how Jansenist belief shaped enlightenment ideas cultural identities social relations and politics in France throughout the long eighteenth century Van Kley s work has invited scholars to think beyond the traditional parameters of the Enlightenment and to consider how religious faith functioned in the broader context of Old Regime Revolutionary and post Revolutionary France In different ways each essay challenges the idea of an inherent opposition between faith and Enlightenment which likewise equates modernity with secularization The authors within this volume address two main questions Firstly how did religious belief continue to shape identities and experiences in the long eighteenth century Secondly how does this narrative of enduring

religious belief in eighteenth century France help historians rethink the Enlightenment and the French Revolution The various methodologies used by the contributors illustrate how belief Enlightenment and Revolution coexisted and indeed co mingled in different contexts politics and political culture the social and cultural history of ideas and the history of material culture

**The Style of Paris** George Huppert,1999 impressive and challenging reevaluation of the sixteenth century origins of the Enlightenment Sixteenth Century Journal In this book George Huppert introduces the reader to a group of talented young men some of them teenagers who were the talk of the town in Renaissance Paris They called themselves philosophes they wrote poetry they studied Greek and mathematics and they entertained subversive notions concerning religion and politics Classically trained they wrote nevertheless in French so as to reach the widest possible audience These young radicals fostered a succession of disciples who expressed confidence in the eventual enlightenment of humankind and whose ideas would bear fruit two centuries later

Ireland and French Enlightenment, 1700-1800 G. Gargett,G. Sheridan,1999-02-08 By what channels did the French Enlightenment reach the eighteenth century Irish reader and what impact did it have What were the images of Ireland current in the France of the philosophers like Voltaire These are the questions which a team of scholars attempt to answer in this volume

The Other Enlightenment Carla Hesse,2018-06-05 The French Revolution created a new cultural world that freed women from the constraints of corporate privilege aristocratic salons and patriarchal censorship even though it failed to grant them legal equality Women burst into print in unprecedented numbers and became active participants in the great political ethical and aesthetic debates that gave birth to our understanding of the individual as a self creating self determining agent Carla Hesse tells this story delivering a capacious history of how French women have used writing to create themselves as modern individuals Beginning with the marketplace fishwives and salon hostesses whose eloquence shaped French culture low and high and leading us through the accomplishments of Simone de Beauvoir Hesse shows what it meant to make an independent intellectual life as a woman in France She offers exquisitely constructed portraits of the work and mental lives of many fascinating women including both well known novelists and now obscure pamphleteers who put pen to paper during and after the Revolution We learn how they negotiated control over their work and authorial identity whether choosing pseudonyms like Georges Sand or forsaking profits to sign their own names We encounter the extraordinary Louise de K ratio Robert a critically admired historian who re created herself as a revolutionary novelist We meet aristocratic women whose literary criticism subjected them to slander as well as writers whose rhetoric cost them not only reputation but marriage citizenship and even their heads Crucially their stories reveal how the unequal terms on which women entered the modern era shaped how they wrote and thought Though women writers and thinkers championed the full range of political and social positions from royalist to Jacobin from ultraconservative to fully feminist they shared common moral perspectives and representational strategies Unlike the Enlightenment of their male peers theirs was more skeptical than idealist more situationalist than universalist And this

alternative project lies at the very heart of modern French letters      **The Politics of Virtue in Enlightenment France** M. Linton, 2001-10-05 This is the first study to focus on the idea of virtue and its place in political thought in eighteenth century France Virtue could be used to impart moral authority to arguments about political power The development of this strategic idea is traced through the works of key Enlightenment thinkers There is also consideration of the ways in which numerous popular writers of the day including clerics eulogists journalists novelists and lawyers employed the idea of virtue in polemical discussions in their writings      *Human Nature and the French Revolution* Xavier Martin, 2003-12-01 What view of man did the French Revolutionaries hold Anyone who purports to be interested in the Rights of Man could be expected to see this question as crucial and yet surprisingly it is rarely raised Through his work as a legal historian Xavier Martin came to realize that there is no unified view of man and that alongside the official revolutionary discourse very divergent views can be traced in a variety of sources from the Enlightenment to the Napoleonic Code Michelet's phrases Know men in order to act upon them sums up the problem that Martin's study constantly seeks to elucidate and illustrate it reveals the prevailing tendency to see men as passive giving legislators and medical people alike free rein to manipulate them at will His analysis impels the reader to reevaluate the Enlightenment concept of humanism By drawing on a variety of sources the author shows how the anthropology of Enlightenment and revolutionary France often conflicts with concurrent discourses      Montesquieu Susan Gordon, 2005-12-15 Highlights the life of philosopher and prolific author Chales Montesquieu and discusses two of his well known books on political philosophy Persian Letters and The Spirit of the Laws      **French Women and the Age of Enlightenment** Samia I. Spencer, 1992-09-22 The collection is more than the sum of its parts and it will be difficult even for men to look at the French Enlightenment and the French Revolution in quite the same way again London Review of Books a significant contribution to the general history of women an indispensable complement to our understanding of the eighteenth century Romance Quarterly      *Engineering the Revolution* Ken Alder, 2010-04-15 Engineering the Revolution documents the forging of a new relationship between technology and politics in Revolutionary France and the inauguration of a distinctively modern form of the technological life Here Ken Alder rewrites the history of the eighteenth century as the total history of one particular artifact the gun by offering a novel and historical account of how material artifacts emerge as the outcome of political struggle By expanding the political to include conflict over material objects this volume rethinks the nature of engineering rationality the origins of mass production the rise of meritocracy and our interpretation of the Enlightenment and the French Revolution      The Military Enlightenment Christy L. Pichichero, 2017-11-15 The Military Enlightenment brings to light a radically new narrative both on the Enlightenment and the French armed forces from Louis XIV to Napoleon Christy Pichichero makes a striking discovery the Geneva Conventions post traumatic stress disorder the military band of brothers and soldierly heroism all found their antecedents in the eighteenth century French armed forces Readers of The Military Enlightenment will be startled to learn of the many ways in which French military officers administrators and

medical personnel advanced ideas of human and political rights military psychology and social justice
