Enlisting Women For The Cause:

Enlisting Women for the Cause Linda Kealey, 1998 In *Enlisting Women for the Cause* Linda Kealey Recreates the Experiences of Canadian women on the left in the late nineteenth and early twentieth centuries a crucial period when women became more prominent in the work force in labour unions and in politics where they fought for and ultimately won the vote The book examines discourse on women s work and attempts to regulate it labour activism including formal membership in unions and parties as well as women s auxiliaries and organizations such as the Women s Labor League and women s militancy during the First World War and the troubled post war period The author argues that women helped mount an opposition to the inequalities inherent in industrial capitalism but they also had to fight against the supporting role they were forced to play in the very movements to which they belonged Kealey explores what the left thought about women s participation in politics and left wing organizations across the country and she also looks at the nature of that participation itself The scope of her book puts it in the forefront of its field

Reasoning Otherwise Ian McKay, 2008-11-15 In *Reasoning Otherwise* author Ian McKay returns to the concepts and methods of reconnaissance first outlined in *Rebels Reds Radicals* to examine the people and events that led to the rise of the left in Canada from 1890 to 1920 *Reasoning Otherwise* highlights how a new way of looking at the world based on theories of evolution transformed struggles around class religion gender and race and culminates in a new interpretation of the Winnipeg General Strike of 1919 As McKay demonstrated in *Rebels Reds Radicals* the Canadian left is alive and flourishing and has shaped the Canadian experience in subtle and powerful ways *Reasoning Otherwise* continues this tradition of offering important new insight into the deep roots of leftism in Canada

Seneca Falls and the Origins of the Women's Rights Movement Sally McMillen, 2009-09-08 In a quiet town of Seneca Falls New York over the course of two days in July 1848 a small group of women and men led by Elizabeth Cady Stanton and Lucretia Mott held a convention that would launch the woman s rights movement and change the course of history The implications of that remarkable convention would be felt around the world and indeed are still being felt today In *Seneca Falls and the Origins of the Woman s Rights Movement* the latest contribution to Oxford s acclaimed *Pivotal Moments in American History* series Sally McMillen unpacks for the first time the full significance of that revolutionary convention and the enormous changes it produced The book covers 50 years of women s activism from 1840 1890 focusing on four extraordinary figures Lucretia Mott Elizabeth Cady Stanton Lucy Stone and Susan B Anthony McMillen tells the stories of their lives how they came to take up the cause of women s rights the astonishing advances they made during their lifetimes and the lasting and transformative effects of the work they did At the convention they asserted full equality with men argued for greater legal rights greater professional and education opportunities and the right to vote ideas considered wildly radical at the time Indeed looking back at the convention two years later Anthony called

it the grandest and greatest reform of all time and destined to be thus regarded by the future historian In this lively and warmly written study Sally McMillen may well be the future historian Anthony was hoping to find A vibrant portrait of a major turning point in American women s history and in human history this book is essential reading for anyone wishing to fully understand the origins of the woman s rights movement *The Women's Army Corps, 1945-1978* Bettie J.

how Kingsley's life intersected with immigration law and free speech rights. *Able to Lead* brings a turbulent period in North American history to life highlighting Kingsley's profound legacy for the twenty-first century political left. **Canadian Marxists and the Search for a Third Way** Peter Campbell, 2000-01-01 Focusing on four individuals Canadian Marxists and the Search for a Third Way describes the lives and ideas of Ernest Winch, Bill Pritchard, Bob Russell, and Arthur Mould, and examines their efforts to put their ideas into practice. Campbell begins by looking at their childhoods in Great Britain, particularly their religious upbringing. He considers their family life, their attitudes toward women and ethnic minorities, what they were reading, and what effect that reading had on their theory and practice. He describes their lives as labor leaders and advocates of socialism, revealing how tenaciously in an increasingly hierarchical, bureaucratized, and state-driven capitalist society they held to the idea that socialism must be created by the working class itself. This is a unique look at four Canadian Marxists and their struggle to create an educated, disciplined, democratic mass-based movement for revolutionary change.

Women in the Coast Guard, 1992 **Rethinking Feminist History and Theory** Lisa Pasolli, Julia Smith, 2025-01-31 Rethinking Feminist History and Theory considers the past, present, and future of feminist history and theory, emphasizing how feminism has influenced the histories of gender, class, and labour, and their intersections. This vibrant collection, inspired by the work of historian and women's studies scholar Joan Sangster, features essays from academics across multiple disciplines, highlighting the dynamism of feminist historical scholarship in Canada. The book explores questions such as the following: How has women's resistance and radicalism been expressed, lived, represented, and repressed over the past century? How do we research these phenomena? How do we situate feminism in relation to other movements for egalitarian social change? Contributors explicitly address these recurring themes, aiming to chart new directions for future research and teaching. While primarily Canadian-focused, the collection includes global perspectives with contributions from scholars in Chile, Finland, Sweden, and the UK. The essays emphasize the importance of cross-disciplinary collaboration, incorporating insights from labour studies, political economy, anthropology, legal studies, and feminist theory. Ultimately,

Rethinking Feminist History and Theory engages deeply with Sangster's rich and wide ranging work to understand and interpret women's experiences. It seeks to inspire future scholarship and teaching in feminist history and theory showcasing the ongoing relevance and adaptability of feminist perspectives. *Annual Report of the Surgeon General, U.S. Navy ...* United States.
