Enoch Powell A Biography:

Like the Roman Simon Heffer, 2008 Bringing great writing back into print a Faber Finds book **Enoch Powell** Robert Shepherd, 1996 In this biography Robert Shepherd puts the life and work of Enoch Powell in a new political philosophical and emotional perspective The book draws on interviews with Powell and on a wealth of new research **The Lives of Enoch Powell** Patrick Cosgrave, 1989 The Lives and Afterlives of Enoch Powell Olivier Esteves, Stéphane Porion, 2019-04-30 50 years after Enoch Powell's self-styled detonation in the form of his so-called Rivers of Blood speech this volume brings together contributions from international scholars in the field of history political science and British studies with new insights from hitherto unexplored archives It investigates some of the key national and grassroots parameters which from above and from below led to Powell's violent irruption into the immigration debate in 1968 It apprehends Powell as a political and intellectual figure firmly established in the British Tory tradition a tradition which was to shape the 1970s debate on race and immigration and be avidly instrumentalised by the British far right It also analyses Powell's positioning vis-à-vis the Irish question and apprehends Powell's late 1960s moment from an international standpoint as one of the early stages of the conservative revolution which was to culminate in 2016 with Trump's election Lastly this book weaves a thread between Powell and another recent political detonation Brexit Enoch Powell Robert Shepherd, 1998-12 *The Enoch Powell Fireside Book*, 1972 **Enoch Powell** Paul Corthorn, 2019-08-22 Best known for his notorious Rivers of Blood speech in 1968 and his outspoken opposition to immigration Enoch Powell was one of the most controversial figures in British political life in the second half of the twentieth century and a formative influence on what came to be known as Thatcherism Telling the story of Powell's political life from the 1950s onwards Paul Corthorn's intellectual biography goes beyond a fixation on the Rivers of Blood speech to bring us a man who thought deeply about and often took highly unusual and sometimes apparently contradictory positions on the central political debates of the post 1945 era denying the existence of the Cold War at one stage going so far as to advocate the idea of an alliance with the Soviet Union advocating free market economics long before it was fashionable while remaining a staunch defender of the idea of a National Health Service vehemently opposing British membership of the European Economic Community arguing for the closer integration of Northern Ireland with the rest of the UK and in the 1980s supporting the campaign for unilateral nuclear disarmament In the process Powell emerges as more than just a deeply divisive figure but as a seminal political intellectual of his time Paying particular attention to the revealing inconsistencies in Powell's thought and the significant ways in which his thinking changed over time Corthorn argues that Powell's diverse campaigns can nonetheless still be understood as a coherent whole if viewed as part of a long running and wide ranging debate set against the backdrop of the long term decline in Britain's international military and economic position in the decades after 1945 *Asperger Syndrome* Viktoria Lyons, Michael Fitzgerald, 2005 Alfred Kinsey world famous American sexologist whose life is portrayed in the 2005 movie Kinsey had it Stanley Kubrick one of the most

important and influential filmmakers of the last century and director of cinematic masterpieces such as *Clockwork Orange*, *Lolita* and *2001 Space Odyssey* fits the diagnosis. Undoubtedly Patricia Highsmith, renowned writer of crime fiction, particularly the Ripley novels, suffered from it. Likewise Charles Darwin, one of the most influential and revolutionary scientists of all times, as well as Bertrand Russell, foremost philosopher and mathematician of the 20th century, meet diagnostic criteria for Asperger syndrome. Other less well known personalities such as the Swiss writer Robert Walser, Joy Adamson, famous for her work with animals in Africa, the controversial British politician Enoch Powell, the gifted mathematician Kurt Godel, and the American child prodigy William James Sidis, are also linked to the condition. Asperger syndrome is a neuropsychiatric condition, a lifelong and pervasive developmental disorder which sometimes is associated with high intelligence and creativity, very little emphasis on special strengths or talents. Some individuals with Asperger Syndrome are extremely successful in their area of expertise and lead fulfilling lives despite or because of their condition, while others are considered failures and life for them is an endless struggle on the margins of society. For some Asperger syndrome appears to be a gift, for others a curse. In order to address this issue, the authors analyse the life histories of ten historical and contemporary figures from the world of literature, film, politics, science, philosophy and mathematics who had Asperger syndrome against the backdrop of neuropsychological theories of autism, Asperger syndrome, latest neurobiological research data and current interpretation of special gifts and assets. They also advance a new hypothesis of Asperger syndrome as a disorder of the social self based on right hemisphere dysfunction and demonstrate that the impact of the disorder on the development of the Self of each individual manifests itself in very distinct ways.

After Ancient Biography Robert Fraser, 2020-08-25. Marrying life writing with classical reception, this book examines ancient biography and its impact on subsequent ages. Close readings of ancient texts are framed by an assessment of their influence on the age of the French Revolution and Napoleon, and on the nineteenth, twentieth and twenty-first centuries of responses to ancient biography of modern critics and of its visible legacy in art and film. Crucially, it asks what modern biographers can learn from their ancient predecessors. Are the challenges involved in life writing still the same? Have working methods changed and in what ways? What, in the context of biographical writing, is truth and how are its interests best served? How is it possible now, as then, honestly to convey a life?

The White Man's World Bill Schwarz, 2011-10-27. *The White Man's World* explores ideas of the white man during the last 100 years of the British Empire. Working back from Enoch Powell's Rivers of Blood speech of 1968, it discusses the racial assumptions that accompanied the founding of colonial Australia, South Africa and Rhodesia, colonies which were popularly known as white men's countries.

Postwar Conservatism, A Transnational Investigation Clarisse

Berthezène, Jean-Christian Vinel, 2017-04-19 This volume offers a unique comparative perspective on post war conservatism as it traces the rise and mutations of conservative ideas in three countries Britain France and the United States across a short twentieth century 1929 1990 and examines the reconfiguration of conservatism as a transnational phenomenon This framework allows for an important and distinctive point the 1980s were less a conservative revolution than a moment when conservatism understood in Burkean terms was outflanked by its various satellites and political avatars namely populism neoliberalism reaction and cultural and gender traditionalism No long running unique conservative mind comes out of this book s transnational investigation The 1980s did not witness the ascendancy of a movement with deep roots in the 18th century reaction to the French Revolution but rather the decline of conservatism and the rise of movements and rhetoric that had remained marginal to traditional conservatism The Art of Biography in Antiquity Tomas Hägg, 2012-04-05 Examines

the whole spectrum of Greek and Roman biography which explores the virtues and vices of philosophers statesmen and poets
